

ENVOYS ARRIVE FOR CORONATION

Distinguished Personages Guests of Japanese Imperial Household at Kioto Hotel.

DINNER FOR NEWSPAPER MEN

KIOTO, Japan, Nov. 9.—Most of the diplomats and special envoys who have arrived here to attend the coronation ceremonies are quartered at the Kioto hotel, which has been refurbished from cellar to roof. Every article used was manufactured under the direction of the imperial household, constituting one of the items in the \$5,000,000 budget provided to pay the expenses of the coronation.

Press representatives were entertained at the hotel by Mayor Inouye at a historic Japanese dinner. Ancient dances presented by geisha girls took the guests back 1,000 years in the history of the empire.

The mayor paid tribute to the important role the press has played in promoting the progress of Japan, and like the mayors of American cities he took advantage of the opportunity to point out the attractiveness of Kioto and the great industrial advance it has made.

Anniversary of American College. Many of the Americans in the city attended the celebration of the fortieth anniversary of the Doshisha Christian college, which is supported largely by the subscriptions of Americans and which was founded by Joseph Neesima, who ran away from Kioto and settled in Boston in 1852.

All the members of the cabinet are here, and when they are not engaged in rehearsal for the coronation they are considering the Chinese question. They are said to believe that President Yuan Shi Kai is disposed to postpone his enthronement as emperor for a time even if he finds it "impossible" to check the monarchistic movement. The impression gained here is that Japan regards the policies of the Chinese president as hostile to Japanese influence.

According to a report current in Kioto, which is believed to be authentic, President Yuan Shi Kai intended to proclaim himself emperor of China on November 14, the day of the first coronation feast in Japan. The idea of the enthronement of Yuan Shi Kai simultaneously with the coronation of Emperor Yoshitito was displeasing to representative Japanese.

Present for Mrs. Guthrie. Emperor Yoshitito in commemoration of the coronation, bestowed decorations today on the ambassadors and ministers to Japan, with the exception of the American and Swiss representatives, who are prevented by the laws of their countries from accepting such decorations. In view of this fact the emperor presented to Mrs. Guthrie a golden lacquer box.

Gifts for the emperor are being received in great numbers. Emperor Nicholas of Russia sent a huge and rare vase of pink jade from the Ural mountains. President Poincare of France sent Sevres vases.

Belgians Grateful to United States, Says Mr. Hoover

NEW YORK, Nov. 9.—Notwithstanding thousands of contributions by Americans, this country has given less per capita to relieve the unhappy plight of the Belgians than Australia, Canada, Holland and several other countries. According to Herbert C. Hoover, chairman of the commission for relief in Belgium, who sailed today for Rotterdam.

SENATOR BURTON IS GUEST OF STATE

(Continued from Page One.)
minent advocate of river and harbor improvement in all cases where the value of existing or prospective commerce was commensurate with the cost involved. He has on the other hand fought with equal consistency "pork barrel" appropriations and the so-called "dribbling policy" of appropriating and expending public money.

Authority on Monetary Questions. In the senate Mr. Burton was a member of the committees on commerce and on foreign relations as well as of the National Monetary commission. He is a recognized authority on monetary questions, having written a book on "Financial Crises and Periods of Commercial and Industrial Depressions," which is used by many of the leading universities of the country.

On March 2 of this year Mr. Burton voluntarily retired from the senate and within a few weeks left for an extended trip to South America for the purpose of studying the business and commercial conditions of the countries of South America and of determining means of strengthening the friendship and increasing the trade between those countries and the United States. He was personally received by the governing head of each country he visited.

Author of Many Books. The former senator is the author of the following books: "Financial Crises and Periods of Commercial and Industrial Depressions," published in 1902; "Life of John Sherman" in the "American Statesman Series," published in 1908; and of "Corporations and the States," published in 1911. In 1911 Oberlin college, his alma mater, conferred upon him the degree of LL.D., and in 1907 the same honor was bestowed by Dartmouth college and Ohio university.

BRITAIN BARS BOOK ON INDIA BY BRYAN

Volume Made Up of Excerpts from Nebraskan's British Rule in India Shut Out.

