## IOWA BANK TELLER IS ARRESTED AFTER 'CONFESSING' AGAIN

Leo Perrin, Deposed Employee of Cedar Rapids Institution, Said to Have Made New Admission of Guilt.

### ACCUSED OF EMBEZZLEMENT

Money Spent, According to Alleged Statement, in Paying Indebtedness.

### BAIL FIXED AT FIVE THOUSAND

CEDAR RAPIDS, Ia., Aug. 12.—Leo Perrin, deposed paying teller of the Cedar Rapids National bank, was under arrest tonight charged with embezzlement of \$20,070 from the institution.

He was taken into custody this afternoon after he had made an alleged confession that the money lost by the bank August 4, supposedly in a holdup, really was taken by him.

According to bank officials, he explained, however, that the money was not obtained on August 4. Half of it, they say, was taken a year ago, and the remainder August 3. The bogus holdup, Perrin is quoted as saying, was staged the day following the second theft, as he feared discovery. The alleged second confession was made in the directors' room of the bank to Cashier Kent C. Fernan, Vice President Glenn M. Averill and Detective Michael McGuire. All day, it was said, Perrin has stuck to the repudiation he made last night of his first confession. He insisted, it was said, that \$10,000 which the police had recovered had been loaned to him by James E. Caney of Chicago. Confronted with a statement from Caney denying any such loan, he finally gave in, it is said.

He was arraigned before Justice of the Peace F. A. Nugents and formally pleaded not guilty. Bail was set at \$5,000 and the prisoner, in custody of Detective McGuire, was allowed to hunt the city for a bondsman.

Perrin accounted for an additional \$3,000 of the money in his confession, bank officials say. He spent it, they say, to pay a mortgage, promissory notes, installments due on land in Minnesota, Oregon, Idaho and New Mexico, and indebtedness on gold mining stock.

### CAGNEY DENIES MAKING LOAN

CHICAGO, Aug. 12.—James E. Cagney of the Peerless V. Bell company, talking to detectives and newspaper reporters today, denied that he ever loaned \$10,000 or any other sum to Leo Perrin of Cedar Rapids, Ia.

"I lived in Cedar Rapids for a time and we did our banking with Perrin at the Cedar Rapids National," said Mr. Cagney. "That's all I know about it."

## Court Refuses to Quash Indictments Against T. Taggart

INDIANAPOLIS, Ind., Aug. 12.—Judge W. H. Eichenor, in criminal court today, overruled the motion to quash the indictment against T. Taggart, democratic national committeeman from Indiana; Mayor Joseph E. Bell, Chief of Police Samuel V. Perrott and 123 others, charged with election irregularities. The court held that forty-three of the forty-eight counts in the indictment were valid. The state elected to place Mayor Bell on trial first, although the defense asked to go to trial with Mr. Taggart. Mayor Bell's case was set to begin September 1.

## Denver Woodmen Win First Prize

SAN FRANCISCO, Cal., Aug. 12.—Prize awards in the drill team competition at the twenty-fifth anniversary of the Woodmen of the World at the Panama-Pacific exposition were announced today. Denver camp No. 1 was awarded first prize of \$100; Portland (Ore.) camp No. 307 was given second prize of \$50; and Multnomah camp No. 77 of Portland, Ore., was awarded third prize of \$25.

Forecast till 7 p. m. Friday: For Omaha, Council Bluffs and Vicinity: Showers; not much change in temperature.

## THAT DRIVE ON WARSAW—One of our troop trains, with the left-overs riding on the roof, after the coaches had all been filled, cheering the advance into the enemy's territory.

## MUNGER FUNERAL TO BE SATURDAY

Short Services at Residence Here, After Which Body Goes to Fremont for Interment.

## MASONIC FUNERAL AT GRAVE

Funeral services for Judge William Henry Munger, who died Wednesday night at his residence, will be held in Omaha Saturday morning at 10 o'clock at the family residence, 1624 South Thirty-second avenue, with Rev. Mr. Bus of the Congregational church of Fremont officiating.

