

Nebraska KOHLE WOULD RUN FOR GOVERNOR

Wayne County Senator in Race if Morehead Does Not Enter It.

EXECUTIVE'S EYE ON SENATOR

(From a Staff Correspondent.)
LINCOLN, July 15.—(Special.)—Senator Phil Kohl of Wayne, president pro tem of the last senate, is in the city today conferring with democratic leaders regarding his candidacy for the democratic nomination for governor.
Should Governor Morehead make up his mind the demand is such that he should accept the nomination for a third term. Senator Kohl will not be a candidate. However, should the governor absolutely refuse to allow his name to be used in connection with a third term for governor, Senator Kohl will get in the race.
He said today he was receiving numerous letters urging him to come out, and so he came to Lincoln to see whether the governor would make the race or not. It is pretty well known that a third term does not appeal to the governor. He has his eye on the senatorship and it is not thought he will consider anything but that.

State and Neutrality.

Has the state of Nebraska through some of its institutions fractured the neutrality program of President Wilson is a question which should be looked into.

Yesterday two representatives of the French government came to Lincoln and bought about 100 head of horses to be used in the French army. They were purchased at a sale held at the state fair grounds. The company which rents the buildings at the fair grounds for sale purposes pays the fair association a rental for the use of the buildings and has done so for several years. It was of this company that the French officers purchased the horses. Therefore as the State Fair association profits by the rental of the buildings to a company which sells horses to the allies, is not the state of Nebraska breaking the neutrality laws of the administration?
This may not bring on war between Germany and Nebraska, but it is liable to make trouble for the peace plans of William Jennings Bryan.

Contract for New Building.

The State Board of Control has let the contract for the erection of a new building for the Home for Dependent Children, which will be erected in Lincoln near the Orthopedic hospital. Gooden & Ostrand, a Lincoln firm, secured the contract for the building, which when completed will cost about \$32,700, including plumbing and heating arrangements.

New Buildings for Buffalo.

Superintendent Nichols of Buffalo county was calling on the state superintendent this morning. Buffalo county will have six new rural high schools this year, with four new buildings. There will be two consolidated districts formed, all of which makes the superintendent feel that Buffalo county is up among the top ones in school development.

Accused of Using Dynamite.

Fred Vaughn and Sol Harris were up before the county court of Lancaster county yesterday on a charge of using dynamite in the Salt river for the purpose of capturing fish. Vaughn was fined \$100 and Harris was bound over to the district court under a \$500 bond, which he was unable to furnish. He was then paroled to State Game Warden Rutenback and will be required to report to the game warden once a week until his trial comes up.

Buying School Bonds.

The state board of public funds met in the office of the governor this morning and invested in \$1,000 school bonds of the Anselmo district in Custer county. They also invested in \$12,500 water extension bonds of the town of Sidney.

Patterning After Nebraska.

The legislative bureau of Maryland has applied to the attorney general's office for full information relative to the personnel of the attorney general's office, salaries, system of operation here. Maryland is seeking information for the purpose of revising its system and instead of each board, commission or department having its special counsel, as at present, a plan is being formulated giving the attorney general of the state as many deputies as necessary, with full power to assign them to the various boards, commissions and departments as required. The new plan will save the state of Maryland thousands of dollars and the state law department will be similar to that of Nebraska.

DIME NOVEL READER STEALS HORSE AND BUGGY

NORTH PLATTE, Neb., July 15.—(Special.)—Raymond Ogden, who makes his home in Pennsylvania, read a "yellow-back" novel and came west. He is now in jail here awaiting trial on a horse stealing charge.

At his preliminary hearing Ogden confessed to stealing the horse, which he found hitched to a buggy on a street of North Platte. He was bound over to the district court for sentence.

Ogden is only 22 and seems hardly to be a criminal type. He admitted having read in novels of life in the west, where one took what he wanted without asking questions. The county court recommends leniency in his case. He was arrested this week at Big Springs, Neb., where he had sold the horse and buggy.

JORDAN IS HELD WITHOUT BAIL FOR LAYTON MURDER

GERING, Neb., July 15.—(Special.)—Daniel Jordan, accused of the murder of Joseph Layton a few weeks ago, when a shot was fired through the window which killed Layton, was given a preliminary hearing yesterday and held to district court without bail. It is understood that a special term of district court will be called by Judge Hobart to dispose of the case, rather than to let it go until the regular jury term in November.

Mrs. Layton and Jordan's wife, although not yet formally charged with a part in the conspiracy, are held in custody and seclusion.

