(From a Staff Correspondent.)  
LINCOLN, Neb., Nov. 19.—(Special Telegram.)—Two members of the State Board of Control, Messrs. He also rules that traveling salesmen disposing of the same are subject to prosecution. It is the duty of the county attorney to prosecute all offenders.

## Notes from Beatrice and Gage County

BEATRICE, Neb., Nov. 19.—(Special.)—The body of Ferris Parli of Axtell, Kan., another victim of the motor wreck at Randolph, Kan., which occurred October 18, and which cost twelve lives, was found in a deep hole near the piling of the bridge across Fancy creek, where the motor went down. The clothing had caught on a large spike in the piling and prevented the body from floating down stream. The deceased was a son of John Parli of Axtell, where the remains were interred.

Funeral services over the remains of the Rev. Rev. James C. Freeman, for twenty-five years pastor of St. Mary's Catholic church at Wymore, were held from the church at that place Thursday morning at 10 o'clock. Fifty-two priests from this section of Nebraska participated in the services, which were in charge of Bishop Thien of Lincoln. The eight sisters of the deceased were present at the services, but his two brothers were unable to be present.

Mrs. Hattie Gardner, wife of Charles Gardner, station agent for the Union Pacific at Cortland, died at her home at that place Thursday morning, aged 46 years. She had been in poor health for five years. She is survived by her husband and two children.

### Big Demand for Huskers in Dodge

FREMONT, Neb., Nov. 19.—(Special.)—There is a scarcity of cornhuskers in this section of the country and farmers are handicapped in their work of harvesting their crop as a result. The Young Men's Christian association, which acts as a local employment bureau for the farmers of this community, has had 199 calls for cornhuskers since the first of November, but has been able to furnish but ninety men. The crop is turning out fairly good, but much of it will be unfit for marketing owing to the soft condition. Some farmers who cribbed the corn picked first were compelled to shovel it out to keep it from spoiling.

### CONGRESSMAN STEPHENS ADVOCATES SHORT BALLOT

(From a Staff Correspondent.)  
LINCOLN, Neb., Nov. 19.—(Special.)—Advocating a short ballot, election of postmasters by the people, one branch of the legislature only with a much reduced number, as law as three members from each congressional district, which should be elected for four-year terms and half of them every two years, Congressman Dan Stephens spoke to a fairly good crowd at the Lindell hotel ball room last night, being introduced by George W. Berge of this city.

He said there was no reason why the governor should not pick the heads of the different departments in the same way that a president picks the heads of the different departments in the national government. "They are nothing more than clerks," said he, "and should be in harmony with the head of the state at all times."

While not desiring to criticize anybody, Mr. Stephens said that the last few months had shown how ineffective a state government was when the heads of the different departments could not agree.

## POOL WILL STAND FOR A WITHDRAWAL

Request of Justice Hughes to Have Name Removed from Ballot is in the Mails.

### BELIEVED HE WILL STAND PAT

(From a Staff Correspondent.)  
LINCOLN, Nov. 19.—(Special.)—Secretary of State Pool has not yet received the letter from Justice Hughes, which is said to be on the road, containing a request for the secretary to refrain from placing the name of the judge on the primary ballot for the republican nomination for the presidency.

However the secretary has assured that it is on the way, having received a message last night that his telegram to Mr. Hughes assuring him that he would give his request consideration had been received, and thanking Mr. Pool for the same, and also saying that the request had been forwarded by mail.

Mr. Pool has given it out that in face of the fact that the Nebraska primary law contained no reference to the matter of declaration of nominations for the presidency he will hold that his ruling will go until set aside by the courts. While not stating what his ruling would be on the matter it is generally conceded that the request of Justice Hughes that his name be not placed on the ballot will be granted by Secretary of State Pool.

### Tenderfoot Stumbles Into Rich Placer Vein

RAPID CITY, S. D., Nov. 19.—(Special Telegram.)—Reports from Terry Lodge, thirty miles to the west on Rapid creek, tend to confirm and give reassurance of the great placer discovery made yesterday.

It develops that Ed Mitchell, who is sinking the tunnel from which the black dirt was tested, has been digging in it several weeks and, being inexperienced, did not know what he had found. The dump at the mouth of the tunnel is estimated by practical mining men to contain from 100,000 to 150,000 in gold.

In early days at Canyon City, a few miles west of Terry Lodge, nearly \$20,000 in gold was taken from a placer pocket in twenty-four hours.

The new discovery has many features different from other placer propositions in the Black Hills. It is located at some distance from the creek and the lead tends away from the creek and downward into the bowels of the earth at the base of a mountain. How wide the area of black dirt carrying the heavy gold deposit is no one can tell, but that it is of immense proportions is shown by the distance dug into it at the present time. There are no indications of bedrock after driving rods a distance of ten feet.
