NISH CAPTURED BY BULGARIAN FORCES

Capital of Serbia Falls and Way Now Open for Central Powers to

Constantinople.

LONDON, Nov. 7 .- The Bulgarians have occupied Nish, the Serbian capital, which gives them complete control of the railway from Prahova, on the Danube, and thus opens a through route for the central powers to Sofia and Constantinople.

In addition the Bulgarian and German main armies have effected a junction at Krivivir, so that the campaign, which has been somewhat slower than expected, probably will move at a faster pace. In fact, ex- for further belligerent operations." cept for the southern part of Serbia, the invasion is already gathering more headway, and despite Serbian resistance, the invading armies have all made considerable progress.

Defeated in South In the south, however, the allied forces appear to be too strong for the Bulgarians, who admit that they are faced by superior numbers. It is reported through the Serbian legation at Athens, that the British, French and Serbians have inflicted a severe defeat on the Bulgarians at lever, ten miles west of the Vardar river, where the French left wing Joins the right of the Serbian southern army, and that the Bulgars are retreating toward Velos.

More allied troops are being sent from Saloniki to the scene of the fighting in the hope that they will be able, by the capture of Veles, to compel the hulgarians who advanced west of Uskub to retire and clear the Saloniki-Milrovitsa railway, so that assistance can us sent to the Serbian northern army.

No Hope in Greece.
All assistance that reaches the Serbians apparently must be sent by the British and French, for, despite the defeat of the Zaimis government and the triumph of Venizelos in the Greek chamber, there is no evidence that Greece intends to change its policy. It was reported this morning that M. Zaimis had undertaken to form a cabinet, but this lacks confirmation, as dispatches from Athens are being much delayed.

There is also lack of news concerning manian frontier, while Roumania, like Greece, is maintaining its neutrality in the face of agitations in the country for Russia, however, is preventing the Austro-Germans from dispatching any additional troops from its front to the Balkans. More than half of Serbia is now in possession of the invadors, who also have taken the greater part of the country's railroad system. The new junction effected between Austro-German and Bul-garian forces, reported by Berlin today, completes the semi-circular wall of hostile armies about the retreating Serbians. It is said in Berlin that the Serbians have an open line of less than seventy for retreat into Montenegro, Should they seek refuge in that country they would be menaced by Austrian forces which already have begun an attack along the northern and western Monte-negrin frontiers.

13. Attention is directed to the fact that Great Britain admits that its exports to neutral countries have also materially increased since the present war began. "Thus Great Britain," says the note, "concernedly shares in creating a condition which is relied upon as sufficient ground to justify the interception of American goods destined to neutral European ports. Whatever may be the conjectural conclusions drawn from trade statistics. the United States "maintains the right to sell goods into the general stock of a neutral country, and denounces as illegal and unjustifiable any attempt of a belligerent to interfere with that right on the ground that it suspects that the pre-vious supply of such goods in the neutral country which the imports renew or re-place has been sold to an enemy. That is a matter with which the neutral wender has no concern and which can in no way at if goods listed as conditional contraband a neutral country, that fact is not in it-self sufficient to justify their seisure."

In view of these considerations the United States announces it has no other course but "to contest seisures of vessels at sea upon conjectural suspicion and the practice of bringing them into port for purpose of search of obtaining evidence." and adds that "relying upon the regard of the British government for the principles of justice so frequently and uniformly manifested prior to the present war, this government asks that the British government will instruct its officers to refrain from these illegal practices."

16. Directing particular attention to the so-called "blockade measures" imposed by the order in council of March 11, the British note of July 23, last, is cited to confirm the intention "to establish a blockade," after over six months application of the blockade order, the note says, "the experience of American citizens has convinced the government of United States that Great Britain has been unsuccessful in its efforts to distinguish between enemy and neutral

works, and was born in a small Kansas town. He was sentenced to the penftentiary at Lansing for assault upon a small girl, but a pardon board soon set him at liberty. He next bobbed up in the Colorado state penitentiary, convicted of a crime of similar nature, in addition to ommitting a highway robbery.

Escapes from Prison. He escaped from the Celorado prison and soon after his escape he made known his presence in the different cities by his nightly raids upon women pedestrians. In the different cities he has been characterized by the epitheta. "The Wolf" and "The Ape Man" and other similar appelations. His characteristics were those of a wild, terrible, blood-thirsty animal. He ravished women without pity and laughed scornfully when his innocent girl victims pleaded to be given death rather than dishonor.

The police authorities in the places where this man has operated say crime annals of America in the last half century can show no more vicious, ruthless record than that left by the man identified as Arthur Hauser.

This time his fight was compel manufacturers of patent medicines, who desired to dispose of their wares in this state, to brand them as they should be.

A Philadelphia firm has been selling a catarrh remedy, which was called "Catarrh Cure." Commisioner Harman contended that it was not a cure and therefore had no right to the name. The company at first concluded to fight the case in the courts, but after its representatives had conversed with the Nobrasks food commisioner, they came to the conclusion that they were bucking up against a man who was on the job for results and have now notified him that they wil change the name of their

Roosevelt Joining Hands

(From a Staff Correspondent.) LINCOLN, Nov. 7 .- (Special.)-What would be the outcome of the presiden tial campaign in 1916 if the improbable should come to pass and Theodore Roosevelt and William Jennings Bryan should join forces, one as a candidate for president and the other as vice president on the same ticket? This was a question discussed by a

umber of men interested in the political situation in the lobby of the Lindell hotel in Lincoln Saturday. "That is a condition which could never

ome to pass,' 'said an influential democrat, who is opposing the grape antics of his fellow democrat, Mr. Bryan. "It is impossible," said he, "just because take second place on any ticket. Luff Will Have His Hearing Wednesday

AURORA, Neb., Nov. 7 .- (Special.)-Not in many years has interest in Hamilto county attached to an assault case as it has in the Nelson-Luff case, near Marquette. Few men and no women in the county are without expressed opinions as to the guilt or innocence of Fred Luff, who is charged with the assault of Nels

Luff's preliminary hearing takes place before the county judge next Wednesday and it seems probable that the court room will be packed with Danes and Swedes from Kronberg and Marquette. Luff is a Dane and Nelson is a Swede. Miss Mary Peterson of Marquette will probably be the principal witness for the state. She is the young woman who was being courted by both Luff and Nelson. She is reported to have told the officials that Luff had made threats against Nelson in her presence.

When Luff was shot in the back of the head a few nights later, the theory was advanced that both Nelson and Luff had been the victims of some one of the numerous admirers of the young woman

A Moving Warship OF MOTHERHOOD

Enhanced By Perfect Physical Health.

The experience of Motherhood is a trying one to most women and marks distinctly an epoch in their lives. Not one woman in a hundred is prepared or understands how to properly care for herself. Of course nearly every woman nowadays has medical treatment at such times, but many approach the experience with an organism unfitted for the trial of strength, and when it is over her system has received a shock from which it is hard to recover. Following right upon this comes the nervous strain of caring for the child, and a distinct change in the mother results.

There is nothing more charming than a happy and healthy mother of children, and indeed child-birth under the right conditions need be no hazard to health or beauty. The unexplainable thing is that, with all the evidence of shattered nerves and broken health resulting from an unprepared condition, and with ample time in which to prepare, women will persist in going blindly to the trial.

Every woman at this time should rely upon Lydia E. Pinkham's Vegetable Compound, a most valuable tonic and invigorator of the female organism.

In many homes (818) once childless there are now children because of the fact that Lydia E. Pinkham's Vegetable Compound makes women normal, healthy and strong.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.
