NEW YORK STOCK MARKET

More Manipulation of War Shares, with Further Heaviness in Rail Shares.

NEW YORK July 16—More obvious manipulation of the war shares and kindred specialties, with further heaviness in some of the railways resently favored by discriminating investors, were the completuous features of today's irregular market. Trading in munitions shares was again out of all proportion to the number of the day's operations, half a dozen of these stocks, together with United States Steel contributing over 65 per cent of the turnover.

In the diversion which accompanied the further rise of this group new high prices were made by Bethlehem Steel at 1875, Cruecible Steel common and preferred at 44% and 19, respectively; Baldwin Locomotive, 99%; General Motors, 1834, Willys-Overland, 1894, and American Can common and preferred, 52% and 166, respectively.

All these shares were at their best in the final hour, when fresh buying was resumed on an increasing scale of activity. Bethlehem Steel made a net gain of 7%, Cricible Steel com 5%, the preferred and Weatinghouse were among the "wai contract" issues to figure importantly in the movement.

contract issues to figure importantly in the movement.

Bouthern Pacific was not only the most active railway stock, but also the weakest, losing To points during the midsession on a recurrence of the recent liquidation. Union Pacific, Canadian Pacific, Residing and some other divident issues reflected the pressure against Southern Pacific, New low records were made by Rock Island at 11% and Missouri, Ransas & Texas common and preferred at 5 and 15, respectively. Total sales of stocks amounted to 682,000 shares.

sales of stocks amounted to 682,000 shares.

In the broader field of finance some attention was paid to the more cheerful sentiment growing out of the international effunction and the course of foreign exchange in which remittances to Paris were notable for their firmness. The proposed French credit was still in process of negotiation and rumors of a new British undertaking by our bankers were revived.

Steady but reduced selling of bonds for foreign account was again a feature United States Steel Is being most freely offered. Total sales, par value, aggregated \$2,310,000.

United States bonds were unchanged on call.

England May Send Wool to America to Have It Combed

LONDON, July 1.-The wool situation at Bradford is an interesting one from American standpoint. Labor for combing wool there has been depleted to such note its willingness to work "hand-inan extent that the wool men have not hand" with the American government for only raised the question of the desirabil- the establishment of the freedom-of-theity of importing tops from America, but seas principle with the express purpose also the idea of shipping wool to Amerton to be combed there and sent back The suggestion is also made that the difficulties might be met by bringing men back from the front to work the combing machines.

All the tops required by the English trade could be brought from Australia. but the latter supply seems to be going to Japan and as the difference in time of transit is so great, the desirability of reating with America is apparent. Heaps of wool are available, but few

combs to work it with, leaves the price at a very high level. Bradford paper reports that the

Board of Trade has signified its intention of allowing 11,000,000 pounds of Scotch blackfaced out of the new clip to be exported to the United States, but no confirmation could be obtained from the Board of Trade or the war office on the applicat

The fifth series of colonial wool sales commencing June 29, with 200,000 bales available representing a value of about 14,500,000 sterling, will probably be prolonged until July 31. Owing to the chaotic conditions at the warehouses and on the railways, selling brokers have agreed to restrict daily offerings to 5,000 bales, that being the quantity which can be conveniently handled.

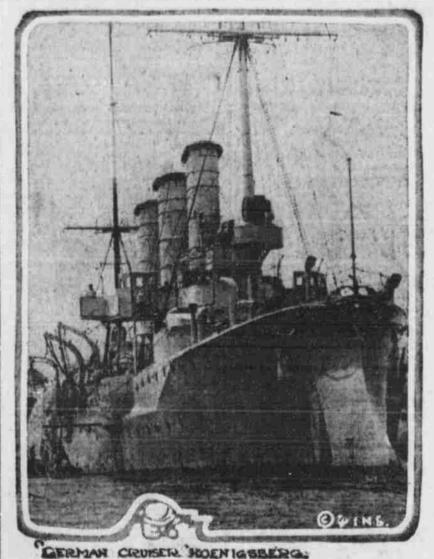

Very little wool has changed hands since the last auction, but the market expects a small advance in the price of merino wool of good combing quality, and about unchanged rates for crossbreds as the government is not giving out further orders for khald at present.

Ask Badges Be Given Returning Soldiers

BULLETIN.

