Ray Burgess Has Eye Cut When He is Struck by Egg

CAMP STRITZINGER, MALVERN, IA., June 9.—(Special).—The first night at the camp was unusually boisterous for a "first night." Because of the cold a good many of the boys were unable to sleep, and so they saw to it that very few others slept. In spite of all orders to the contrary several of them persisted in creating trouble, to the end that Russell Mason of the busle corp was given a ticket to Omaha and put on a train. Several other boys were reprimanded for running the guard and for making unnecessary disturbance after taps. The commandant had a personal talk with each company and no disturbances occurred the second night. Company H, Captain Gus Wickstrom, formed the guard for Tuesday afternoon and night. Company E, Captain Wilson Bryans, relieved Company H this morning. The rivalry between companies for the places in best line and cleanest streets has reached a high point. Company C was first in the regimental drill Monday afternoon, with Company F second and Company H third. In troop parade Tuesday morning, Company G was first, Company A second and Company E third. In dress parade Tuesday afternoon Company D drew first, G second and E third. The whole regiment shows fine form. During the morning inspection the morning inspection in held. In the first inspection the Second battalion, Major Gould, took first; Third battalion, second, and First battalion, third. The cleanest company streets were awarded to Companies D E and F. Aside from the usual great number of bruises there has been a very small amount of work for the doctor. A large number have reported to him with cut fingers and feet and other minor ailments, but the only serious thing is a bad eye on one boy. Some one of his fellow cadets threw a ripe egg at the eye and Ray Burgess got the full benefit of it directly in his right eye. A portion of the shell got beneath the lid and cut a small piece out of the eye ball. It is a little bit dangerous and is giving the owner quite a bit of pain. The doctor reports that it is improving rapidly.

MAKES MORE WORK FOR BAGGAGE MEN

Travelers Must Declare Value of Baggage Under Cummins Amendment to Interstate Act.

RAILROADS FAVOR NEW LAW

While railroad baggage agents assert that the Cummins amendment to the interstate commerce act relative to baggage is going to cause a great deal more work for the men at terminals and stations, they contend that its provisions are just to both railroads and travelers. The Cummins amendment was to have become effective June 2, but the time for the beginning of its operation has been extended to July 1, at which time it is expected that its provisions will be applied to the letter at every railroad station in the United States. Formerly and at the present time a traveler could check a trunk or piece of baggage regardless of value, and if it were lost, sue, prove the contents and its worth and recover any sum that a jury might see fit to award. Under the amendment the provision prohibits carriers from limiting liability and at the same time limits owners of the baggage from recovering a sum greater than that which they declare the baggage to be worth at the time of checking. The amendment is going to cause some delay in the checking of baggage at stations, for every person in the future, before baggage is checked, must declare its value and sign a certificate to that effect. Each piece of baggage up to the value of \$100 will go without charge, as is the rule, now, but where the value is declared to be in excess of \$100 a charge of 10 cents for each additional \$100 declared valuation or fraction thereof will be exacted by the railroad company over whose line the shipment originates. This acts as a sort of insurance to the baggage shipper and makes the railroad liable for the safe delivery of the property. Still checked from the property.

First Delegates T. P. A. Convention to Arrive Sunday

The first of the delegates to the national convention of the Travelers' Protective association that is to be held in Omaha next week, will arrive at 8 o'clock Sunday morning on Burlington No. 8, coming from Chicago. They have a special train and it is expected that there will be 150 to 200 in the party. Saturday at midnight, a special train over the Burlington, bringing the St. Louis and other southern delegates will leave the Missouri metropolis, picking up a Kansas City and Kansas delegation at Kansas City, reaching here at 6 o'clock Sunday evening. It is expected that there will be 100 in this party. The delegations from Minnesota and the Dakotas are expected early Monday morning and those from the west during the day. It is now thought that the attendance will be close to 500, not figuring in the local men. Arrangements have been made by the Omaha Automobile club with the Nebraska Telephone company to have reports delivered to the club each day as to the condition of the roads within 500 miles of Omaha in each direction. The telephone company will provide the reports and they will immediately be posted at the club rooms at the Pontenelle hotel for the guidance of motorists. Condition of the roadways and bridges and the like will be included in the reports. Tourists are invited to inspect these reports before leaving Omaha.

R. B. Howell, Wanted as Witness in Water Case, is Missing

Hearing of the Omaha Water board's suit against South Omaha, the stock yards and packing houses was resumed in federal court yesterday before Judge T. C. Minger. The suit has been interrupted twice already in its long course by other engagements by the defense or attorneys. It is the suit in which the Water board is trying to prevent the defendants from using the streets of South Omaha for the mains of the water supply which they built to relieve the "water famine" which they claim existed because the Omaha water plant couldn't supply enough water to the packing industries. The plant is in operation. Robert C. Howe, general manager of Armour & Co., and Frank T. Ransom, attorney for the Union Stock Yards company, were on the witness stand during the morning. R. Beecher Howell, chairman of the Water board, was not present, though attorneys for the defendants wanted to ask him some questions. Attaches of the Water board said he was out of town and had promised to return Tuesday morning. No one knew where he was or what was delaying him.