The body will then be taken to Fremont and escorted from the train to the residence of his brother-in-law, Frank Fowler, where, at 2:30, after a few words and prayer by Rev. Mr. Bus, Fremont lodge No. 15 of the Masons, of which Judge Munger was a charter member, will take charge from the house to Ridge cemetery, where interment will be in the family lot with Masonic services.

The pallbearers for the Omaha services will be all officials of the federal court, as follows: T. C. Munger, John Nicholson, S. R. Rush, F. S. Howell, W. F. Warner, H. Hoyt.

Arrangements have been made with the Union Pacific for its 11:35 train Saturday noon, Omaha to Fremont, to accommodate the funeral party and friends desiring to attend the services and interment at Fremont.

Judge Munger was born in Bergen, Genesee county, New York, October 19, 1845. At the age of 29 years he went to Cleveland, O. where he entered a dry goods store kept by an uncle. While thus employed he read law during his spare time, and after about a year entered the law office of a local firm as a clerk. He found time to read law, and at the end of two years made a flying trip to Elyria, where he was admitted to the bar in September, 1868. He announced his intention of going west and of establishing himself in one of the thriving towns along the line of the great continental railroads then being constructed, and of which he had heard so much discussion.

Came to Fremont as his destination. He reached that town on his twenty-third birthday in October, 1869, his earthly possessions at arrival consisting of exactly \$2.50. The day after his arrival he secured work in a lumber yard, and during the ensuing winter picked up a few now and then by trying a small lawsuit. In the spring of 1869 he formed a partnership with E. Ghed, a local lawyer with a good practice, which continued about two years, after which he formed a partnership with W. C. Ghent, this being dissolved in 1874. In 1875 Judge Munger was a member of the constitutional convention, and in 1878 entered into a partnership with J. M. Woolworth of this city, which continued for one year. During the score of years following this period Mr. Munger devoted himself assiduously to the practice of his profession, yielding (Continued on Page Two, Column One)

## General Dodge to Consult Specialists

General G. M. Dodge of Council Bluffs, who built the Union Pacific railroad, will leave for New York Monday, where a consultation of specialists will be held in an attempt to cure him of an illness of long standing.

General Dodge has been in or near Omaha most of the time since the first fall of the Union Pacific was laid. He served in the civil war with the union army and was a brigadier general, being an intimate friend of Abraham Lincoln, of Grant and of Sherman. He is 84 years old and is still remarkably active in spite of his age and his long continued illness. The general will return to Council Bluffs after the consultation.

## WORD GOES OUT TO FLANDERS OF WESTERN SWEEP

German Forces in West Told Work in East Is Done and Advance Soon to Begin on Other Front.

## PEACE CERTAIN IN OCTOBER

Teuton Forces Are Reported by Berlin to Have Occupied Zabrow and Lukow.

## BAVARIANS CONTINUE CHASE

LONDON, Aug. 12.—A significant order of the day predicting a resumption by the Germans of a vigorous offensive in the west has been issued to the Teutonic armies in Flanders, according to the Amsterdam Telegraph. An extract from this order, telegraphed by the Amsterdam correspondent of the Exchange Telegraph, follows:

"Our work is now practically finished in the east and we are about to begin in the west. Peace is certain in October."

## Russians Begin Offensive.

GENEVA, Aug. 12.—(Via Paris.)—A dispatch to the Geneva Tribune from Innsbruck, capital of the Austrian Tyrol, says:

"German operations have been suspended on the Kovno-Suwalki-Grodno front because of a lack of reinforcements, no new troops having arrived since August 4.

"The Russian offensive at Kovno is of the greatest importance, as the German first line troops, chiefly Prussian landwehr, suffered terrible losses August 4 and 5. In this section, as well as in the region between Lomza and the Bug, it is remarked that many regiments are much below the average in strength.

