### The New Nemo Corset With "Wonderlift" Device

This wonderful corset for women is the result of years of designing and experimenting, and is a corset that forms a natural support.

*Do you know what the Natural Supports of the Abdomen are?*

*Two strap-like muscles perform this important service—very often they lose their strength and sometimes they are not naturally strong and the result is they weaken a women's constitution.*

This new corset is designed with straps of lastikops which imitate the muscles, both in elasticity and position. This support is invisible but by pulling the two small laces at the sides this new "wonderlift" bandlet can be adjusted to suit an abdomen of any size. The corset will not ride up when seated. Sizes 25 to 36..... **\$5.00**

The extra stout woman can be fitted here. We have extra sizes from 38 to 44 in Nemo Corsets. Prices **\$5, \$6.50 and \$7.50.**