CANNOT BE MAILED TO ASIA

SAN FRANCISCO, Nov. 9.—Ram Chandra, a local Hindu editor announced today that a pamphlet which he says is made up wholly of translated excerpts from W. J. Bryan's "British Rule in India," had been barred from the mails to British India at the request of the British government. The pamphlet is entitled "Angan Di Gawahi," which is said to be a translation of the Bryan title. The book was barred because the British government had refused it entrance.

Ram Chandra made public a letter signed with the name of Charles W. Fay, postmaster, which said: "I have to inform you that the government of India has prohibited the importation into British India of any copy of a pamphlet entitled 'Angan Di Gawahi,' published by Yuganter Ashram, San Francisco, U. S. A., whatever may be the language in which the pamphlet referred to may be printed.

"Under these circumstances it will be necessary for this office to decline to accept for mailing to British India copies of the pamphlet referred to."

Price of Radium Takes Big Drop

PITTSBURGH, Pa., Nov. 9.—Radium at \$30,000 a gram instead of \$120,000 a gram has been made possible by the technical research work of the United States Bureau of Mines during the last year, according to Van Manning, director of the bureau, who is in Pittsburgh inspecting the work on the new experimental station being constructed here. Mr. Manning said that the procedure by which the price of radium has been cut will be published within a few weeks and will mean thousands of dollars saved in all lines in which radium is utilized.

CREAM FOR CATARRH OPENS UP NOSTRILS

Tells How To Get Quick Relief from Head-Colds. It's Splendid!
In one minute your clogged nostrils will open, the air passages of your head will clear and you can breathe freely. No more hawking, snuffing, blowing, headache, dryness. No struggling for breath at night; your cold or catarrh will be gone. Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic, healing cream in your nostrils. It penetrates through every air passage of the head, soothes the inflamed or swollen mucous membrane and relief comes instantly. It's just fine. Don't stay stuffed-up with a cold or nasty catarrh—Relief comes so quickly.—Advertisement.

FRANCE WILL PLACE BIG ORDERS IN U. S.

Commission Comes to Buy Structural Iron and Steel, Machinery and Industrial Supplies.

FORMERLY BOUGHT IN GERMANY

NEW YORK, Nov. 9.—Five members of the French Industrial and Commercial commission landed here today from the steamship Lafayette and said they came to arrange for the purchase, at the conclusion of the war, of at least \$150,000,000 worth of structural iron and steel, machinery and industrial supplies. All supplies of this character, the commissioners said, formerly were imported from Germany.

The commissioners said that while they are here primarily to purchase supplies necessary to reconstruct and modernize French industries when the war is over, they will endeavor to establish reciprocal trade relations between the United States and France.

The commission is headed by Morris

Damour, formerly French consul general at New Orleans, now secretary of appropriations of the French Chamber of Deputies.

Backed by Big Organizations. Although this commission is not a government organization, it is backed, the commissioners said, by all the large industrial and commercial organizations of France and a majority of the bankers. "Before the war France imported a large portion of all structural iron and steel, industrial machinery and all manner of supplies from Germany," said Mr. Damour. "But it is now conceded in France that the great friendship shown by the United States will bring about close trade relations between the two republics at the conclusion of the war.

"The purchases we will arrange for will be necessary to rehabilitate France's various industries after the war, but we will also take opportunity to modernize many of the plants. Before the war we were spending at least \$100,000,000 a year for German machinery and industrial supplies. I feel sure this sum will now be spent in the United States and that our purchases will lead to far larger ones in the future.

Orders Will Take Wide Range. "Our orders will cover virtually all kinds of machinery, from agricultural implements to fine grades of textile machines. Ample provision has been made for the financing of these orders."

Mr. Damour said the commission will remain in this country several months, with headquarters in New York, but trips will be made to many of the larger

ABEL CARTWRIGHT IS HUNDRED AND ONE

PEABODY, Kan., Nov. 9.—Abel Cartwright, living six miles south of Peabody, is celebrating his 101st birthday anniversary today. Cartwright's wife is 87 years old. They have been married fifty-seven years.