Several Men in Collision.

AUSTIN, Neb., July 15.—(Special.)—An automobile collision occurred seven miles north of here between the car of George W. Cummings of Howe and the car of Harry Traver of Auburn. All the occupants were thrown out and badly bruised.

Nebraska NOTES FROM BEATRICE AND GAGE COUNTY

BEATRICE, Neb., July 15.—(Special.)—At an adjourned meeting of the city commissioners Wednesday the annual expense budget of \$100,830 was adopted. This amount is divided into eleven funds, the interest on bonds, which is \$15,800, being the largest item. The salaries of the city employees amounts to \$10,800. The commissioners decided to purchase a fire motor truck, which will cost \$5,000.

Jacob Wunnenburg of De Witt, whose stock of "temperance drinker" was destroyed Monday by Deputy State Pure Food Inspector Kemble and Sheriff Grear of Wilber, may bring suit for damages against the St. Paul firm which sold him the goods. His loss amounts to about \$1,200, and he does not feel that he should foot the bill.

During the thunderstorm here Wednesday morning the barn of Samuel K. Beam in West Beatrice was struck by lightning and set on fire. The building was partially destroyed and a small amount of hay consumed. The loss is covered by insurance.

The Board of Supervisors held a meeting Wednesday and ordered four county bridges which had been damaged by the floods repaired. A large number of claims were allowed and the board adjourned to July 27.

NORTH PLATTE MAY GET PARK AND CITY HALL

NORTH PLATTE, Neb., July 15.—(Special.)—Paving for principal streets, a street lighting system, a new city hall and an amusement park for North Platte are being urged by the local Chamber of Commerce. The four questions probably will be submitted soon at a special election.

The council has agreed to submit the question of issuing \$10,000 paving bonds. An ordinance to this effect was read the second time last night by the council, but delayed on the third reading by request of the Chamber of Commerce, which wishes to submit the other proposition at the same time.

The park proposition would provide for the purchase of the ninety-three-acre Dillon tract at the northern limits of the city near the North Platte river. The price is \$12,000.

The Chamber of Commerce is urging the purchase of a lot at Fourth and Locust streets for the site of a city hall.

CENTRAL CITY BOOSTERS IN THE HIGHWAY FILMS

CENTRAL CITY, Neb., July 15.—(Special.)—This has been movie day in Central City, H. C. Osterman, national consul of the Lincoln Highway association, the official moving picture photographer, and party of good roads boosters were guests.

The big feature of the day was an automobile parade, more than 100 cars, all decorated, participating.

In addition to the parade views were secured of industrial and historical scenes. Although preparations were made on short notice a large crowd was in attendance and many participated as subjects for the big film.

MORE CATTLE SLAIN BY THIEVES NEAR BRADY

NORTH PLATTE, Neb., July 15.—(Special.)—Thirty-eight cattle carcasses have been found with throats cut and brands cut out near Brady. As a result stockmen of that vicinity are becoming aroused over the situation. Warren Souls and William Beatty are being held on cattle stealing charges.

Four more carcasses were found near Brady Tuesday by County Attorney G. N. Gibbs, Senator W. V. Hoagland and Sheriff A. J. Salisbury, who were collecting evidence there.

Cattle thefts have been reported for months near Brady.

NORTH PLATTE CATCHER KILLED IN AUTO UPSET

NORTH PLATTE, Neb., July 15.—(Special.)—James Danze, catcher of the North Platte baseball team, died in a local hospital from the effects of an automobile accident two days ago. A car in which he was riding with Charles Durbin skidded while making a sharp corner and turned completely over. Danze was caught under the steering gear and injured internally. He was picked up unconscious and taken to the hospital. Durbin, who was driving, was not injured.

SCOTT'S BLUFF COUNTY WILL EXHIBIT AT FAIR

GERING, Neb., July 15.—(Special.)—The commissioners of Scott's Bluff county today appropriated \$50 to the Scott's Bluff County Exhibit association, an organization of business men who have for several years been doing much work in the line of publicity for the North Platte valley territory. The association for several years has made exhibits at the state fair, and the appropriation today insures an even better showing this year than last, when the highest award was made to this county.

Notes from Edgar.

EDGAR, Neb., July 15.—(Special.)—Earl Wheeland has bought out his partner's interest in the Richards & Wheeland restaurant. Mr. and Mrs. Richards will go south to Kentucky to visit her people and may locate there.

The Home Telephone company has purchased the Van Brunt building, just north of Thompson's garage and will move the central office there as soon as the necessary changes can be made.

