Traveling Man's Experience.

"In the summer of 1889 I had a very severe attack of cholera morbus. Two physicians worked over me from 4 a. m. to 4 p. m. without giving me any relief and then told me they did not expect me to live; that I had best telegraph for my family. Instead of doing so, I gave the hotel porter 50 cents and told him to buy me a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, and take no substitute. I took a double dose according to the directions and went to sleep after the second dose. At 5 o'clock the next morning I was called by my order and took a train for my next stopping point, a well man, but feeling rather shaky from the severity of the attack." writes H. W. Ireland, Louisville, Ky. Obtainable everywhere.—Advertisement.
