RISE BEGINS AT OPENING

NEW YORK, June II.—Stocks rose vigorously today on the largest and broadest demand witnessed since last Friday, when the market became buoyant on the decision in Eaver of the United States Steel corporation. The Travelers' Protective Association of America meets in our city June 14 to 19, delegates from all parts of the United States will be in attendance; there will be a parade, starting from the Motel Pontenelle west, at 9:30 a. m., June 14.

I respectfully recommend that the business inen, aspecially of our city, decorate their piaces of business in the Travelers' Protective association colors, blue and white; also that Travelers' Protective association fings be procured at room 643, Brandels building, for decorative purposes. Poses.

As mayor of "Greater Omaha" I further recommend that as Bunday, June 18, is the national flag day of the Benevolent and Protective Order of Elks, that our national flag he also displayed on the buildings and business houses of the city. IN THE NEBRASKA LAKES try of the sandhill sections of Nebraska assert that base fishing has never been better than now in the lakes of Cherry county and south of Atkinson. The re-cent heavy rains have filled the lakes bank full, and even with the great mass bank full, and even with the great mass of insects that have been washed in, it is asserted that the bass are taking the lure more freely than during past years.

In most of the lakes it is asserted that the majority of the bass run from one to two pounds in weight, with some running as high as four and even five pounds. Both black and small-mouth bass are being caught in great numbers.

While general business gains but slowly, the economic situation grows steadily strenger. International uncertainties are still a restraining influence, yet constructive forces multiply, and the absence of speculative excesses is helpful to sustained progress. Much the best feature of the week was the government grain report, which indicated bumper harvests of both wheat and cats, as well as big yields of the other cereals.

To the nation at large agricultural success means more than anyone can calculate, and since prosperity of the railroad is materially affected by the size of the crops to be moved, the official forecast is obviously a most encouraging factor. Because of it optimism in the west increases and confidence everywhere strengthens, especially as the marketing of the great staples will involve no financial strain.

Funds remain in supersbundant supply for all requirements, and gold is coming here when it is not really needed, several millions of the precious metal again crossing the Canadian border this week. There specie imports bear a close relation to Europe's purchases in this country and the continued urgent was demands, though exasgerated in some instances, impart new life to manufacturing enterprise. It is not now uncommon to hear of idie plants resuming or of more machinery being set in motion, and unemployment saturally becomes a less serious problem as industrial operations expand. In no other line has the revival of activity been as promounced as in iron and steel.

NEW YORK, June II.—COFFEE—The market for coffee futures was very quiet today, but prices ruled generally steadier in sympathy with the firmness in Brazil and the firmer tone of the stock market.