The wheat both west and north of Edgar which was badly knocked down by the hail will nearly all be cut without a great loss. The farmers have discovered that by putting "Y" shaped irons over their stacks up so the blades can cut them, very little will be left on the field.

LANSING WILL CONFER WITH VON BERNSTORFF

WASHINGTON, July 15.—Secretary Lansing today asked the German ambassador, Count Von Bernstorff, to confer with him tomorrow morning. It is assumed they will discuss the situation between Germany and the United States.

Try This for Neuralgia.

Neuralgia is a pain in the nerves. Sloan's Liniment penetrates and soothes the aching nerves. Get a bottle now. All Druggists.—Advertisement.

Nebraska INSURANCE AGENT MURDERED Charles Meyers Killed at Grand Island by Shot from Ed Kinney.

GRAND ISLAND, Neb., July 15.—(Special.)—Ed Kinney, about 40 years of age, today shot and instantly killed Charles Meyers, of about the same age, an insurance agent. The shot which killed Meyers was fired on one of the most crowded streets, Meyers falling in front of the State bank building and there expiring.

Kinney ran around the block and made for the Union Pacific depot, where Chief of Police Snodgrass, accompanied by Deputy Sheriff Corns, arrested him, getting the lead on the man and compelling him to put up his hands.

The indications were as the officers approached him, he was putting the left hand in the pocket in which he had the revolver.

At the county jail, Kinney told County Attorney Cunningham that he had met Meyers and several companions some days ago, and that they had declared he had given away bottles of beer to boys and had called him unprintable names. He told his friends that no one could call him that and get away with it.

He came to this city from Doniphan on a noon train and upon his first call at the Sorenson saloon, where the shooting began, he appeared nervous and said he was sick. He was given a small bottle of beer. This afternoon he bought a revolver and asked repeatedly for instructions how to use it.

He went to the Sorenson saloon in which Meyers was standing and talking to Martin Erickson. Without word other than an oath, according to Erickson and others in the saloon at the time, he drew the revolver and shot in the direction of the men.

The first shot in the saloon went into the wall, but could not have missed Erickson far. A second shot was fired as the men were emerging. The third shot fired, while Kinney was on the walk, lodged in the back, entering the right shoulder. Meyers ran a few steps farther, fell to the walk and expired.

Meyers has a wife, but no children. Meyers was at the present engaged as an insurance solicitor for the new company, headed by S. R. Barton.

Kinney is a carpenter, who came to Doniphan from Iowa, a few years ago and says he has never been married.

Coroner Geddes has charge of the body and will hold an inquest late tonight or tomorrow morning.

Chicago Street Car Men Get More Pay; Two-Year Contract

CHICAGO, July 15.—The 14,000 employees of Chicago's street car system, who recently tied up the city's transportation facilities with a two-day strike, will be granted a wage increase and a two-year contract instead of three, according to a story published in the Chicago Tribune today.

The award of the board of arbitration, which for three weeks heard testimony from company officials and the employees on the same issue, will be made public tomorrow, the paper says.

All classes of men in the services of the companies will be granted a horizontal raise in wages from the start. The maximum wage will be not less than 25 cents an hour, and probably 26 cents, the Tribune says. The term of the graded scale has been shortened, but its length has not been fully decided, it was said.

The award will establish in Chicago the highest wages for street car men in the country.

Tens of Thousands Drowned in China

HONG KONG, July 15.—Tens of thousands of natives estimated to have been drowned by the floods in the provinces of Kwantung, Kwangsi and Kiangsi, and the desolation in the devastated districts is terrible, according to recent reports received here.

WASHINGTON, July 15.—Consul General Anderson, at Hong Kong, reported today that Canton was isolated because of powerful steamers, thousands have been drowned and tens of thousands are taking refuge on high places. Thousands of houses have been burned, American mission property has either been damaged or destroyed and foreigners are taking refuge at the British consulate at Fu Chow. No Americans have been lost so far as is known.

Milk is Favorite Drink of New York

NEW YORK, July 15.—Milk is becoming the favorite drink of residents of New York and the number of licensed saloons here is decreasing, according to the statisticians of the health department. They announced today that the consumption of milk in this city had increased 50 per cent in ten years and that the daily average per capita in the borough of Manhattan is 2.6 gills.

Norwegian Ship Sunk by Torpedo

LONDON, July 15.—The Norwegian steamer Rym has been torpedoed and sunk. The second engineer was killed, but the rest of the crew has landed at Great Yarmouth.

