as a whole could be summed up as slow, weak to lower.

In the end killers of all kinds sold at prices that were anywhere from weak to logific lower. A few of the choicest light feeders did not show much change, but the general run of both stockers and feeders was slow to logific lower.

NEW YORK, Nov. 10.—COFFEE—The market for coffee futures was somewhat unsettled by near months liquidation duris feeders. 406 7 50 6; calves... 398 8 90 7 feeters. 361 5 50 5 calves... 410 7 25 HOGS-Local supplies continued moderate, although most outside points were overloaded again today. Receipts were estimated at sixty-eight cars, or 4,700 head, bringing the total for the first half of the week up to 14,032 head. This is more than 3,000 larger than last week and over twice as large as two weeks ago, but is 1,700 short of the corresponding period of last year.

Chicago was deluged with hogs today, and while the local run was moderate shipping orders were slim. The few shipper buyers that fid get out were able to purchase whatever they wanted at prices that were at least Leg20c and in spots as much as 25c lower. Tops failed to heat 35.70.

Packers used heavy runs and slumping markets at other points as a club on the local trade, and while early rounds were dull killer buyers succeeded in forcing a 30c decline. It was well along towards midforenoon before much of anything sold, but after a trading basis was established movement livened up, and a pretty decent sort of a clearance had been made before 11 o'clock.

Bulk of the sales was made at 2 with the long string selling at 35.50, and scattering sales both above and below these figures. Today's bulk and average are the lowest since the latter part of July, when prices hit the year's low spot, while tops today touched the lowest point reached since early in April. Current values are mostly 40c below last Saturday.

Representative sales: market for coffee fitures was somewhat unsettled by near months liquidation during today's trading and after opening at a decline of 2 to 5 points prices eased off to a net loss of about 5 to 3 points, with December selling at \$71c, May at 6.52c and July at 6.95c. Talk of rather an easier tone in the primary markets probably accounted for some of the scattered selling, but prices rallied a few points late in the afternoon on covering. The close was 2 to 8 points net lower. Sales, including exchanges of December for May at 10 and 11 points, were 49.70 bass. The cost and freight market was reported easier, with quotations ranging from about 9.25c to 9.56c; for Santos 4s and around 7.25c for Rio 7s, basis English credits. The official cables reported a decline of 125 reis in the Rio market with Santos unchanged.

Notice is hereby given that sealed propeals will be received by the Board of Directors of the Short Line Irrigation District at their office in the Village of than District at their office in the Village of than Bayard. Neb., for the purchase of fifteen thousand five hundred eighty-two dollars face value of the 8 per cent serial bonds of said district until 1:30 o'clock p. m. on the 7th day of December, 1915; said bonds are issued under and by a wyirtue of an Act of the legislature of the state of Nebraska, approved March 26th, 1580, Session Laws 1256. Chapter 70 and all amendments thereto and pursuant to a vote of the majority of the qualified electors of said district. The Board expressly reserves the right to reject any and all that had bonds for less than ninety-five per cent of the Soard of Directors.

(Signed) CATHERINE ROBERTS, Over 1580, Secretary Short Line Irrigation District. of of SHEEP—Receipts were somewhat larger than on the same day last week, but it for a Wednesday since August About seventy cars, or 16.800 head, were received, bringing the total for the week to date up to 57.644 head. This is 16.600 larger than a week ago, and 16.000 heavier than for the same week last year, but 11,000 short of two weeks ago.

al A good percentage of fat lambs was included in today's supplies and packers took a bearish streak early offers being spencially lower than yesterday.

The sellers refused to cut loose at less than steady prices, and intimated that they thought values should show a little improvement. None of the packers broke over, however, and first sales made looked about a dime lower. Very little seld until nearly noon, when bids were raised a trifle and sellers carried their .123 6 00

point to a certain extent, prices being steady or nearly so in most cases, although in spots trade was quoted a dime off. Bulk of the lambs moved at \$5.66 5.85, the latter price being top. There was nothing here to compare with the \$9.00 lambs yesterday and it is probable that another consignment of the same sort of stuff would have duplicated that figure today.

NEW YORK STOCK MARKET

Distinct Line of Cleavage Between Standard and Speculative Shares.

CLASSY RAIL SHARES STRONG

NEW YORK, Nov. 10 .- A distinct line NEW YORK, Nov. 10.—A distinct line of cleavage between standard stocks and those in the speculative cleas was the significant feature of today's active market. Investment issues, especially high grade railroads were consistently strong and in good demand, while war shares and allied issues were again subjected to severe shrinkage.

Declines in war stocks during the precipitate oreak of the mid session ranged from 5 to 10 points, while Betnlehom steel at its low figure of 400 showed a loss of 35 though closing at 45. The

lehem steel at its low figure of 400 showed a less of 35 though closing at 43). The weakness of Bethlehem was naturally ascribed to the damage and possible delay in operations resulting from a fire at the company's main plant, but the ylolence which attended the slump in such descriptions as Haldwin Locomolive, Studebaker, Lackawanna Steel, Crucible Steel and Continental Can were largely in the nature of a weeding out of weak-tied accounts.

What Will Happen to War Stocks When the Kaiser and the King Shake Hands?

An article that appeared the September number of McClure's Magasine will give you an idea as to what a lot of the so-called warsupply plants will do to utilize their surplus facilities when peace again reigns in Europe. ¶ We thought the article so

practical that we secured McClure's permission to publish it in pamphlet form, in order that people interested in War Stocks could size up the situation for themselves.
