

**KRUG PARK DRAWS GOOD CROWDS IN SPITE OF RAIN**

Although hampered by unreasonable weather on numerous occasions since its opening, the popular Krug park is daily striving to reach a degree of unparalleled

popularity as evidenced by the attendance.

Two features worthy of mention at this popular resort are the flowers and the motion pictures. The artistic arrangement and the exquisite selection of plants is a topic of much discussion among the park's many patrons.

While watching the fresh air movies, as they are sometimes alluded to, one soon becomes cognizant of the fact that he is watching a program consisting of educational, comic, dramatic, stories, news pictures and other things of particular interest.

**WILL ATTEND MEETING OF DARTMOUTH ALUMNI**

Traffic Manager Munroe of the Union Pacific, who went to Chicago to attend the meeting of the Transcontinental Freight association, has returned and will remain here until Thursday, when he

will go to Hanover, N. H., to attend a meeting of the alumni of Dartmouth college.

According to Mr. Munroe there was nothing done at the Chicago meeting, the consideration of all business having been put over until June 25, at which time another attempt will be made to get the traffic managers together.

**CITY WILL SETTLE WITH COTTAGE GROVE OWNERS**

At an informal conference the city commissioners agreed to an amicable settlement with property owners on Cottage Grove avenue, where an error of the city

engineering department resulted in awarding less damages for grading than the property owners were entitled to. Before submitting his proposition to the commissioners, Commissioner Jardine of the public improvements department visited the complaining citizens Friday evening and arranged the settlement which the city council will formally approve next week.

**Black Silks at Their Lowest in Their Most Fashionable Hour**

It was expected that they would lead in fashion; and throughout the Fall and Winter manufacturers in all countries worked feverishly to turn them out, to get enough. They got too much! The European market failed to absorb them. There was overproduction, and the result is that black silks from France, Italy, Switzerland and America are here today for less than we have known for quite some time.

All this despite the fact that black silks have kept to their promise and are leading in fashion importance this spring. We offer you black chiffon taffeta, crepe, messaline, peau de soie, charmeuse, poplin, failles, Japs, etc., a most beautiful showing at wonderful reductions:
