Run of Cattle is Light, but the De- Demand for Cash Wheat is Light and Market Set Back Another Four Cents.

OMAHA, June 11, 1915. The demand for cash wheat was exceedingly light today, and the market received another setback of 4 cents. The wheat receipts were very light and there was only a few cars sold. wheat receipts were very light and there was only a few cars sold.

The corn market was fairly active and there was a pretty good demand for all the commercial grades. The white corn sold about \(\frac{1}{2}\) cabove the yellow, while the yellow corn sold at an advance of \(\frac{1}{2}\) cents above the mixed. The market was quoted unchanged to \(\frac{1}{2}\) cents above the mixed. The market was quoted unchanged to \(\frac{1}{2}\) chigher.

The sales of oats were light, there being very little demand for that cereal. The oats market declined \(\frac{1}{2}\) c.

The price of wheat is not low, and, with the new crop at hand and with buyers cautious, the bull side will continue unpopular for some time. There will be a fair-sized movement of new wheat in the near future, and the question now is whether or not the buying power will be equal to the movement of grain.
