

### Nebraska DEMOCRATS FLOCK TO STATE POW-WOW

Editorial Association Meeting at Lincoln Draws Faithful to Old Stamping Grounds.  
WILSON GETS ENDORSEMENT  
From a Staff Correspondent.  
LINCOLN, Jan. 11.—(Special.)—Democratic editors of Nebraska have been coming into town today in numbers. Although all the editorial visitors are not newspapermen, most of them expect to have something to do with the fraternity before the year is over.  
On account of the threatening blizzard, many who had intended to come from out in the state were forced to change their plans so that the banquet was changed from the City Auditorium to the Lindell hotel, the two dining rooms and the ball room being thrown together for the occasion by Landlaid Johnston.  
Hastings Wants Convention.  
A delegation from Hastings, headed by Secretary R. A. Blake of the Chamber of Commerce, with John Teeling, Jack Corey and R. B. Wahlquist as a committee, were boosting Hastings for the place for holding the state democratic convention. Hastings is the only city so far which has made a bid for the convention.  
Democratic celebrities who were on the ground early were: Senator Jack Grace, candidate for the democratic nomination for the railway commission; Senator John Mattes of Nebraska City, who will again be a candidate from that district; Victor Wilson of St. Joseph, a candidate for the democratic nomination for the railway commission; George W. Potts, chief clerk of the house at the last session, and a possible candidate for governor; Bert Sprague, secretary of the democratic state committee, and a candidate for chairman; Editor Shields of Orleans, candidate for the democratic nomination for governor; Representative Snyder of Hastings, who will endeavor to return for the next session; Representative Kauffman of Nemaha, who also aspires to return, and other noted statesmen.  
Besides these were Fire Commissioner Eldred, who can live longer on no salary than any appointee of the governor and grow fat, who is a candidate for railway commissioner; Senator Skiles of Saunders, who admits he wants nothing but harmony, provided it grows on his kind of a tree, and some others.  
Bryan and Maher.  
Mayor Charles Bryan wiped into the hotel lobby about noon, wiped the steam from his glasses, conversed a moment with friends and then wrapped the mantle of his cloak about him and statelyly strolled away.  
Colonel John G. Maher, who leaves for New York tomorrow, stole into the lobby, looked around to see if the mayor was there, and seeing him not, lingered for some time.  
However, the editors in their meeting this afternoon gave a general endorsement of the administration and gave endorsement of the manner in which the president had handled the war situation and half-heartedly endorsed the preparedness scheme of the president in the following paragraphs:  
"We unreservedly repose confidence in our democratic president and our democratic congress, including our Nebraska representatives in the national legislature, for protection from the extravagant preparedness program of the republican leaders, with the firm belief that they will adjust this acute question to the satisfaction of a majority of the American people."  
They also gave an endorsement of the state administration.  
Colonel Arthur Mullen of Omaha was early on the ground. It was rumored that Mullen had something up his sleeve, but if so he kept it very close, although he looked exceedingly wise at times.  
Senator Hitchcock could not be present, but his special representative was busy most of the day looking after the senator's political fences and tightening up the wire wherever it showed signs of sagging a little where some discontented democrat had tried to creep through.  
Editors for Wilson.  
There was some sentiment shown against endorsing President Wilson, the bone of contention being that some desired an endorsement of his preparedness plan, while others who were afraid that to pick out any particular thing might spoil the harmony plan favored passing up endorsement altogether rather than taking a chance of raising opposition.  
May Force Morehead.  
There appeared to be quite a sentiment in favor of Governor Morehead for a third term, or rather the nomination for a third term. This comes from two sources—those who believe that the governor has made good and has given the state a good business administration, and those who desire to get him out of the way so that Senator Hitchcock will have plain sailing. The latter element is working hard to get the sentiment worked up right, and much depends on the way in which the wires are pulled. Should the governor get into the senatorial fight it will complicate things considerably. It is generally believed that if the governor could have his way he would much prefer staying out of the political game as far as himself is concerned until two years later, and then go up against Senator George W. Norris, should he be renominated by the republicans, for the senatorship.  
Editorial Officers.  
The Editorial association re-elected all officers, being Doc Tanner of Omaha, president; E. A. Walrath of Osceola, secretary, and John W. Cutright of Lincoln, vice president.  
Edgar Howard, sadly dilapidated, but still in the ring, is present. He still has a bad-looking eye and may lose the sight of it from the auto accident of a week ago, when he got in the way of a bunch of joy riders. A hole in the back of his head testifies that the curb stone where he struck was the hardest.  
Stomach Troubles.  
Persons who have stomach trouble are not to become discouraged. They will see by the following that their chances of recovery are excellent. A. K. Williams, Independence, Va., tells of a remarkable cure that was effected in that vicinity. One of his customers was so badly afflicted with stomach trouble that he was sent to a hospital, but received little benefit and came home to die. Mr. Williams suggested that he try Chamberlain's Tablets, which he did, and today he is a well man and weighs 155 pounds. Obtainable everywhere.—Advertisement.