TO END CATARRHAL DEAFNESS AND HEAD NOISES

If you have Catarrhal Deafness or head noises go to your druggist and get 1 ounce of Parmit (double strength), and add to it 1/4 pint of hot water and 4 ounces of granulated sugar. Take 1 tablespoonful four times a day. This will often bring quick relief from the distressing head noises. Clogged nostrils should open, breathing become easy and the mucus stop dropping into the throat. It is easy to prepare, costs little and is pleasant to take. Any one who has Catarrhal Deafness or head noises should give this prescription a trial.—Advertisement.

Berg's Berg's

It's Anniversary Week at Our Store and We're Having A Glorious Birthday Party

You Are Invited to Attend

Our departments devoted to women's wear are just two years old and we are celebrating the occasion with a whole week of special price reductions.

Your Slice of the Birthday Cake Is a 20% Reduction on the Price of Any Woman's Garment in the House. Sale Continues All This Week.

Entire Fall Stock WOMEN SUITS 1-5 Off	This is one of our biggest sale events of the year. Just think of getting a reduction of 1-5 right at the time of season when women's garments are in greatest demand. The entire stock is new this season. THE AEOLIAN VOCALION

We invite you to hear this superb new model of the Aeolian Vocalion—the latest and greatest of all Phonographs. In depth and richness of tone, in structural beauty and in the wonderful new phonograph privilege it gives you of your own personal expression, this new model far surpasses any Phonograph hitherto produced.

EXCLUSIVE FEATURES

- The Sound Box, which produces a richer, deeper tone than any other Phonograph possesses.
- The Symphonetic Horn eliminates all Phonograph stridency and preserves the beautiful tonal characteristics of all instruments and voices.
- The New Automatic Stop. With two simple movements it "sets" a record to stop, and also starts it playing.
- The Revolutionary Graduola, which gives you the privilege of expression control—lets you play the Phonograph, in fact. This is a feature which you can use or ignore on different records, as you see fit.

STYLE G, \$100
A New Model of the Newest Phonograph.

We Wish to Announce a Reduction in Lamp Maintenance Rates

The increase in the use of gas for lighting stores and general places of business has made it possible for us to reduce our rates for maintaining gas lamps—for keeping them in perfect order at all times. This reduction is in line with our policy to give our consumers the benefit of any saving we can effect in gas service.

Where formerly you would pay 25c per lamp per month, for the large single mantel lamp, you now pay 20c, and greater reductions take place where more than one lamp is used; for instance, if ten or more lamps are used, the rate per lamp per month comes down to 15c. Similar savings on other types of lamps—the small Reflex lamp that formerly cost you 15c per lamp per month to maintain now will be cared for for 12c, and where over six are used, 10c, or over 11 are used, only 9c per lamp per month.

Our service is the same as heretofore. Three calls per month. Every ten days your lamps are gone over, cleaned, adjusted, and broken glassware or mantles replaced. It means that your lamps are ALWAYS in perfect working order.

Gas light is the perfect light for offices, stores, factories—in fact—any place of business.

If you must have lots of light, broadly distributed, of the best quality—use GAS.

Are you on our maintenance list?

Omaha Gas Company

As long as there are hills your car MUST climb, why not buy a car with POWER to climb them EASILY?

When you invest in the vicinity of \$1,000 or more in a car, think not of the name of the car, not of its price—but of what the car must do when you get it on the roads.

Hills there are and always will be. POWER you must have to climb them. And all things considered, we believe this new Studebaker 4-cylinder car at \$885 is the greatest hill-climber among the Fours of the year—and we will gladly—more than gladly—test it against any other car of its class.

In POWER and flexibility, this 4-cylinder motor equals most of the Sixes now on the market. It is the ONLY 7-passenger, 4-cylinder car with a 3 7/8-inch bore x 5-inch stroke, FORTY Horse Power motor that has ever been offered in America or Europe at less than \$1000.

And this new Studebaker sets a new standard of VALUE for Fours. Its price has been reduced from \$985 to \$885. Yet nothing but the price has been lessened. In POWER, size and quality the car has been GREATLY INCREASED. Wherever materials have been changed, BETTER materials have been used. The upholstery, for example is the finest, hand-buffed semi-glazed leather purchasable.

Certainly in the face of such FACTS—facts that can be proved by yourself to your own satisfaction, you cannot wisely buy any car until you know how much this Studebaker offers. See the car today.
