

Nebraska PRIMARY CHANGE BEING ADVOCATED

Presidential Preference Plan As Now Permitted Thought By Many To Need Altering.

SUGGEST NONPARTISAN MOVE.

(From a Staff Correspondent.)
LINCOLN, Nov. 24.—(Special.)—Attempts to gain political prestige by filing names of prominent men for the republican nomination for the presidency have again brought up the question of a change in the primary law.
That it is a huge joke, so far as the presidential primary is concerned, most of its friends are willing to admit, but there appears to be a feeling that any individual or any party which would advocate changing or amending it in any form would encounter vigorous opposition.

The latest and what looks to be the most feasible plan was suggested yesterday by a politician from out in the state, who said that it would be hard work to make any changes of consequence unless there was a concerted effort made by both of the leading political parties, and he suggests that the republican and democratic state committees get together and either select half a dozen good men to prepare the changes needed or prepare them themselves, and have both conventions endorse the changes.

It is that we would be taking the matter out of politics, and members of the legislature would have something to back them.

State Treasurer Tells How Money Has Been Paid In

(From a Staff Correspondent.)
LINCOLN, Nov. 24.—(Special.)—That collections made from county treasurers have been steadily increasing during the past three years is evident by a statement given out by State Treasurer Hall. The attempt by the state treasurer to have county treasurers remit monthly has had the effect of bringing in a more steady stream.

Soon after taking his office, State Treasurer George E. Hall served notice on the various county treasurers that he would require monthly remittances of their collections of state funds. Most of the counties have complied with this substantially, except below. During the 316 days of Mr. Hall's incumbency, up to the 19th of November, he has written 74 receipts for county treasurers. This makes an average of 23.5 days between remittances, or 8 per cent, in less than a year. This average of days would be considerably reduced if Douglas, Nebraska, Richardson, Sarpy, Valley, Washington, Wayne and York counties had not been negligent about making remittance.

In the years 1913 and 1914, the present 93 counties made 845 remittances, an average of 89.3 days between remittances, or a little better than 2 per cent, in this two years six counties only have a credit of twenty-four remittances each, and five have a credit of twenty or more.

Monthly remittances are by no means an innovation. In 1897, John B. Meserve, democratic-populist state treasurer, required monthly remittances of all the larger and richer counties and in the two years, twenty-four remittances were made by each of thirty-one counties, twenty or more by ten counties, and the total number made by the then ninety counties was 1369. This is an average of 41.1 days between remittances, or seventeen per cent.

A comparative statement shows that from December 1, 1912 to December 1, 1913, the collections were \$2,302,432; from December 1, 1913 to December 1, 1914, \$2,751,677 and from December 1, 1914 to November 23, 1915, \$1,631,964.

Lester Stewart, the son of a prominent farmer living west of Falls City. He has been twice married, although only 24 years old, and has recently returned from Missouri. The young man's father recently paid two notes of \$700 each to which the son forged his name. The names upon the checks given to the merchants were fictitious ones, different for each check. BREAK YOURSELF OF THE LAXATIVE HABIT

LAXATIVES and cathartics cause more constipation than they cure. Nujol is the modern treatment for constipation. It conforms in all essentials to the requirements of the mineral oil treatment as prescribed by its discoverer, Sir William Arbuthnot Lane.

Nujol is odorless and tasteless, absolutely neutral, and is not digested or absorbed into the system. It acts merely as a mechanical lubricant.

Nujol is not a drug. Its use will not give quick, temporary relief. But Nujol is a genuine remedy in that it relieves constipation in the most natural way by lubricating the lining of the intestines, softening the intestinal contents, and thus promoting healthy and normal bowel activity.