## Lukow Taken.

BERLIN, Aug. 12.—(Via London, 4:30 p. m.)—Austria-German forces pursuing the Russians, who are retreating from the Warsaw salient, have occupied Lukow, according to an official announcement by the German army headquarters staff today. Zabrow also has been captured, the statement adds.

The text of the statement follows: "Western troops in our hands, east of Vienna-Le-Chatcau, are capturing a French group of fortified positions and took seventy-four unwounded prisoners, including two officers, and captured two machine guns and seven mine throwers. The enemy suffered heavy losses.

"During an engagement which led to the capture of an enemy trench, north-east of Le Hainaut, a few prisoners fell into our hands. The remainder of the occupants fled, leaving behind forty killed.

"Eastern theater: South of Nienmen, troops belonging to the army of General Von Eichorn repulsed with sanguinary losses an attack begun by the enemy with strong forces in the Dvina section. The enemy left 70 prisoners in our hands. The army of General Von Schell threw the enemy back across the river Gas.

## Twelve Guns Captured.

"South of the Narow since the 8th this army has taken 150 prisoners, including eleven officers, and captured twelve machine guns.

"The army of General Gallwitz took Zambrow by storm and penetrated further in an easterly direction by way of Androchow.

"One of our airplanes dropped bombs on the railway station at Bielskoyk. Extensive explosions were observed.

"The army of Prince Leopold of Bavaria continued pursuit of the enemy, and while continually engaged in the fighting crossed the Muchawka section. Lukow has been occupied.

"The army of General Von Mackensen having broken down strongly fortified enemy positions after sharp fighting, the Russians began a retreat during the night along the entire front between the Bug and Parasow."

## Engineer in Harvest Field Shot and Slain

HOLDREGE, Neb., Aug. 12.—Vincent Winklemeyer of New York City, an electrical engineer working in the harvest fields for his health, according to papers found on his body, was shot and killed early today in a box car between this town and Funk, Neb., when he related the scene of years following this period. Mr. Munger devoted himself assiduously to the practice of his profession, yielding (Continued on Page Two, Column One)

## THOUSANDS OF ITALIANS LEAVING UNITED STATES

PITTSBURGH, Pa., Aug. 12.—Four thousand Italian registrants from the Pittsburgh district have applied to the Italian vice consulate for transportation to Italy to join their respective regiments. Joseph Natisis, the Italian vice consul, declined to enter into details, saying that because of the neutrality of the United States he had no desire to create the impression that active recruiting was in progress here.

Attaches of his office, however, said that all applicants were told how to proceed.

## Day Before Labor Day May Be Known as Thrift Sunday

SAN FRANCISCO, Cal., Aug. 12.—Designation of the Sunday preceding Labor day each year as Thrift day was asked of President Wilson and governors of states in resolutions passed today at the second day's session of the first International congress for thrift at the Panama-Pacific exposition. Labor organizations, it was said, have promised to support this movement.

Only 3 per cent of Americans are independent of a daily income, it was said by S. W. Straus of Chicago, president of the American Society for Thrift. He said 66 per cent of the people who die in this country leave no estates and 97 per cent of Americans at the age of 65 are partly wholly dependent on charity.

"Unless the conditions are corrected," Mr. Straus said, "we will reach a state of national poverty some day. All European nations for generations have been compelled to practice thrift. It is through the churches and the schools that the lessons must be taught."

A letter from William Howard Taft, former president of the United States, pleading his moral support to the thrift movement, was read to the congress.

## MANY SALES MADE AT TRACTOR SHOW

Best Buying Crowd that Ever Attended Exhibition, Say Manufacturers of Big Machines.

## ONE FIRM DISPOSES OF FIFTY

"The best buying crowd that ever attended a tractor show," is what the tractor manufacturers are saying at Fremont of the crowds attending the National Farm Tractor demonstration there this week.

