

INSULT AMERICANS IN JUAREZ STREETS

Tension Between Two Nations at Border Shown by Contemptuous Attitude to "Gringos."

GAVIRA SHOWS HIS HATRED

EL PAXO, Tex., March 18.—The tension between the two nations at this point on the border was noticeably sharper today, as far as Juarez was concerned. General Gavira coupled his announcement as to the whereabouts of the American troops with a statement that he would no longer receive American newspaper correspondents.

In some instances the children in the streets threw mud at visiting Americans and shouted insults after them. Customs officials on the American side of the international bridge reported that they had heard scattered shots fired in Juarez during the past two nights, but were unable to ascertain the cause of the shooting.

Threatened with Death. Andres Garcia, Carranza consul here, announced today that he was being bombarded with threats of death and insults sent through the mails by followers of Felix Diaz. He said that similar communications were being sent to General Gavira in Juarez.

One such communication was written on a copy of an American newspaper which had large headlines announcing that Carranza had agreed to permit American troops to cross the border. Over this was written:

"You are a traitor to the national honor of Mexico and will meet the fate of such."

Another letter contained high flown phrases of Felix Diaz and denounced Carranza and Gavira as betrayers of their country. A third missive contained a fairly well-drawn caricature of the first chief, surrounded with obscene and menacing comment.

Consul Garcia said that he had detailed some of his agents to trace the senders of these letters and that he was practically certain of their identity. He said that as soon as he was sure of his men he would probably lay his information before the American authorities.

Conditions Fairly Quiet

WASHINGTON, March 17.—Reports to the State and War departments indicated that conditions generally in the interior of Mexico were fairly quiet. General Funston reported in one dispatch that there was some excitement at various points along the frontier. He said that trains southbound on the border carried only a few passengers. Other dispatches received from him were of purely routine character, it was said authoritatively.

Consular advice to the State department were to the effect that quiet prevailed in virtually all sections of Mexico with the exception of Tampico and Torreon. At Tampico and in the adjacent oil fields Americans were reported to be uneasy, although no disorders had developed. The attitude of the military forces in the district is said to be unfavorable to Americans.

It is believed, however, that when the acquiescent attitude of the de facto government toward the campaign against Villa becomes known there will be no further cause for apprehension.

Situation Not New One. The situation in Tampico is not a new one, and is not a direct result of the determination of the United States to capture Villa.

Torreon has for some time been a seat of disorder. Consul Williams, who left his consulate at Torreon in charge of the British vice consul returned to the border with a party of Americans reported to the State department late today that he had quit his post because of unbearable conditions.

One of the reports at the meeting was from the newly formed barbers' union. The names of forty Omaha barber shops displaying the union card were read.

After the routine business had been disposed of the meeting was devoted to a general discussion of the compensation law. This law is discussed by the Central labor body on the second meeting of each month.

Report from "Near The Line of March Of American Troops"

GUZMAN, Mex., March 18.—(Near the Line of March of American Troops.)—American troops already have passed south of the point and some twenty-five miles east on a line with Ascension and Janos. The American column is not moving on the route via Guzman, which is about thirty miles due south of Columbus, N. M., but evidently is relying on the garrison at Guzman to control points eastward of here.

A Carranza garrison occupies this city, and their commander said today that he had every confidence in the ability of his troops to maintain order at Guzman. Many persons taken to be bandits are to be seen, usually singly, in the lone some foothills and mountain passes to the west of the road which runs just the northern environs of Guzman.

These bandits, according to the people of this section, are usually seen leading their horses to the limited watering places located in the ravines of the foothills.

There is scarcely a sound along the lonely road north of Guzman except the cries of a few crows which fly about this region looking for the carcasses of horses.

FRENCH SEE VON TIRPITZ GOING MEANS SEA FIGHT

PARIS, March 18.—The retirement of Admiral Von Tirpitz is considered in French official circles, according to the Paris newspapers, to be due to the fact that he has opposed the coming out of the German fleet, while Emperor William desired to see it engage the British naval forces. The conclusion is consequently drawn that a change may be looked for in the German naval policy and that the recent appearance of German warships in the North Sea is a sign that preparations are being made for early action by the high sea fleet.

