

INDIAN MUTINY PLOT HEADQUARTER HERE

Score of Hindus Put to Death for Revolting Against British Authority.

CONSPIRATORS IN AMERICA

LONDON, Nov. 19.—"In northern India, where concerted attempts have been made by members of an anti-British association, having its headquarters in the United States, to disturb the peace of the country, to tamper with the troops and to upset the government, the active loyalty of the people of the province was shown by the resistance they voluntarily offered and by the aid they gave the civil power" was in part the answer of J. Austin Chamberlain, secretary for India, to a request made in the House of Commons today by Edwin Cornwall, for information concerning unfavorable reports respecting India and whether these reports were of enemy country origin.

"As regards the general condition of India," Mr. Chamberlain added, "my information is that it is substantially satisfactory. Such differences as have arisen had their origin in movements outside of India or in an effort of a small group of extremists, who did not reflect the sentiment of the great mass of the people and of whom many are fugitives from justice. The government of India has the situation well in hand."

Many Are Executed. WASHINGTON, Nov. 18.—Mail advices reaching Washington today from India told of the execution of twenty-four Hindus and the sentence of twenty-seven others to servitude for life by a governmental commission at Lahore, and described activities against the British government among certain elements in the Indian population more extensive than has been officially admitted.

According to the reports the Lahore affair was only one of several others that recently have been brought to an issue in India with similar results, all the prosecutions being based upon charges of enmity, mutiny and insubordination. The native press, while speaking of the loyalty with which India responded to the call of the British government upon the native for military service, also referred in terms of condemnation to the activities of the disaffected elements in the population, which in some quarters are ascribed to German machinations.

Work of Plotters. The general tendency, however, is to credit the mutinous agitation to the work of a band of conspirators alleged to have been located on the Pacific slope of America for several years and actively engaged in secret propaganda. These conspirators are declared to have dispatched emissaries to India who have been stirring up antagonism to the British rule there.

The most disquieting feature of the agitation, according to the reports, is the uncertainty of the extent to which the native troops have been tampered with. In the Punjab and in Bengal, between the middle of June and the middle of September, seventeen Indian cavalrymen were sentenced to death for mutiny, making bombs and cutting telegraph wires, and seventy-one others were convicted of similar offenses.

Sorority Gives a Banquet for Omaha and Tarkio Teams

The Sigma Chi Omicron sorority of the University of Omaha gave a banquet for the Tarkio and University of Omaha football teams last evening at the home of Miss Helen Johnston. The tables were decorated with yellow and white chrysanthemums. Large gold sorority emblems were used as place cards and the room was decorated in peacock blue, the sorority color. Short talks were made by Captain Roy Long of Tarkio and by Captain Gerald Bruce of the Omaha team. Miss Edna Manteur gave the welcoming address to the athletes, which was followed by a short talk by Miss Rita Carpenter, president of the sorority. The young women who had the affair in hand were Florence Dow, Rita Carpenter, Helen Johnston, Marion Pearsall, Ruth Campbell, Esther Knapp, Katherine Richey, Etta Barronston, Annetta Nouras, Effie Clelland and Elizabeth Barryman. The invited guests present were:

Texans Object to Negro Child Kissing the Liberty Bell

DALLAS, Tex., Nov. 19.—The Liberty Bell entered on the last lap of its journey through the southwest tonight, leaving for the Houston and Beaumont after being viewed by more than 150,000 persons here.

One of the outstanding incidents connected with the transcontinental journey of the bell occurred today at Arlington when a member of the bell's escort lifted a little negro child to kiss the relic.

Panama Canal Likely Closed for Six Months

PANAMA, Nov. 19.—Owing to the timing up of the Panama canal by the recent slide many employees, mainly in the operating divisions, are being furloughed or given vacations, which is taken here to indicate that the canal will remain closed for a much longer time than was first expected, probably six months.

In most cases employees are being dismissed. Prepare Attack on Gerstein. GENOVA (Via Paris), Nov. 19.—The Italians are preparing for a formidable attack on Gerstein according to the Milan correspondent of the Zurich Gazette. Five hundred thousand men are to be employed.

KITTY GORDON AND HER PRIZE DOG, "PEKOE," WEARING SKATES—Of course you know that the skating craze has struck the country. Dancing is now as passe as parolisi. "Pekoe" has a pair, or rather, two pairs of skates fastened to tiny boots. These are the first skates ever made for a dog. Yes, Miss Gordon also skates.

KITTY GORDON AND SKATING DOG.

