GOES TO HIS BIRTHDAY PARTY

Never looking better and never feeling better, according to his own assertion, notwithstanding the fact | may that Sunday he observed his fiftysixth birthday, William J. Bryan spent fifteen minutes in Omaha yesterday morning, en route to Lincoln, where last evening he was the guest of honor at his birthday party.

Mr. Bryan came up from Kansas City in the morning, having spent Sunday there and observed the day and his birthday anniversary by delivering addresses in two of the Quinley just did it quiet-like. churches. He has been spending the greater portion of the winter at his two southern homes, one in Texas and the other in Florida, and, speaking of the winter, Mr. Bryan asserted that he had been having a most enjoyable time, but that he was glad to get back to Nebraska. How to Safely Peel Your Face

If you wear an aged, discolored or weather-beaten complexion, the most aensible think to do is to remove it—rather tean paten it over or "doctor" it with cosmetics. The only way to really remove the complexion—aside from resorting to an expensive and painful surgical operation—is by means of ordinary moreolized wax. Spread the wax over the face at night, as you would cold cream; wash it off in the morning. Tais gradually peels off the lifeless and, the half-dead outer skin, in minute particles—gradually the recsb young skin beneath beams forth. Then you have a clear, velvety, healthy-bued complexion such as no unnatural method can possibly produce. Freckley, blotches pimples—all surface defects due to weather, ill-health or the ravages of time, of course, disappear with the discarded skin. If you wear wrinkles or crowsfeet, the best thing to do is to bathe your face in a harmless lotion made by dissolving an ounce of powdered saxolite in a half pint witch hazel. Nothing else will so surely crase the unwelcome lines.—Advertise-
