GUEST OF OMAHA FRIENDS

By MELLIFICIA-March 20. A delightful little after-the-theater party was given Saturday evening at their home by the August M. Borglums. The guests of honor were Madame Calve and Signor Gasparri, Madame Calve's busband.

Madame Caive was fatigued by her week of singing at the Orpheum and requested that the party should be confined to a family affair—she would just rest and talk of friends she and the

AMERICA CREATES

Spring Opening Shows that Country Dean Tancock Makes This Appeal is No Longer Dependent Upon Gay Paris.

BLOUSES OF FILMIEST LACE

Spring, fresh, verdant and colorful, is the keynote of the decorations carried out in the spring fashion opening at the Brandels stores A profusion of apple blossoms, pink and red roses and luxuriant foliage, transforms the display windows and and hospitable invitation to come in, but the entire store into a garden or woodland, while real canary birds and white Java sparrows in highly ornamental Swiss cages, give just the proper touch of "atmosphere" to the whole ensemble.

All the adjectives in Webster's unabridged fall short of describing the beauties of the gowns themselves! Tier upon tier of abeet, delicate chiffons and crepes given a brilliant dash by the addition of \$3,000, but also have been able to meet shimmering gold and stiver lace, or gold and sliver beads, all these are introduced. The third step in our development has to make up a work of art that inspires exclamations of delight from all the fair ones who gave thereupon.

American Styles.

And here is the best point of all. These gowns represent American styles created by American designers and executed or American artists! "France needn't exist as a fashion center any more so far as we are concerned," declares Mr. Danforth, in charge of this department. "Take season has amply demonstrated that America can produce and execute styles as beautiful and as individual as anything ever brought over from Paris."

With which statement any woman who gazes upon these wonderful creations and appreciates their beauty will readily

The filmiest of lace blouses rival the ever-popular Georgette crepes in milady's favor, the cape coller of lace being the distinguishing feature of the new blouses. The detachable bishop collar and a new three-ruffle collar with corresponding three-ruffle cuff is distinctly smart, while the eternally feminine latest models.

It was the fifth anniversary of his pastorate. Reviewing the material accomplishments of these years he said:

"The first element of success came in the second year of my ministry when we set before us the task of paying off the debt of \$11,000 on the cathedral. The second factor in the development of the work has been the installation of the duplex system of giving. By this we have not only increased the revenues of the church our full obligations to the general church been the creation of an endowment fund.

which now amounts to over \$50,000." He pointed out also that the real indications of a church's success is in spiritual growth, increase of communicants and a growth in grace found in the lives of the people. He appealed for a \$3,000 Easter offering.
