GRAIN AND PRODUCE MARKET

Despite Light Receipts Cash Wheat is Weak and Rules Unchanged to Two Cents Down.

PRETTY GOOD DEMAND FOR CORN

OMAHA, March 17, 1915 Cash wheat was weak today, ranging from unchanged to 2c lower. Heceipts of this cereal were light and there was

of this cereal were light and there was only a moderate demand.

Corn sold generally from unchanged to it lower. There was a pretty good demand for corn and the sales were fairly heavy, the bulk of the sales being of the mixed variety.

Oats receipts were again light and there was only a fair demand, the market ruling from unchanged to be lower.

There was a pretty good demand for rye, but the market was a trifle weak and sold it lower.

Barley was a trifle irregular, the maining barley seiling unchanged, and feed barley advancing a cent.

Clearances were: Wheat and flour sequal to 1,345,000 but; corn, 182,000 but; loses, \$89,000 bud.

Liverpool close: Wheat, \$450 lower; corn, 14462d lower.

CHICAGO GRAIN AND PROVISIONS

Features of the Trading and Closing Prices on Board of Trade.

CHICAGO, March 17.—Peace reports from Switzerland, as well as rumors of a wholesalle seigure of German ships in Brazil, led to sharp breaks today in the value of wheat. Prices closed heavy. The to 346654c net lower, with May at \$1.0861.08\footnote{1.08}c net lower, and outs \$600 to Ic. In provisions, the outcome varied from Mc decline to a rise of 10c.

Lowest prices of the day in the wheat pit were reached after word came that a representative of Turkey was making an reffort for a separate peace between Turkey and the Angio-French allies.

The weakness in the market, however, began on the receipt of dispatches from Liverpool asserting that 44 German vessels interned in Brazil since the opening of hostilities had been appropriated by the Brazilian government, and would likely be used for the transportation of wheat to Great Britialn from Argentina. The Brazilian reports were not continued, however. Although several railies took place in wheat, none proved to be of more than a transient character. Final quotations were within a shade of the bottom figures of the session.

shade of the bottom figures of the session.

Corn dropped as a result of the break
in wheat. The selling, however, was not
aggressive. Oats were represented by
the action of other cereals. As in corn,
the offerings were light.

Lower prices on hogs operated as a
weight on pork and ribs. Lard continued to show strength in line with
grease and cotton seed oil.

Coffee Market. NEW YORK, March 17.—COFFEE—
London press advices reporting that the
Brazilian government had taken over
forty-four interned German ships were
not confirmed in the coffee market here
today, but served to unsettle sentiment
and prices broke sharply under liquidation. Aside from these reports, which
suggested the possibility of lower ocean
freight rates, there appeared to be no
change in the news reaching the ring,
and a little European buying was reported on the decline. The market opened
at a decline of 9 to 18 points and active

Professionalism the Dominant Feature of Irregular and Narrow Session.

DEALINGS LIVELY NEW YORK, March 17.—Professionalism sounded the dorment features of today's irregular and circumseribed market with volume of operations much below recent active sessions. Deslings were lively in the forenoon, but dwindled steadily later, when a few specialities, notably Cruchle Steel, the day's foremost lessive, Mexican Petrolenim and Baldwin Locomotive, claimed the bulk of speculative attention at substantial gains. During the intermediate stages there was a brisk demand for rails, particularly the coal carriers. Norfolk & Western and Chesapeake & Ohlo advancing over 2 points each, while

Receipts were Cattle. NEW YORK, March 17,-Professionalist

ciamed the bulk of speculative attention at substantial gains. During the Intermediate stages there was a brisk demand for rails, particularly the coal carriers. Norfolk & Western and Chesapeake & Ohlo advancing over 2 points each, while Reeding, Lehish Valley and Baltimore & Ohio averaged a point. Canadian Pacific, New York Central and Ruck Island also displayed firmness on small operations.

The usual course was pursued by sugars, motors, equipments and the shipping shares, which were intermittently active. South Porto Rico sugar rising 5 to 193.

and American Sugar, 5 to 11%, presumably in connection with pending federal tariff legislation. Mercantile marine, preferred, featured the first hour's dealings, later extending its advance 2 to 74.

Metals were relatively inactive and disposed to yield. Kennecott Copper and and American Zinc proving the only marked exceptions, the later gaining 24 to the new record of 91%. United States Steel responded to the annual report of the corporation with a substantial fractional advance at the outset, but failed to hold all its rise. Bethiehem Steel scored a maximum advance of 5 to 234, and Lackawanna Steel denoted sleady absorption on its moderate improvements. Oils, speculative industrials, and express company shares featured the apath-etic final hour, while standard stocks in moved with narrow limits. Mixican Petroleum's high quotation of 113% repress company shares featured the apath-etic final hour, while standard stocks in moved with narrow limits. Mixican Petroleum's high quotation of 113% repress company shares featured the apath-etic final hour, while standard stocks in row of the corporation of 113% repress company shares featured the apath-etic final hour, while standard stocks in row of the corporation of 113% repress company shares featured the apath-etic final hour, while standard stocks in row of the corporation of 113% repressions. Total sales of stocks amounted to 730,-

Only by the use of superlatives can existing commercial and industrial conditions be adequately described. Great as are the gains shown by bank clearings, iron output, unfilled steel tonnage and similar indices, mere statistical records no longer fully reflect a situation for which there is no precedent. In some branches and sections the volume of business has reached such vast proportions that further expansion is dependent upon increased facilities for both production and distribution. Manufacturers in steel, in textile and in other lines are rejecting additional contracts, which they cannot handle, either because capacity is already booked far ahead, or through inability to obtain necessary raw materials. The most remarkable feature is the magnitude of the current demand in spite of prices that would ordinarily check it, urgent requests continuing to be made for immediate deliveries of leather, foot wear, dry goods, and especially of steel prolucts.