Sutphen Mixed Those Bryans Up

When first mention that "Bryans has resigned" came to Joy Sutphen, this is what he exclaimed: "Well now, isn't that a nice how-de-do? But that's just what might be expected! He just jumped into the ring down there to beat Frank Zehrung out of being mayor of Lincoln, and now that he's got in he goes and resigns." Diagram: Sutphen is local manager for the Brandeis theater, representing Frank Zehrung of Lincoln as lessee, and Zehrung was recently beaten by "Charley" Bryan for mayor of Lincoln.

THREE SISTERS ARE DOWN WITH SCARLET FEVER

Three sisters of school age, daughters of Mr. and Mrs. J. Monroe, 2301 Fowler avenue, are victims of scarlet fever. The health department has the cases in charge. Precautions are being taken to prevent a spread of the disease among children of Saratoga school. Scarlet fever is unusually prevalent in Omaha at this time.

ANDY TREYNOR FORCED TO UNDERGO AN OPERATION

Andy Treynor, for years general baggage agent of the Union Pacific, but now retired, has gone to the Long Later hospital, where he will submit to an operation for stone in the bladder. Mr. Treynor is in excellent general health and it is not believed that the operation will be attended with any serious results. A Mistake Made by Many. Don't wait for rheumatism to indicate diseased kidneys. When you suffer pain and ache by day and sleep disturbing bladder weakness by night, feel tired, nervous and rundown, the kidneys and bladder should be restored to healthy, strong and regular action. It is a mistake to postpone treatment. Foley kidney pills put the kidneys in sound, healthy condition and keep them active and strong. Begin taking today. Good results follow the first dose. Hold every where.—Advertisement.

Driver for Hummel Has Narrow Escape from Bad Accident

William Gunn, chauffeur in the department of parks and boulevards, narrowly missed plunging down a 100-foot embankment in Syndicate park, South Omaha, Tuesday afternoon, during an inspection trip of Commissioner Hummel and City Engineer Townsend. While the Omaha officials were looking over the street repair situation in this park Chausseur Gunn's interest was attracted by another automobile stuck in the mud. Mr. Gunn went to aid the worried owner of the stalled machine, and getting into the mire car, started to put the machinery in operation. The Omaha chauffeur finally succeeded in backing the car out of the mud, but was unable to stop the car until he reached the brink of an embankment overlooking a decline of 150 feet. While endeavoring to stop the car Mr. Gunn guided it backward, with the owner and the two Omaha officials running frantically to his rescue. For a few seconds it appeared that a plunge over the embankment was inevitable. Mr. Gunn in his spectacular backward ride missed an open sewer trench by three feet. He afterward admitted it was the most thrilling ride he ever had, but he got the car out of the mud and received the thanks of the owner.

Condition of Roads Will Be Reported to Auto Club Each Day

Arrangements have been made by the Omaha Automobile club with the Nebraska Telephone company to have reports delivered to the club each day as to the condition of the roads within 500 miles of Omaha in each direction. The telephone company will provide the reports and they will immediately be posted at the club rooms at the Pontenelle hotel for the guidance of motorists. Condition of the roadways and bridges and the like will be included in the reports. Tourists are invited to inspect these reports before leaving Omaha.

No Hard Times Among Ohio Manufacturers

Harry Snyder, chief clerk in the general offices of the Northwestern, is back from a vacation spent at his old home at Piqua, one of the leading manufacturing cities of Ohio. Said Mr. Snyder: "There is nothing in this talk of hard times in the manufacturing centers of the United States. I visited several such cities in Ohio and everywhere found business good. In the factories in Piqua business is booming. There the factories are all working capacity forces and all the people are on full time. There are orders enough ahead to keep all the plants busy for months."

TODAY'S BEAUTY HELPS

COMPLEXION BEAUTIFIER—Nothing is more repulsive than to see a woman with her face all daubed with face powder in her desire to hide marks of age. Instead of using powder, which clogs and enlarges the pores, it is far better to use a good face lotion that will improve and permanently benefit the skin. By dissolving four ounces of sprumax in one-half pint hot water you can make an inexpensive lotion that will do wonders as a skin whitener and complexion beautifier. It removes all shininess, sallowness and roughness, and gives the skin a smooth, velvety tone, while it does not rub off easily like powder, nor does it show on the skin. MAKES HAIR FLUFFY—By washing the hair with a teaspoonful of canthox dissolved in a cup of hot water, afterward rinsing thoroughly with clear water, one finds that it dries quickly and evenly, is unstreaked, bright, soft and very fluffy, so fluffy, in fact, that it looks more abundant than it is and so soft that arranging it becomes a pleasure. This simple, inexpensive shampoo cleanses the hair and scalp thoroughly of all dandruff and dirt, and leaves a clean, wholesome feeling. All scalp irritation will disappear, and the hair will be brighter and glossier than ever before.—Advertisement.

Naval Attaches Do Not Grieve Because Bryan Quits His Job

The tears being shed at the local navy recruiting office over the resignation of Secretary of State Bryan are the same kind of tears that were shed by little Jimmie when the school house burned down. "The universal opinion in the navy is that Secretary Bryan was a tremendous pull-back to all real and lasting progress," said one of the attaches. "His 'peace at any price' cry has made the nation a laughing stock in every quarter of the globe. His refusal to protect American citizens in Mexico and other countries has been a disgrace. This meeting was to have been held last Saturday, but was postponed."
