

SCHOOL LADS NOT NEAR TO SMALLPOX

Health Commissioner Connell Desires to Correct Report They Were Exposed.

SOME CASES OF BRONCHITIS

Health Commissioner Connell wishes to correct a report that members of the Central High school foot ball team were exposed to smallpox in a game here last Friday with Lincoln High school.

The commissioner telephoned to the Lincoln health commissioner and learned that a member of the High school foot ball team of the capital city broke out last Tuesday with smallpox.

"Considering the early stage of that case at the time of the game here, I do not regard that player's presence here as an exposure," said the doctor.

Measles Bronchitis.

The health office reports many cases of bronchitis in Omaha at this time. Etta Smith, principal of the Monmouth Park school, has an attack of this disease and Mrs. Ames Harrison, principal of Farnham school, is recovering.

Pegg Advises All Housewives to Buy Scales and Use Them

John Grant Pegg, inspector of weights and measures, announces again to the housewives of the city that they refuse to buy potatoes or apples at this time if delivered in wooden baskets which purport to hold certain measurements.

In the case of potatoes he recommends that housewives demand fifteen pounds for every peck, or sixty pounds for every bushel, and in the case of apples, twelve pounds to the peck, or forty-eight pounds to the bushel.

Mr. Pegg advises householders to have scales which he will stamp upon request. He relates an instance of a woman living at Thirty-fifth street and Lincoln boulevard. She bought scales a week ago and the first thing she did was to detect her salesman delivering seventeen pounds of ice for twenty-five pounds.

Mayor Dahlman to Drive Golden Spike

At a celebration to be held Saturday evening at the German Musik hall at Seventeenth and Cass streets, Mayor Dahlman will drive a golden nail into a large wooden cross, subsequent nails to be driven by all who will contribute 25 cents toward the Red Cross work in Germany.

BANDIT CARRIES GUN OF EXTRAORDINARY LARGE SIZE

Leo Gannon of 248 South Twenty-eighth street and Ralph Peterson of Council Bluffs were held up by a lone bandit on Thursday evening at Twentieth and California streets.

CHARGED WITH PERJURY TO BECOME NATURALIZED

Harry Stein is charged with making fraudulent representations to get his naturalization papers in a complaint filed by United States Attorney Allen in federal court. It is alleged that Stein swore he had been a resident within the United States for five years, whereas he had lived for six and a half months of that time in Luxembourg, the small duchy between Germany and France.

SWEDEN PUTS BAN ON EXPORTATION OF BUTTER

LONDON, Nov. 12.—Beginning November 15 butter will be added to the list of articles whose exportation is forbidden by the Swedish government, according to a Reuters dispatch from Stockholm. This will make an embargo on the export of food products virtually complete.

TWO-YEAR-OLD BOY AND GIRL MISSING FROM HOME

The authorities and the parents have started a search for Elsie Krebbs, 194 South Eleventh street, and Frank Carlson, 123 South Eleventh street, who are believed to have "doped." Both are 2 years old.

PLEADS FOR CONVICTION OF MUNDAY AS EMBEZZLER

MORRIS, Ill. Nov. 1.—A plea for the conviction of C. B. Munday, charged with conspiring to wreck the La Salle Street Trust and Savings bank, marked the end of an all-day appeal of William H. Holly, assistant state's attorney of Cook county. The jury was asked to give Munday, who was vice president of the bank, just the same consideration they would give a man who embezzled \$1,000 from their own local bank.

"If such a man should be sent to the penitentiary," he said, "what would you say about a group of men who stole \$1,000,000?"

HIGHLEY.

Highley is one of the best, if not the best, ends in the country this year. He is a stonewall on defense and can open up some beautiful holes on the offense. He is one of the youngest players on

the Princeton team and one of the lightest ends playing on a college eleven this year. He weighs but 166 pounds despite his five feet seven inches of height.

MR. ASQUITH DENIES KITCHENER RESIGNS

Premier Replies to Charge of Member that Statement of Globe Was True.

TELLS WHY PAPER SUSPENDED

LONDON, Nov. 12.—During the course of a discussion in the House of Commons on the suspension of the Globe newspaper, James Myles Hogge, member for East Edinburgh, declared his belief that the statement that Lord Kitchener had resigned was true and that the seizure of the paper because of publication of the statement was not justified.

Premier Asquith, who immediately replied, said that Mr. Hogge had accused him of "a deliberate and inexcusable falsehood," and, to make the matter quite clear, he declared: "Earl Kitchener never tendered his resignation either to the king or myself, the only two persons to whom he could have tendered it. Earl Kitchener never breathed a word of resignation to either."

Globe Not Singled Out.

The decision to send Lord Kitchener to the near east, the premier added, was taken by the cabinet on Thursday, November 4. Serious information, which led the government to take the decision, was brought to their knowledge for the first time on Wednesday. He protested against the charges that were being directed against the head of the government as likely, if believed, to do incalculable harm to the country throughout the world. He repudiated the charge that the Globe had been singled out for special treatment.

Mr. Hogge and William M. R. Prinzie, members for Northwest Lanarkshire, however, insisted that other papers which were equally guilty had not been proceeded against.

Sir John Simon, home secretary, pointed out that the Globe was in an entirely different position from the other papers.

in that it had ignored the warning of the press bureau on Thursday night in the form of a request made to all the papers that no reference should be made to Earl Kitchener's movements until further notice.

Repeats Statement.

The next day the Globe, and the Globe alone, published the statement that Earl Kitchener had resigned because he had quarreled with his colleagues. When a denial was issued the Globe repeated the statement, thus saying in effect that the government was lying.

German Trawlers Captured.

LONDON, Nov. 12.—A Copenhagen dispatch to the Exchange Telegraph company says that British papers report the capture by British warships of additional German trawlers in the North Sea.

WHAT CAUSES COLDS?

This question is asked every day. A cold is really a fever, not always caused by the weather but often due to disordered blood or lack of important food-elements. In changing seasons fat-foods are essential because they distribute heat by enriching the blood and so render the system better able to withstand the varying elements. This is the important reason why Scott's Emulsion should always be taken for colds, and it does more—builds strength to prevent sickness.

Scott's Emulsion contains Nature's rare strength-building fats, so skillfully blended that the blood profits from every drop. It is free from harmful drugs or alcohol. Sold at drug stores—always get the genuine.

For Our Little Busy Bees Says Hot Water Each Day Keeps The Doctor Away

Drink glass of hot water before breakfast to wash out the poisons.

Life is not merely to live, but to live well, eat well, digest well, work well, sleep well, look well. What a glorious condition to attain, and yet how very easy it is if one will only adopt the morning inside bath.

Folks who are accustomed to feel dull and heavy when they arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can't stand, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning, before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the water and phosphate is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, bilious spells, stomach trouble, indigestion; others who have sallow skin, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store which will cost very little, but is sufficient to make anyone a pronounced crank on the subject of internal sanitation.—Advertisement.
