Renson Garden Acres

NEW YORK, Aug. 3.—The demand for the popular specialities showed no signs of abutement today and there was another advance of good proportions. Public buying, which had given evidence of falling off, apparently was stimulated aner by yesterday's upture and a large amount of orders accumulated over night. Trading was brisk throughout and total sales were show abares.

The instability of the war stocks at their current high level was demonstrated again by occasional periods of reaction, but the general course was up-

You can have a garden.

Your own vegetables and fruit. You will have plenty of room to raise 500 to 1,000 chickens; sell eggs and chickens for the market.

You could have a cow and have plenty of milk and your

own fresh butter. You would certainly reduce the high cost of living. Don't put it off—make your start now, the way many others are doing. Call us by phone, or call at our office and we will take you out to see Benson Gardens any time.

ENTHUSIASTIC OVER CANNING Grading is Nearly

Boys and Girls Working Harder Since the Visit of Uncle Sam's Garden Expert.

MANY MAKING GOOD MONEY

The boys and girls entered in the garden clubs, are very enthusiastic now on the subject of canning their produce, since the government expert was here a little over a week ago, to give scientific lectures on canning. Katherine Kriss, aged 12 years, 500 South Twenty-third street, of the Vinton school, has already canned eleven quarts of beets and three quarts of beans. The harvesting of this amount from her garden has made scarcely no perceptable inroads on her crop, although she has a patch covering a space only ten by ten feet.

The amount of produce raised by the children on small patches is almost beyond belief. Russel Burton, aged 14, of the Central school, has a small garden at his home, 2024 Harney street. He has scarcely four square rods, or a patch as large as a good sized parlor. From this insignificant strip of ground he has sold thus far \$34 worth of produce. He has made it all on beans, beets and radishes, while he still has his other vegetables

Samples of especialy fine produce, raised by the girls and boys of the clubs, will be exhibited at the Young Men's Christian association rooms whenever sent in-Some persons have acquired the idea that the canning recipes left in Omaha by the government experts are for sale On the contrary, they are free to all who apply for them to E. E. Dale, at the Young Men's Christian association.

NEW YORK STOCK MARKET

Demand for Important Specialties Shows No Signs of Abatement During Day.

BUYING STIMULATED

their current high level was demonstrated again by occasional periods of reaction, but the general course was unward. After the first rush of buying was over the severest relapse came, cancelling most of the sariy rise, but in the afternoon this movement received fresh impetus. Weakness of a few specialities and railroad shares in the last hour prevented the market from making an even display of strength at the close, but the late relapse was not excensive emough to cut deeply into the gains of most stocks. Bethlehem Steel maintained its reputation as the most speciacular of the warshares. It passed the 300 mark early in the day and reached 307 an advance of 17 points. Later it relapsed to 30.

The urgent demand for United States Steel confinued and the action of this stock gave tone to the whole market. Railroad stocks played little part in the forenoon rise, but on the recovery which followed the early relapse they were bought heavily at advancing prices. The late seiling was directed largely at