One firm reports the sale of fifty tractors up to Thursday afternoon. Another firm reports selling twenty-five tractors. Others told of from a dozen to twenty sales, and altogether General Manager Hildebrand estimates that 150 tractors have been sold to farmers already this far.

A representative of the International Harvester company said Thursday that if today is as good a day as Thursday, the week will total far greater sales of tractors than did the week's show at Hutchinson, which is the show that up to this time has held the record for total sales.

Foreign Buyer a Booster. Mr. Mohler, representing the Austrian government, who has been on the ground all week looking the tractors over and buying machines for various lines of agricultural work in his country, says: "I have been in this country over a year now studying agricultural conditions as I have studied them always in my own country. I believe I am safe in saying that within ten years there will be a tractor on every farm in the state of Nebraska. Every indication is that the tractor is indispensable to agriculture and here to stay."

Mr. Mohler has just placed an order with the manufacturers of the Holt Caterpillar tractor of Peoria, Ill., for sixty machines. He bought fifty of the eight-cylinder, 120-horsepower Caterpillars for use on some of the big ranches in Austria. He says there are many ranches in Austria from 5,000 to 20,000 acres and in his opinion, he has found the machine he wants for the country.

With special trains from the Albion branch and the Sioux City branch Thursday, the demonstration had the largest crowd yet seen this week. Conservative estimates placed the crowd at between 10,000 and 12,000.

The Sioux City special brought in 600 and the Albion train brought between 600 and 800. Dozens and dozens of automobiles came in from Grand Island, Holdrege and even farther west.

Many Sex Wrestling Match. Hundreds and, perhaps, thousands of people came Thursday in order that they might be in time to see the Steiner-Henderson wrestling match, which was pulled off in Morris park at night as a special feature of the week's festivities.

Fifty of the tractors gave demonstrations in plowing and other work on the big field during the day. This is the greatest amount of tractors that has yet been out at any time. There are wet spots in the fields, where the ground is too wet to plow. If the day is fair today, it is expected that all of the ground will be in shape to plow and it is expected that the eighty tractors will all be out.

Dynamite Demonstrations. Special demonstrations in dynamiting ground and stumps were also given during the day. Moving pictures of all the week's events.

The accessory manufacturers who are demonstrating the technical points of the engines, are greatly pleased with interest that is being shown in these special schools of instruction. This is what is known as the short course in tractors, and the room is always crowded with farmers and ranchers who are anxious to learn the last and most up-to-date detail of the motor of each machine. The accessory man says this is the best indication of all that the tractor is here to stay, and that the farmer feels he must have it, and that the day of horsepower farming is rapidly drawing to a close.

Here is today's program: Omaha Ak-Sar-Ben and live stock men's 9:30 to 12—Private demonstration, 10 to 11:30 a. m.—Tractor short course, Fred dinner, South Omaha Union Stock Yards barbecue.

12 to 4:30 p. m.—Public demonstration, Union Pacific Railroad, North Platte, Grand Island, Columbus, Omaha divisions excursions.

## Tractor Built Like Fine Pleasure Car

To read the technical descriptions of many of the farm tractors at the Fremont demonstration, one might easily imagine he were reading of an automobile instead of a farming machine. For example, notice this, taken from advertising matter on the four-plow tractor, manufactured by the Kinhard-Haines company of Minneapolis: "It is equipped with the four-cylinder, vertical valve-in-the-head type of motor of the well-known Four Cylinder design; two speeds forward and one reverse; Hyatt roller bearings throughout, except the motor bearings; spring mounted in front and automatic steering device."

And, like the automobile manufacturer, the tractor men are coming to the smaller and lighter machines that will give general, all-round, good service at small cost. The "Kinhard" is one of these, being especially adapted to small and medium farm work.

