The burglars gained entrance through a window in the rear, which they broke, and they ransacked the whole place. The value of the loot is about \$35.

Finds It Cold at the Lake—Ed P. Hennessy, commercial agent for the Rock Island, is back from his annual vacation, spent at Leach Lake, Minn. URGE USE OF GOODS MADE IN NEBRASKA

Manufacturers' Association Investigates Reasons for Consumption of Eastern-Made Products.

WILL TRY TO FIND THE REMEDY

Some time after November 1, the Nebraska Manufacturers' association, through its commissioner, F. L. Ringer of Lincoln, will make a systematic study of the situation in Nebraska with regard to the consumption of Nebraska made goods. The association wants to know the point of view of the dealer and the point of view of the consumer, who does not use Nebraska made goods. This is to be the friendliest investigation in the world, according to Commissioner Ringer, who is in Omaha at this time.

"You can't go out with an elm club and beat a fellow's head off because he is not using goods manufactured in Nebraska," said Mr. Ringer. "It is a matter of education and habit. It is a slow process. The state is still new. It takes people some time to get adjusted, and make up their minds and become convinced that the things they have long bought from the east are really being manufactured just as good here in their own state or perhaps in the next yard."

"I shall go out and talk with dealers all over the state. I shall go out, not to argue with them, but to get their point of view. I want to make a general and yet complete survey of the situation in the state with regard to the use of Nebraska-made goods. If a man is not using Nebraska-made goods I want to have the friendliest talk in the world with him about it, just to get his point of view. Then when I have accumulated this information from all over the state I will go back to the office and tabulate it into tangible shape, so that I can gain some definite ideas from it. We can get some working ideas and some practical suggestions."

"If there is a good reason why some man does not use goods made in Nebraska, that reason should be known by the manufacturer of that goods, so that he can procure a better grade or something that will better fill the needs of the customer. If there is no good reason except the old habit of sending east for goods, that should be recorded, and a campaign of education inaugurated to overcome this condition."

The association has made some changes in its working plan. All dues are payable in November from now on. That will do away with the payment of dues at any and all times, and will get the secretary into shape to go out and do some field work.

Child Drowns in Water Tank.
AUBURN, Neb., Aug. 3.—(Special.)—The little five-year-old child of Henry Schlange, living five miles southwest of here, was drowned in a water tank Sunday. The men folks were in the harvest field and Mrs. Schlange took them lunch, and left the little tot at the house and when she returned it was dead. The water tank is not far from the house and there was a low bonch near by. The child evidently climbed onto this bench and toppled over into the tank.

REED TACKLES SEEPAGE PROBLEM IN SCOTT'S BLUFF

(From a Staff Correspondent.)
LINCOLN, Aug. 3.—(Special.)—Attorney General Reed has gone to Scott's Bluff county where he will seek to fix up the troubles between the farmers there over the seepage waters which this year have been more than ever damaging. The soil there is so porous that the water will not stay in its proper place and seeps through, keeping some portions of the land very wet. He will deliver an address at Broken Bow on his way there, the occasion being Old Settlers' picnic.

Crops in Northern Part of State Are in Excellent Condition

Through the territory in the eastern and northern portions of Nebraska, traversed by the Northwestern railroad, where there has been much less rain than in other sections, generally crops appear to be in the best of condition. This is indicated by the Northwestern's weekly crop report for last week, just out.

Corn is making fairly good progress, but everywhere is in need of hot and dry weather. Even with the rain and continued cold weather, it is at about the normal condition for early in August. In all sections, with the exception of small areas on extremely low land, indications point to a full crop with anything like a late fall.

Wheat, says the Northwestern report, is practically all out and the threshing is well under way. Wheat is turning out twenty to thirty bushels per acre, while oats are running from forty to as high as sixty bushels. The vegetable and sugar beet crop was never better in the history of the state.

WOMAN REFUSES OPERATION

Tells How She Was Saved by Taking Lydia E. Pinkham's Vegetable Compound.

Louisville, Ky.—"I think if more suffering women would take Lydia E. Pinkham's Vegetable Compound they would enjoy better health. I suffered from a female trouble, and the doctors decided I had a tumorous growth and would have to be operated upon, but I refused as I do not believe in operations. I had fainting spells, bloated, and could hardly stand the pain in my left side. My husband insisted that I try Lydia E. Pinkham's Vegetable Compound, and I am so thankful I did, for I am now a well woman. I sleep better, do all my housework and take long walks. I never fail to praise Lydia E. Pinkham's Vegetable Compound for my good health."—Mrs. J. M. Risscu, 1900 West Broadway, Louisville, Ky.

Since we guarantee that all testimonials which we publish are genuine, is it not fair to suppose that if Lydia E. Pinkham's Vegetable Compound has the virtue to help these women it will help any other woman who is suffering in a like manner?

If you are ill do not drag along until an operation is necessary, but at once take Lydia E. Pinkham's Vegetable Compound.

Write to Lydia E. Pinkham Medicine Co., (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.
