Loan Associations Are Loaning Large On Nebraska Farms

At the June meeting of the board of directors of the Conservative Savings and Loan association the officers reported a most remarkable increase in the resources of the association, amounting since January 1 this year to almost \$1,000,000. All money that was offered was not accepted by the association on account of the inability of the officers to find satisfactory securities. The officers report that a great deal of money is being offered for temporary investment in association stock these days which would ordinarily go into some more active line of business.

In order to provide an additional outlet for funds, as announced early in the spring, the Conservative devised a plan for loaning money to farmers on a fifteen-and-a-half-year amortization basis. Thus far the association has placed about \$200,000 on improved farms in the eastern part of this state. They are well pleased with results and believe it will be the means of not only assisting the association in putting its funds out, but in time or getting the money to the farmer cheaper than in the past.

A dividend was declared for the six months ending June 30 at the rate of 5 per cent per annum. The net total resources of the association at this time in round numbers stand at \$10,500,000. The officers report considerable inquiry for real estate, both improved and unimproved, which will likely result in a more active business in real estate lines this fall. Many investors are playing what may be termed a "waiting game," having in mind that perhaps better bargains may be on the market later than now. On account of the strong financial condition of this city, however, it is not likely that such investors will gain in the final outcome.

Krug Park Taxed To Its Capacity

The picnic grounds at Krug park are one too big for the enforced enlargement, as evidenced by the number of basket picnics in attendance last Thursday at the postponed grocers' and butchers' picnic. Great numbers brought their lunch and stayed from early morning till late at night. The attendance taxed the park and the various rides and concessions to capacity and the attendants of the riding devices were continually on the jump to properly handle the crowd. The feature attraction of the day was the dance pavilion, which was thronged from the opening hour till the close while the other attractions, including the giant coaster, carousel, frolic, wonderland, Ferris wheel and skating rink came in for a most liberal share of patronage.

Dr. Bradbury's offices in the Woodmen of the World building are continually crowded with people who appreciate the personal attention which the doctor gives to his work.

Prefer Women Lawyers.

(Correspondence of the Associated Press.) PARIS, June 22.—Many of the soldiers confined at the Cherche-Midi prison awaiting court martial for infringement of regulations ask to be defended by women lawyers. On the contrary, the women at St. Lazare awaiting trial generally ask the head of the order of advocates for a man to defend them.

The two weeks reserved for the younger girls at the Summer Hill farm are the first two weeks in July. The Camp Fires take possession the first week, from July 1 to 8, and the other girls from July 8 to 15. At no other time during the summer will girls from 12 to 18 be allowed to go to the farm unless they provide their own chaperone or older person to go with them. Work Being Rushed On Bellevue Gym

The new gymnasium at Bellevue college is booming as well as all the affairs of the school. One-third of the total work on the building is completed, including over one-half of the brick work. Next week Contractor Harte expects to put on the roof and then work on the interior will begin. A two-layer floor is to be put in so that the final floor will consist of specially selected hard wood. The apparatus to be installed is the best possible and will furnish an excellent opportunity for men and women to learn indoor gymnasium work. Coach Benjamin was selected specially because of his fitness along these lines and is planning to offer special gymnasium courses.

The college has three of its best men out on the road looking for new students to enjoy these advantages. Coach Benjamin has gone to the southern part of the state, Prof. Puls is in the north and west, and Prof. Peters is covering the eastern district. All three have been meeting with a favorable reception and all signs point to a big student body next year. Some energetic students have already registered and applied for rooms.

Vice President Baskerville is now in the east on business. His trip will take him to Philadelphia, Boston, New York, Chicago and other points.

Bellevue college had a distinguished visitor this week in the person of Dr. D. B. Purinton, who for ten years has been president of the University of West Virginia, and who for twelve years previous to that was head of Denison college.

Granville, O. Dr. Purinton is a personal friend of John D. Haskell, a trustee of the college, and at his request spent a day in Bellevue on his way to the San Francisco exposition. He was entertained by President W. E. Nicholl.

PAPERS COME FROM ENGLAND CARRYING U. S. STAMPS

An oversight on the part of clerks in the postoffice at London, England, checked the United Kingdom out of several pence in postage. As a result, the public library had the novel experience of receiving a copy of The Academy in a mailing wrapper postmarked London, but stamped with two United States postage stamps of the pink, 2-cent variety.

The American stamps look very much like the British ones of the same value. Miss Edith Totitt, the librarian, referred the matter to Postmaster Wharton for possible explanation, just as a matter of amusement.