The Rym was a vessel of 1,075 tons gross, built in 1904. It was owned by J. Lund & Co. of Bergen.

HALF-MILLION-DOLLAR FIRE AT VALDEZ, ALASKA

VALDEZ, Alaska, July 15.—Fire today destroyed the business section of Valdez. The loss was \$500,000. United States troops from Fort Lascum aided in fighting the flames. Dynamite was used to check the fire. No rain had fallen for weeks and the wood was as dry as tinder.

Negro Killed by Brick Blow Accused Slayer

"Speedy" Williams, alias "Speedy" Thompson, alias Harry Thompson, who was killed here two weeks ago, is said to have shot and killed Sidney Johnson, a negro, in St. Louis City, October 13, 1914, police learned yesterday. Small boys, shelling a crowd of negroes with bricks, are said to have killed Williams. He was struck on the head with a brick, from the effects of which he died the next day.

A negro acquaintance of Williams told the police officers that he was the slayer of Sidney Johnson, for whom the St. Louis City police have been searching.

Nebraska TAX COMMISSION RECOGNIZED Requests for Copies of Its Report Far Exceed Number that Have Been Printed.

(From a Staff Correspondent.)
LINCOLN, July 15.—(Special.)—Notwithstanding the fact that the work of the State Tax commission a farce and the Legislature refused to adopt anything in recognition of the work of the commission, Secretary Earl B. Gaddis of the commission is receiving evidences occasionally that the work of the commission is recognized abroad.

Requests continue to come in for copies of the report of the commission and though 1,000 copies were printed the demand is more than the commission can supply. Members of the commission were J. H. Grovener, president, Aurora; Earl B. Gaddis, secretary, Lincoln; C. W. Sears, Omaha; C. A. Schappel, Pawnee City, and Prof. George Virtue of the University of Nebraska. Following are some of the comments received:

A. E. Holcomb, secretary of the National Tax Association—"The work is one of the documents of the period and should be perused by every student of the history of the United States. It is enough to send one to each member of our organization."

F. C. Grant, Tax Commissioner Chicago and Northwestern Railroad—"An exceedingly good read to receive this document. I congratulate the Nebraska commission on the production of so admirable a report."

Marion Saxe, President New York Tax Commission—"I want to congratulate you heartily on the splendid performance of your duties as reported in this report. The taxation committee of the new assembled constitutional convention would like to have twenty copies for their use."

F. E. Maguire, New Jersey State Tax Commissioner—"I am completely and interestingly report and we congratulate the Nebraska commission on its work in preparing it."

Doolittle, American Electric Railway Association, New York City—"The report is full, good and I am sure a valuable aid to the people of Nebraska in solving their tax problems."

Speaker Clark Says Era of Prosperity is Dawning for America

SAN FRANCISCO, July 15.—Immediate and country-wide prosperity was proclaimed here today by Champ Clark, speaker of the house of representatives, in an address before the Commercial club of San Francisco.

"I predict that within sixty days every person in America, desiring to work will find employment at a fair wage—a great desideratum," he said.

"Nobody will ever be able to estimate the damage done to American business by the European-Asiatic-African war," he said, "but business is rapidly righting itself and we are on the verge of a long era of prosperity."

"We are beginning to harvest the biggest all around crop that ever grew out of the ground, and after all agriculture is the root of all prosperity."

A merchant marine and rural credit, Mr. Clark said, were the most important questions for the next session of congress.

British Admiralty Takes Over Reserve Supplies of Coal

CARLISLE, July 15.—The British admiralty has taken over all the reserve supplies of coal.

Anniversary of Fall Of Bastille Observed

PARIS, July 15.—France today celebrated the national holiday, the anniversary of the fall of the Bastille, quietly but impressively. There was less of a parade and less frolic than usual, the origin of the third republic. There was no open air dancing, no fireworks and no rejoicing of any kind.

It was a poor day for the wine shops, but a great day for patriots. The faded tricolor flags that had been flying since the outbreak of the war were replaced by fresh banners. Everywhere it was distinctly a day of the national battle hymn, the "Marseillaise," and a day in Paris for thousands of patriots who honored Captain Claude Joseph Rouget De Lisle, composer of the hymn, whose body was brought from Chatelet-Le-Roi and placed in the hotel Des Invalides, or decorated the monuments in the Place de la Concorde. All the patriots wore medallions with the bust of De Lisle and arms of the city of Paris on them. These medals were sold for the benefit of the Paris fund for the relief of soldiers.

