

## MORE MUNITIONS IS CRY OF ALLIES

French War Minister Announces Over Six Hundred Thousand Men Put in Works.

### GERMANS HAVE EDGE ON FOE

LONDON, June 11.—All the belligerent nations are engaged in heavy operations, particularly with artillery, which have proved a heavy drain on war supplies, and the cry still goes up from England and France for more shells and ammunition. In the French Chamber of Deputies, War Minister Millerand made the announcement that 650,000 men had been taken into the munitions branch of the service.

### Warns British People.

In England Sir William Roberts, editor of the British Weekly and a close personal friend of David Lloyd George, the minister of munitions, declared that where Germany once had a marked superiority in men it now has a superiority in ammunition, an advantage it will press to its fullest. The only way, he says, for the allies to divert disaster to themselves, and to do this Great Britain must stand behind David Lloyd George as minister of munitions as one man. Moreover, if he is not given a free hand he may resign.

He writes: "We say with certainty that the next three months of the war will be extremely critical ones for the allies. The superior strength of Germany in munitions of war has given it a second great opportunity, of which it will take full advantage.

"The reverses of the Russians seem likely to set 1,000,000 of the best German troops free to act on the offensive in the west. This is the cardinal fact. These forces will be turned against the French and against the congested area now occupied by British troops. They will be powerfully supported by munitions of every kind."

PARIS, June 10.—The conduct of the war came under discussion in the Chamber of Deputies today on a bill proposed by M. Dalbiez respecting the proper assignment of men at the front or in the services supplying the army.

### PRISONER PERSONATES CAPTAIN THIERICHSENS

PARIS, June 11.—A Havas dispatch from Algeciras, Spain, filed yesterday, gives details of the arrest there of the man who professed to be the commander of the German converted cruiser Prinz Eitel Friedrich. He shipped as a cook aboard an Italian steamer bound for Genoa, intending to go from there to Germany.

British authorities were informed of his presence aboard the vessel and held up

the steamer. When questioned the supposed cook declared he was the Eitel's commander. He was interned at Gibraltar.

Obviously the man arrested at Algeciras is masquerading under the name of Commander Thierichsens of the Prinz Eitel Friedrich, for the latter now is at Norfolk, Va. He gave his parole not to leave the United States after his ship was interned at Newport News.

NEW YORK, June 11.—Another installment of gold amounting to \$5,000,000 was received at the treasury today from Ottawa for account of J. P. Morgan & Co. This makes a total of \$30,000,000 received from Canada by special arrangement between Morgan & Co. and London bankers during the last three weeks.

## Taft Suggests New York Modify Liberty Of the Newspapers

ALBANY, N. Y., June 11.—Provisions restricting "trial of cases by newspapers," providing for appointive judiciary, facilitating the impeachment of judges and eliminating grand juries and petit juries in civil cases, should be written in the state constitution, former President Taft told the judiciary committee of the constitutional convention today. He also advocated the retention of trial by jury with unanimous verdicts in criminal cases.

"One of the greatest evils we have today," he said, "is the practice of trial of cases by newspapers. This practice creates an atmosphere which it is hard for the court and jury to overcome. My suggestion would be that the constitution modify the freedom of the press provision to the extent at least of authorizing the legislature to pass laws to protect the administration of justice against the abuse of the press."

The present system of grand jury indictment is adapted to preparation of perjured defense, Mr. Taft declared. An accusation by the prosecuting officer is the substitute he proposed.

In the trial of civil cases Mr. Taft held that juries were unnecessary, added expense and wasted time.

"Concerning criminal cases he said the jury and unanimous verdicts should be retained if for no other purpose than to counteract the vicious danger of newspaper trials."

into one nation," says Commissioner Claxton, in a letter made public today and sent to mayors of all cities, school superintendents and other educational institution officials. He has appealed to 7,000 of these officials, and the movement already has begun in fifty cities, whose mayors have appointed committees as a part of the national movement to make Independence day, 1915, "Americanization day."

New York and St. Louis, through their public schools, have planned a special civic lesson on Flag day, June 14.

### TW COUNTIES COMPROMISE BRIDGE DAMAGE CASE

SHENANDOAH, Ia., June 11.—(Special.)—Subject to the approval of the district court, settlement has been made by Fremont and Page counties with Mrs. Ella Johnson, administratrix of her husband's estate, for his death in a bridge accident in which a threshing machine and engine crushed through a county line culvert, March 10, 1914. The widow has agreed to accept \$5,500 and the two counties pay all the court costs except what Mrs. Johnson has advanced herself.

The case has attracted wide attention and at the first hearing at Glenwood last October the widow was awarded about \$18,000 damages and the jury at the second trial in February agreed that the counties should pay \$10,200.

In the written stipulations Mrs. Johnson agrees to pay \$300 to the Commerce National bank of Essex because of an indebtedness made by her husband before his death.