## Former Premier Venizelos of Greece Has Returned to Athens

where the pronouncement of his policy, expected to have an important bearing on the Balkan situation, is being awaited. It is considered doubtful if this will be made until after the opening of the Greek Parliament on August 16.

PARIS WAR OFFICE reports a renewal of German attacks in the Argonne, where the French lines were penetrated at one point. Last night's assaults were declared to have been completely repulsed.

## TEUTON ADVANCE IS NEAR BANKS OF RIVER DVINA

Baltic Flank Under Von Hindenburg Now Less Than Three Hundred Miles from City of Petrograd.

## RUSSIAN SCHEME IS A FAILURE

Czar's Second Line of Defense Back of Warsaw Seems to Have Been Made Untenable.

## BATTLE EXPECTED NEXT WEEK

LONDON, Aug. 12.—The Baltic flank of the German armies, under Field Marshal Von Hindenburg, has virtually attained the banks of the river Dvina, between Riga and Dvinsk, with Petrograd less than 300 miles away in a direct line.

These southward the line sweeps west, with the Russian fortress of Kovno still holding out, but next week may see a great battle on the road toward the Russian capital.

The second line of defense upon which the Russians proposed to fall back after abandoning Warsaw has all the appearances of having been rendered untenable, and the British and Russian press is beginning to see in the Austro-German plan an ambitious plunge deeper into Russia, with Petrograd as the goal.

In the meantime the Russian rear guards are fighting desperately, especially in the critical Dvina region and at Kovno, to capture which the Germans are making a terrific sacrifice of men.

It seems plain now the German purpose is not to press to the utmost their so far brilliantly successful Russian campaign on the theory that conditions in France and Belgium are such that neither the French nor the British immediately will attempt a general offensive.

During the lull in activity on the front in France and Belgium the British public is looking to the Dardanelles to bring the relief Russia so badly needs, though the task of opening the straits remains a difficult problem, which some think may only be solved by a change in the Balkan situation. Both Germany and the entente powers are exerting the hardest pressure on Bulgaria, as that country is considered to be the key to the situation.

## Petrograd Real Objective.

BERLIN, Aug. 12.—(Via London, Aug. 12.)—The Novoe Vremya, discussing today the theory that Petrograd is the real objective of the German offensive, says:

"There is an enormous difference between the war of 1913 and the present conflict. The Germans are pushing against the Russian forces, equivalent to seven such invasions as that of Napoleon, and supported by the latest technical appliances, whereas, in 1913, the Russian army in the latter respect was fully on a par with the French.

"The Germans are infinitely better posted as to the position of Russia than Napoleon, and they are incapable of regarding Moscow as the key to the empire. They know that Petrograd is the political center and it is only half as far from Riga as Moscow.

"It is only a night's railway journey between Riga and Petrograd, and the distance over good roads and two lines of railways do not offer insuperable difficulties. This is no second war of 1812, but something far more serious."

The Rech advises the population of Petrograd that air raids on the capital are likely in the near future, and that a hostile cavalry force may possibly get near the capital. It says, however, that there is no fear of anything further at present.

## Italian Official Report.

ROME, Aug. 12.—(Via Paris.)—The following statement issued at Italian army headquarters, under date of August 11, says:

"In Cadore, while our artillery continues to operate against powerful defenses, (Continued on Page Two, Column Two.)"

## THE WANT-AD WAY.

All Rights Reserved.  
Have you anything for sale? For which you find no buyers? Try a small **WANT AD.** You'll fulfill all your desires.  
No matter what it is—whether auto, home or yacht—try a **WANT AD.** You'll sell it on the spot.  
This man is having fun. He's saving many nickels; He found just what he wants in the "For Sale—Motorcycles."  
Used motorcycles always find a ready market. If you're for sale, place a small "For Sale" Ad in THE BEE, telling all about the make, the condition of the machine and the price, and you will quickly find a buyer. Telephone TYLER 1900 and PUT IT IN THE OMAHA BEE.
