DON'T forset to visit Arah L. Hungerford at Crawford while you are up in northwest Nebraska if you are going to akend the land drawing at Alliance Remember. Crawford is only 88 miles farther on to the north and, don't forget, the farther north you go the better the soil until you have passed Crawford a few miles, then the soil, perhaps, is not so good. However, you will not make a mistake by visiting Hungerford at Crawford—you have read his advertising for the last several years and you at least owe him a visit. Nebraska Lands.

Coffee Market.

NEW YORK, March 30—COFFEE—Denisla that the Brazilian government had seized interned German ships falled to create any important demand in the market for coffee futures here today, although reports of such action had been considered responsible for a sharp break in prices last week. The market opened at a decline of 5 to 11 points under scattering liquidation and some trade selling which seemed to be inspired by the large clearances reported from Santos for this country and reports that Brazil was offering a little more freely. Prices were steadied at the decline to 7.86c for May and 8.01 for September, however, and May later sold up to 7.94c and September to 8.10c on covering. The close was 1 to 5 points not lower. Sales were 25,500 bags. March, 7.86c; April, 7.86c; May, 7.86c; June, 7.86c; October, 8.18c; November, 8.17c; December, 8.00c; August, 8.04c; September, 8.08c; October, 8.18c; November, 8.17c; December, 8.18c; January, 8.26c; February, 8.29c. Spot coffee, quiet; Rio 18.65c; Santos 48, 105c., It was reported that Santos 48 were offered at 10.25c to 16.45c in the cost and freight market. The official cables showed that Rio was 75 rels lower than the last report which covered Thursday's market, while Santos was not quoted. Cotton Market.

PEACE RUMORS THE CAUSE

NEW YORK STOCK MARKET

NEW YORK, March 20 Stocks were

NEW YORK, March 20—Stocks were under steady pressure today, with severe losses in war issues, which yielded to 7 points, mainly in consequence of persistent peace rumors. Although these reports lacked even circumstantial detail, they were accepted with much seriousness in speculative circles and the short interest was increasingly active.

Reversal was accelerated in no small measure by the heaviness of United States steel, which was under restraint from the outset on a very large overturn. Selling of steel which seemed to emanate from aubstantial quarters had its basis partly on the theory that the present high level of prices for fabricated steel and iron must inevitably result in a curtailment of demand.

Even the brilliant statement of the Bethlehem Steel corporation for 1916, showing carnings of 112 per cent applicable to the common stock, failed to hold the industrial and equipment issues. Bethlehem on a very small output registered a loss of 14 at 520.

Lowest prices were made in the very active final hour when support of the special group was almost wholly lacking. United States ateel was offered in round amounts down to 84%, a loss of 14 points and closed at its minimum. Other weak shares included Cruchle steel, Weatinghouse. American and Baldwin Locomotive. American can, Mexican Petroleum and some of the metals.

In the main, rails gave a good account of themselves, losses in that group being confined to fractions, except in Reading, Canadian Pacific, Norfolk and Western and Allied shares, where receasions ranged from 1 to 3 points.

Total sales of stocks amounted to 25,000 shares.

During the early part of the sension there was some buying of the sension.

Total sales of stocks amounted to \$50,000 shares.

During the early part of the session there was some buying of the international list for London account, the Pacifics and Eries, as well as coppers being in special demand. Americans were firmer abroad, but Inactive.

in special demand. Americans were firmer abroad, but inactive.

Heaviness ruled in the bond market, the only noteworthy exception being An-gio-French 5a, which were fractionally higher. Total sales of bonds par value were \$3,890,000.