LONDON, July 16 .- The Financial News today displays with great prominence reports "from quarters in close touch with German sources of information," that Germany is making "tentative peace proposals" through the United States.

von Bernstorff, German ambassador, sion was gained that he had been inwill present to Secretary Lansing to- formed of the note. morrow the view that Germany's situation and other official business for reply to the American note on subthe way for negotiations on the part riding. of the United States with Great Britain as well as Germany to adjust English Girls in questions that have arisen over contraband and submarines as affecting the rights of neutrals.

The German ambassador for several days has been anxious to see Secretary Lansing, but the latter expressed a preference not to discuss the German reply until he had examined it carefully. Today Mr. Lansing met the ambassador at a club and set tomorrow as the date for the conference

Sure Germany Will Accept. Count von Bernstorff is confident that his government emphasized in the last of entering into negotiations now on the entire question of maritime warfare. He sent the suggestion through Dr. Anton Myer-Gerhard that the note should contain such an intimation. Having followed his suggestion the ambassador is sure his government will accept a tender of good offices for the mediation of the dispute. This would involve an acceptance by Great Britain of the service of the United States as mediator to bring about the termination of the British order-in-coun-

tacks upon merchantmen. Officials of the American governmen in the last few days have heard the reports concerning possible mediation of the negotiations along such lines could be begun only if there were assurances that in the meantime German submarine commanders would be guided by the principles for which the United States is con tending-that Americans on belligerent ships which are unarmed and do not reficial German quarters here, however, emphasia is placed on the fact that Germany in the last month has not torpedoed even enemy ships without warning and

cil, as well as Germany's submarine at-

that this practice very probably will be continued. In support of this confidence, German officials drew attention today to a statement given out by the Overseas News agency, an official agency, in Berlin yesterday. They declared that the statement must have had the sanction of the German government. It recited the number of British Russian, French and Bel-

Culls from the Wire

A new grand lodge ritual, which has just been adopted, was used in closing the season of the grand lodge of the Elks at Los Angeles. Heretofore it had been the custom to end the grand lodge meetings on a motion to adjourn, but henceforth the new ritual will be used in opening and closing the annual sermions.

Mr. and Mrs. Ed Lewis and Eltel ingram motored to Fremont Tuesday. Although the sun shone throughout northwest Missouri and eastern Kansas for virtually the first time in a week, overflowing streams which have been menacing lives and causing great property & nage, continued their devastation. All the inhabitants of Rosendale, Mo., were taken to safety in the beats of rescuers. A number of other towns reported distress from flood conditions. Ingram motored to Fremont Tuesday.

Mrs. Lamm and baby of Wymore are visiting Mrs. C. E. Byars and other relatives this week.

Mrs. G. Dougias of Kansas City was the guest of Mr. and Mrs. C. B. Nichols, the first of the week.

Miss. Lillian Morrow entertained her sixter, Hazel, and a friend from Tekamah for the week end. An explosion wrecked a big steel and concrete grain elevator in Weehawken across the Hudson river, from New York, and severely injured a half dozen workers. The West Shore Railroad company owns the structure. The whole upper part of the elevator was torn away. The police are seeking to determine whether an explosion of grain dust or a bomb caused the damage. The elevator has been handling much grain for export to Europe since the war began.

Movements of Ocean Steamers.

Ratified by Swiss

(Correspondence of the Associated Press) BERNE, Switzerland, July 1.—An amendment to the Swiss federal constitution, providing for the levying of a special war tax to meet the expense indicent to mobilization of the army for the maintenance of Swiss neutrality, which was submitted to a referendum vote of the entire people, has been accepted by an overwhelming majority, the vote being 435,500 to 26,800.

The new taxes are both on property and income. Persons possessing less than \$2,000 worth of property or earning less than \$500 a year are exempt. The rate of tax is progressive, ranging from \$1 to \$10 per thousand on property and from \$5 to \$100 per thousand on income Stock companies will be taxed at

rate rising from \$2 to \$10 per thousand dollars of capital. The rate will vary according to the rate of dividend paid. The campaign on behalf of the war tax amendment to the constitution had the support of all the political parties. The tax is expected to yield about \$10,000,000. The remainder of the Swiss indebtedness on account of the war will have to be funded through the issue of bonds. The present cost of the war to Switzerland is estimated at nearly \$5,000,000 a month
