LINCOLN, Aug. 6 .- (Special.) - Action of the State Normal Board in having the rnerstone of the Peru Normal building inscribed with the names of officers of the board before these had been elected. in the different cities will signify the in conformity with the slate as arranged by the majority has made the board the butt of much jesting, especially when the machine jumped a cog and Dan Morris was elected president instead of the slate candidate President Viele. Then in order o make the record clear to a title on the cornerstone for Viele, the board allowed the latter to assume the chair and act as president at the meeting Monday. the president defuncto stating when he took the chair that Mr. Morris had not said whether he would accept the presidency or not. After Viele had called the meeting to order and one of the quartet had moved to make the election of Morris unanimous, then the latter was allowed to preside as the board president.

> Now comes a bunch of normal board ouchers to the office of the state auditor, two of them signed by Mr. Morris as president of the board, under date of June 23, several weeks before the late unanimous election

> The question naturally arises what kind of a stunt the board has been trying to pull off. Has it gone into vaudeville or is it trying to pull the wool over the eyes of the people. If the board considered that Morris was not president until last Monday, why is his name signed to vouchers under date of June 23? If he was president when he signed the vouchers on June 23 what right had Viele to preside at the meeting on August 27 Is the board attempting to ride two horses. each going in opposite directions, or what is it trying to do.

HERBERT C. PROBASCO DEAD WILL ACCEPT NEW WAREHOUSE LAW

State Commission Rejects Opinion by dent of Harvard township since 1873. She thousands of dollars. Attorney General Reed that Statute is Invalid.

COMPLICATIONS ARE PROBABLE

(From a Staff Correspondent.) LINCOLN, Aug. 5 .- (Special.)-According to an opinion rendered by Judge W. G. Hastings, dean of the State university law school, the pub-He warehouse law passed by the last legislature is valid and the State Railway commission, which refused to accept the opinion of Attorney General Reed that the law was no years age. From a small beginning the good and could not be enforced, have decided to accept the ruling of Dean probably 200 and under his direction Hastings and go on with the enforcement of the law as the legislathe chorus many times being called out ture so framed the bill.

In thus deciding to go it slone with out the ald and consent of any other state officere, the railway commission has taken a stand in no wise different than that taken by other state offi-cers who have refused to take the opinions of Mr. Reed as serious. Just what will come of the "go-lt-alone" progrom as inaugurated in the state house is a hard thing to determine.

There may be several complications arise from the action of the railway com mission. It will be remembered that a short time ago Attorney General Reed notified the commission that it had no authority to take other advice except that furnished by himself and that he proposed to give it whether they wanted it or not. However, the supreme court has hald as far back as the time when F. N. Prout was attorney general that in extraordinary cases a state officer is not required to accept the services of the state's attorney.
