

AND HOW TO ENJOY THEM

sitates a lot of effort—ordinarily. Many things must be considered: Theatres, parks, beaches and other pleasure resorts with their many and varied diversions, attractions, or entertainments; racing, boating, bathing and what not! And the means of transportation—street or steam cars, by motorcycle or automobile? Vastly important, too, are the things you take along, the equipment and the clothing, all designed

to give comfort to the outer or inner being.

We have, therefore, assembled here for your convenience and assistance many announcements in which you will find many suggestions which, if heeded, will save you much worry, trouble, and effort when making your pleasure plans.

Your August Pleasures