COLE YOUNGER REPORTED IN A SERIOUS CONDITION

LEE'S SUMMIT, Mo., March 18.—Cole Younger, former bandit, who is ill at his home here, was considered to be in a serious condition tonight by his physicians. He suffered a relapse this afternoon and only his strong constitution was keeping him alive tonight, his doctors asserted, as he had taken but little nourishment.

Kansas City Life

Eleven Years' Growth

	1904	1915	Increase
ANNUAL INCOME	\$ 172,426	\$ 2,835,202.00	1,544 Per Cent
NEW BUSINESS	2,050,119	21,707,080.00	1,043 Per Cent
PAID POLICYHOLDERS	32,983	973,300.00	2,850 Per Cent
LEGAL RESERVE FUND	144,984	4,841,030.00	3,239 Per Cent
NET SURPLUS	12,159	811,784.00	6,575 Per Cent

Every Kansas City Life Policy is secured by a Guaranty Fund of \$4,136,287.64 deposited with the State of Missouri—THE LARGEST DEPOSIT OF ANY MISSOURI COMPANY—and \$530,142.67 IN EXCESS of net liability to policyholders.

INSURANCE IN FORCE

Our Symmetrical Growth Makes This Pyramid Possible

TO POLICYHOLDERS: While the history of this company for the past eleven years has been an unbroken record of steady progress and financial success, the extraordinary percentages of increase in insurance in force, assets and surplus, make 1915 the best year in the entire life of the institution. During 1915 the percentage of net increase in Insurance Account to New Business was 52%, probably the greatest of any company.

DOES INSURANCE PAY? Upon policies which became claims last year there had been paid total premiums of \$58,415. Families of the insured received back every dollar of the premiums and \$285,467.72 IN EXCESS OF THAT AMOUNT—or a profit of over 589 per cent on the investment. Old-line insurance in these 169 instances had superlative merit AS AN INVESTMENT. YES! INSURANCE DOES PAY.

More than eighty-five per cent of the Company's funds are safely invested in first mortgages on improved real estate, school bonds and loans to policyholders, at satisfactory rates of interest. Constantly increasing land values in the West make farm mortgage loans highly desirable investments.

Our business is limited to the interior section where living conditions are favorable and as a result the death rate of the Company continues low. Death claims paid last year amounted to \$4 per \$1,000 of insurance in force. Good interest earnings and low death rate enable the Kansas City Life to furnish protection at the LOWEST NET COST.

The ratio of assets to liabilities was substantially increased during the past year—a striking evidence of careful administration of the Company's affairs. The excess of income over operating expenses was \$1,880,854.49, of which \$973,299.68 was paid to policyholders and \$850,859.63 was added to their reserves—thus 75% of the entire premium income was devoted to policyholders.

New insurance issued has averaged \$72,000.00 for every business day of 1915, increasing the number of company patrons to approximately 50,000 persons.

The Kansas City Life dominates in its home territory in the amount of new insurance issued. During nineteen-fifteen, as in former years, its new business in western territory, including Missouri, Kansas, Colorado, New Mexico, Oklahoma and northern Texas, was the greatest of any American company. This institution could receive no higher endorsement than this generous recognition and patronage from home territory where the company is best known.

The Kansas City Life has always been conspicuous for economy in administration. The total compensation of Home Office officials, directors and employees, last year was \$68,698—less than 2 1/2 per cent of income.

SALESMEN WANTED: Thru our system of co-operation with men in the field, previous experience is not necessary to success. Life underwriting has attracted the most brilliant men because it offers the greatest financial rewards. Our agency representatives earn large average incomes because the company is well and favorably known in western territory and Kansas City Life policies are easy to sell. If you have any ability as a salesman and are ambitious to increase your income, a connection with this successful western company is what you want.

We have attractive openings for a limited number of good men in Nebraska and Iowa. You are unjust to yourself if you do not write today for details of our agency proposition.