Dr. Hexamer Acts to Restore Parcel Post

PHILADELPHIA, Nov. 19.—Dr. C. J. Hexamer, president of the National German-American alliance, today issued an appeal that petitions be sent to President Wilson and members of congress urging them to do all they possibly can to have the United States furnish ships for the transporting of parcel post mail to Germany, Austria and Hungary. The appeal states that the American postal authorities suspended the despatch of such mail to those countries

because the few neutral steamship companies still plying their trade refuse to accept parcel post mail on account of lack of facilities for handling it.

The appeal is addressed to all American citizens, patriotic organizations and to all branches of the organization of which Dr. Hexamer is president.

Heads Michigan Aggies.

EAST LANSING, Mich., Nov. 19.—Ralph Henning of Bay City was today elected captain of the 1916 Michigan Agricultural football eleven. Henning played right halfback this year and has been a star for three seasons.

LABOR VOTES FOR DRILL IN SCHOOLS

A. F. of L. Convention Refuses to Protest Against Military Training Propaganda.

HISSES INTERRUPT SPEAKERS

SAN FRANCISCO, Nov. 18.—The question of preparedness, coming up unexpectedly, was threshed out before the American Federation of Labor today, with the result that a resolution protesting against introduction of military propaganda in the public schools was voted down.

But a final vote was not taken until President Samuel Gompers declared that he hoped the day soon would come when the people of the United States would control the militia and the regular armed forces in the interest of peace, justice, democracy and humanity.

The session was marked by several demonstrations, hisses coming from various parts of the hall when speakers on the platform were setting forth their views as to why the resolution should not be passed. On one occasion the demonstrators became so noticeable that Vice President James Duncan of Quincy, Mass., who was presiding, warned the spectators that if proper order was not maintained the galleries would be cleared of visitors. The hissing was attributed to some of the anti-militarists.

President Gompers said that it had not been intended that the question of preparedness should come up at the time that the plan had been to consider it more especially.

"But now that we are on the subject," said he, "I wish in any that I would not have the military forces controlled by a select few. I want it in the hands of democracy—in the control of the great masses of the people of this country."

Opposes Militarism. The president said he was opposed to militarism, but that he would like to see the people, the farmer, the worker and the people in general thoroughly trained and organized and "that these people control the regular forces in the interest of peace, justice, democracy and humanity."

"I'm in favor of international peace. Use the boycott against a nation that flies in the face of the world."

The resolution has been referred to the executive council. A committee having the resolution under consideration reported nonconcurrence. The resolution said: "Military mania has been introduced in some of the public schools in order to instill the susceptible infant mind with prejudicial ideas. The military, both militia and regular army, are in the most part made up by the workers, while at the same time the military is the bulwark of the capitalists when the workers are forced to go on strike to maintain their conditions or get a little greater share of the wealth they create."

T. W. McCullough of Omaha said he

was not in favor of militarism, but that it should be remembered "that the nation is respected which is able to protect itself."

Joseph Cannon of New York, speaking in favor of the resolution, said that a state of preparedness was just such a condition as desired by such men as Morgan, the Rockefeller and Schwab. It all worked out for their benefit, he said. "Capitalists want war in this country so as to keep labor in subjection," he said.

Quarter Million of Gallons of Oil Burn

ST. LOUIS, Nov. 19.—Approximately 200,000 gallons of crude petroleum which had leaked out of a pipe line running from Oklahoma to the Standard Oil company refinery at Woodriver, Ill., was burned at Macheson, Mo., near here, today. A spark from a passing railroad engine is believed to have set fire to the oil.

The fire was discovered at 7 o'clock this morning and was still burning tonight. The loss was \$1,000.

Word Left Out and Liquor Election Void

HOUSTON, Tex., Nov. 19.—Because one word in the order of election was omitted Calhoun county's local option test of October 12, in which the prohibition advocates were victorious by a single vote has been declared invalid by District Judge Fannin, sitting at Port Lavaca. Another election was ordered.

18 POUNDS OF BLOOD

is the average quantity in a healthy adult, but it is the quality of the blood that determines our strength to resist sickness. With weak blood we find cold hands and chilly feet; in children an aversion to study, and in adults rheumatic tendencies.

In changing seasons get abundant fresh air and take a spoonful of Scott's Emulsion after meals, because Scott's Emulsion is a rich blood-food that will increase both quantity and quality of the blood while it warms the body and helps carry off the impurities.

When multitudes of people are today taking Scott's Emulsion to avert winter sickness, and are giving it to their children, it is careless to neglect its benefits. Look out for substitutes. Scott & Bowne, Bloomfield, N. J. 15-26