Shriners Establish Four New Temples

SEATTLE, Wash., July 15.—The Imperial council of the Ancient Arabic Order, Nobles of the Mystic Shrine, in secret session here today, established temples in four new cities and granted a dispensation, not immediately effective, in a fifth.

Dispensations granted last year for Moshah temple, Fort Worth, Tex., and Anzar temple, Springfield, Ill., were made effective, and Arabia temple, Houston, Tex., and Kerebela temple, Knoxville, Tenn., came into existence without the usual year delay. Roanoke, Va., will be required to wait a year.

AUSTRIA PROTESTS SHIPMENT OF ARMS Dual Monarchy Feels United States Is Not Maintaining Attitude of Strict Neutrality.

LONDON, July 15.—According to Amsterdam dispatches to Reuter's Telegram company, it is stated from Vienna that the Austro-Hungarian minister of foreign affairs sent a note to the American ambassador at Vienna on June 29, drawing attention to the fact that commercial business in war material on a great scale is proceeding between the United States and Great Britain and its allies, while Austro-Hungary and Germany are completely cut off from the American market.

It is set forth in the note that this subject has occupied the government of the dual monarchy from the very beginning and although the government is convinced that the American attitude arises from no other intention than to observe the strictest neutrality and international agreements, yet "the question arises whether conditions as they have developed during the course of the war, certainly independently of the wish of the American government, are not of such a kind in their effect to turn the intentions of the Washington government."

What Logically Follows.
"If this question is answered in the affirmative and its affirmation cannot be doubted," according to the opinion of the Austro-Hungarian government, "then the question follows whether it does not seem possible, or even necessary that appropriate measures should be taken to make fully respected the wish of the American government to remain a strictly impartial vis-a-vis of both belligerent parties."

The note continues:
"A neutral government cannot be allowed to trade in contraband unindifferent if it takes the form or dimensions whereby the neutrality of the country will be endangered. The export of war material from the United States as a proceeding of the present war is not in consonance with the definition of neutrality. The American government, therefore, is undoubtedly entitled to prohibit the export of war material."

Course Open to U. S.
"Regarding the possible objections that American industry is willing to supply Austria-Hungary and Germany, which, however, is impossible, owing to the war situation, it may be pointed out that the American government is in a position to redress this state of things. It would be quite sufficient to advise the cabinet of Austria-Hungary and Germany that the supply of foodstuffs and war material would be suspended if legitimate trade in these articles between Americans and neutral countries was not permitted."

In conclusion the Austro-Hungarian government appeals to the United States, calling attention to the unimpaired good relations and friendship between that country and the dual monarchy, to take the present note under careful consideration.

Villa Foroes Take Offensive in West

GUAYMAS, Sonora, July 15.—Villa forces are reported to have taken the offensive in the western states, capturing the city of Tepic and Santiago in the state of Tepic. They are now advancing on San Blas, principal port of Tepic.

Carranza troops under General Diegues, commanding the state of Jalisco, are reported to have withdrawn from Guadalupe. A report from Manzanillo, Colima, said all troops and eleven pieces of artillery had been sent to reinforce General Diegues. Only thirty soldiers were left in the garrison at Manzanillo.

Both Villa and Carranza factions are attempting, it is said, to control the crop of garbanos (beans), upon which a duty of \$5 in gold a sack has been levied. Conditions are reported to be quiet in the Yaqui and Mayo Indian countries.

Uniform Stock Shipping Laws Now Proposed

Live stock men from Kansas, Nebraska, Missouri and Iowa and live stock sanitary officers from those states are to hold a joint conference in Omaha August 2 to try to formulate proposed uniform shipping and inspection laws for the interstate shipment of live stock. This was decided upon at a meeting of the live stock sanitary officers of Missouri, Iowa, Kansas, Nebraska and Illinois at Hotel Rome Tuesday. Dr. J. S. Anderson presented a paper on uniform shipping and inspection laws, and the subject was thoroughly threshed out.

Under present conditions each state has its own law, stipulating the inspection required before live stock may enter its borders. These rules, it is asserted, in the various states are grossly at variance. The result is that the shipper of live stock must constantly study the laws to see just what technically he must conform to to get stock to a certain state.

Directors of the Omaha Auto club held a meeting yesterday and discussed the advantages of the near side stop for street cars. The club is in favor of the change, and an effort is to be made to have an ordinance passed compelling it.

Figures have been secured which show that accidents are more easily prevented where the near side stop is in effect, and club members are of the opinion that tourists, especially from the east, where the near side stop is almost universal, will have less difficulty in observing Omaha traffic regulations.
