Cattle Receipts for the Week Six Dealings More Impressive of Greater Breadths Shown.

STANDARDS ARE NEGLECTED

NEW YORK. June 12.—Dealings in stocks today would have been more impressive had the movement shown greater breadth. Most of the standard shares were neglected, activity and greater set advances again converging about war specialities and other stocks more or less remately within that special chass.

For Instance, tederal mining and smelting common and preferred, one of the obscure issues in the Gusgenheim group, scored temporary leans of twenty and five points, respectively, partly as a result of the higher prices for refined copper and lead, and American Smelting. Guggenheim exploration amaignmated copper and National lead rose one to three and one-half points. three and one-half points.

In the more direct war issues, Bethle-hem Steel preferred rose to the new-high price of 1194, with smart advances in the common stock, New York Atribrake, General Electric and half a score of other industrial and equipments sharing in the manufacture of munitions of war. Motors were relatively inactive, though firm.
