ALL AMERICAS FACE EUROPEAN VICTOR

Barrett Says Either Side, Winning or Losing, Will Be Hostile to Western Republics.

URGES UNITED HEMISPHERE

WASHINGTON, Jan. 1. - The place of a United Pan-America in the eventualities which will confront pean war was pictured to the Pan-American Scientific congress today by Director General John Barrett of the Pan-American union.

The delegates were electrified by his prediction of an evolution of the Monroe doctrine into a Pan-American doctrine for a mutual defense against aggression from overseas, when he de-fined such a doctrine as meaning 'That the Latin-American republics in the event that the United States was attacked by s foreign force, would with all their physical and moral force stand for the protection and sovereignty of the United States just as quickly as the United States under corresponding circumstances would stand for their integrity and sov-

Both victor and vanquished in the European war will be hostile to America at the close of hostilities," said he. "The former will say it won in spite of the attitude of the United States and the other American republics and the latter will say it lost because of the attitude of the United States and its sister re-

"In the minds and thoughts of everybody interested in Pan-Americanism is the question: 'What is going to happen to Pan-America when this war is over?" mediately there is the reply: American republics must stand together for the eventualities that may possibly

Employes Aided to Join Naval Militia

WASHINGTON, Jan. 1.—An increasing interest among corporations and business asea generally in encouraging employes erlist in the naval militia is shown the annual report of Captain F. B. bureau. Many concerns the last year have granted cultated men in their em-ploy special leave on full pay for at-tendance at training ce at training camps without deducting the time from segular vacations. The 8,321 officers and men now in the ilitia, Captain Bassett says, form a very valuable reserve for the navy in

Pull application of recently revised miitia laws has resulted in satisfying progress in numbers and efficiency, the re-pert adds, but further revision is rec-ommended to extend the free mailing privilege of the army and navy to the militia, to grant federal employes leave to attend militia schools and camps, and allow offenders against discipline on a naval cruiser to be tried by court-mirtial under state laws by their own officers.

BRITISH LINER PERSIA IS SUNK BY SUBMARINE

(Continued from Page One.)

Persia, being far from home, had not been instructed in the new policy of the Austrian government.

The destruction of the Persia coupled with the sinking of the Japanese liner Yasaka Maru and the French liner Ville De La Clotat, lends strength in official quarters to both these possibilities. All the agencies of the American govthe world at the end of the Euro- ernment have been set in motion to gather facts on the newest disaster.

The general impression in diplomatic quarters was that the position of the United States was sufficiently well known to Austria and the Ancona negotiations have been under way a sufficient length of time to permit instructions to reach the submarine fleet. On every hand the news was received with astonishment.

Consul General Skinner at London for warded what information was available at the British admiralty and his dispatch, with unofficial reports of the disaster, was forwarded to President Wilson at Hot Springs.

Prospect of Break Renewed; Severance of diplomatic relations with

all its possibilities looms up as one of the eventualities, the same as it did in the case of the Lusitama, the Arabic and

Although the nationality of the submarine which sunk the Persia remains unestablished definitely, as was the case with the Yasaka Maru and the Vills De La Clotat, the assumption generally is that it was an Austrian boat, because Count von Bernstofff, the German ambaseador, recently declared that no German or Turkish submersibles were operating in the Mediterranean.

The attack on the Persea as it was approaching Alexandria renews attention to the fact that a submarine campaign against allied shipping is being carried on off the entrance to the Suez canal.

Arthur Garrels, American consul at Alexandria, Egypt, was instructed by the State department to gather all available information about the sinking of the Persia and forward it at once to Wash-

Prices of Window Glass Advanced

LIGHTS FOR THE FIRST TIME

For the first time in its history electric lights illuminated the streets of Dundee last night. They burned all night the same as those in other sections of the city.

When Dundee annexed to Omaha it had the construction of a street lighting system under way. For a time after annexation work was delayed, but after matters shaped themselves the city pushed the work to completion and last night the lights were given their official tryout, apparently working to the satis-LIQUOR HELD IN STORAGE
