PECAN ORCHARDS

pay greater returns on the amount invested than any other business enterprise known.

The paper shell pecan, grown at Ocean Springs in the MISSISSIPPI Gulf Coast, is the finest nut grown anywhere; they will average 42 to the pound and bring the average FORTY CENTS PER POUND.

Pecan trees are long lived, living for a hundred years and more, and increase in value with age. A pecan orchard will not only provide you with a home in a delightful and healthful climate, but produce you a SAFE and RELIABLE income for yourself and children. It is the best form of insurance that can be bought and is the lowest in cost—it is a GUARANTEED investment against becoming a mortgage on unwilling relatives.
