"Willard was generally considered a 100 per cent better fighter than when he relieved Johnson of the championship down Havana way last which steam-rolled everything that stood April; he was put in Jim Corbett's class as a boxer, and in Jim Jeffries' class as a hitter. And after reading these stories Moran's "psychological advantage" must have dwindled to no advantage at all. In fact, it is Mr. Willard who now has that "psychological advantage.

One-Handed Fighter.

A fact not generally known is that Moran is a one-handed fighter. His right hand is his only asset. The knuckles on Frank's left hand no longer serve him in a fight, for every one of them is broken, and to hit two hard blows successively with them is to render the left hand practically useless. In recent fights Moran has swung that left quite often, but he did this merely as a "blind," to make the other fellow wary of the left and leave himself open for Frank's right. Willard, however, is aware of this fact, and he will keep a lynx eye on Moran's right only. Jess has perfected a left jab thing Moran may attempt with his right.