### Nebraska Beckmann Feels He Is Sustained

From a Staff Correspondent.  
LINCOLN, Jan. 11.—(Special.)—Land Commissioner Fred Beckmann is feeling pretty good this morning, having received a letter from Anton Kasperian of St. Paul, who owns land adjoining the tracts which have been the occasion of much discussion and on which the State board has recently ordered a reappraisal against the wishes of the land commissioner.  
Commissioner Beckmann opposed placing the reappraisal in the hands of the county commissioners because the county commissioners had signed a petition to the board asking that the reappraisal be lowered. To show that Mr. Beckmann was about right on his contention that the land was not appraised too high, the letter received this morning substantiated, and is as follows:  
"I understand the party who rents the 27 of NE 1/4, section 16, T. 14, range 9 of Howard county is paying the use of said land the amount of \$48.00 only. I also see by the last issue of our county paper that a number of Howard county people have been down to see you in regard to getting the rental reduced, which I understand you have partly agreed to, and that a new appraisal will be made.  
"I have a number of jointing above described school land and would be perfectly willing to pay \$15 a year for such rental. Furthermore, there is land on the east of this land that cannot be bought for less than \$100 an acre."

### Doctor Says Nuxated Iron Will Increase Strength of Delicate People 200% in Ten Days

In many instances—Persons have suffered untold agony for years doctoring for nervous weakness, stomach, liver or kidney disease or some other ailment when their real trouble was lack of iron in the blood.—How to tell.

New York, N. Y.—In a recent discourse Dr. E. J. Mayer, Specialist, of this city said: "If you were to make a normal blood test on all people who are ill you would probably be greatly astonished at the exceedingly large number who lack iron and who are ill for no other reason than the lack of iron. The moment iron is supplied all their multiple dangerous symptoms disappear. Without iron the blood at once loses the power to change food into living tissue and therefore nothing you eat does you any good; you don't get the strength out of it. Your food merely passes through your system like steam through a mill with the rollers so wide apart that the mill can't grind. As a result of this continuous blood and nerve starvation, people become generally weakened, nervous and all run down and frequently develop all sorts of conditions. One is too thin, another is burdened with excessive fat, some are so weak they can hardly walk, some think they have dyspepsia, kidney or liver trouble, some can't sleep at night, others are sleepy and tired all day, some fever and chills, some skin and bloodless, but all lack physical power and endurance. In such cases, it is worse than foolishness to take stimulating medicines or narcotic drugs, which only whip up your feeble vital powers for the moment, maybe at the expense of your life later on. No matter what any one tells you, if you are not strong and well you owe it to yourself to make the following test. See how long you can run or how far you can walk without becoming tired. Next take two five-grain tablets of ordinary Nuxated Iron, three times a day after meals for two weeks. Then test your strength again and see for yourself how much you have gained. I have seen dozens of nervous run down people who were ailing all the time double, and even triple their strength and endurance and entirely get rid of their symptoms of dyspepsia, fever and other troubles in from ten to fourteen days' time simply by taking iron in the proper form, and this after they had in some cases been doctoring for months without obtaining any benefit. You can talk as you please about all the wonders wrought by new remedies, but when you come down to hard facts there is nothing like good old iron to put color in your cheeks and good sound healthy sleep on your tongue. It is also a great nerve and stomach strengthener and the best blood purifier and blood builder. The only trouble was that the old forms of inorganic iron like ferrous sulfate, iron acetate, etc., often caused people's teeth, upset their stomachs and were not assimilated and for these reasons they frequently did more harm than good. But with the discovery of the new forms of organic iron all this has been overcome. Nuxated Iron for example, is pleasant to take, does not irritate the stomach and is almost immediately beneficial."  
NOTE: The manufacturers of Nuxated Iron have unshakable confidence in its potency that they authorize the announcement that they will furnish a bottle of Nuxated Iron free of charge to any man or woman under fifty who lacks iron and improve their strength 200 per cent in four weeks' time, provided they have no serious organic trouble. Also they will refund their money in any case where Nuxated Iron does not at least double your strength in ten days' time. It is dispensed in this city by Dr. J. M. & McConeil Drug Store and all other druggists.—Advertisement.

Velvet Joe

### "NO BITE" in a tobacco is a good quality. But "no bite" combined with coolness and natural flavor is a BETTER quality. That's why VELVET is the choice of more and more pipe smokers every day.

Into VELVET goes the very pick of Kentucky's famous Burley Tobacco. This Burley is cured in the natural way—by two years' patient ageing in wooden hogsheads. Then it has gained that delightful smoothness so noticeable in VELVET, which age alone can give.
