Health Commissioner Connell has re quested Assistant City Attorney TePoel to prepare an ordinance to require owners of all buildings where persons reside to provide adequate screening against files. The commissioner believes this is a just measure and can be enforced. Explaining his position, he said: "It is my intention to endeavor to require through this ordinance proper screening of all places of babitation, the particular thought being to protect tenants in small dwellings. Our experience has been that most of the poor screens are found in the more humble dwellings. The owners should provide acreens which will not admit flies. We are after the flies."
