WITH the presence of late summer, "Danny" Cupt's pranks of the still evenings are the engaging topics of the tea-drinking contingent.

An interesting romance, to have its culmination soon in wedding bells, refers to a charming maid of the blonde type of beauty, who lives with her parents in one of the attractive apartments of West End. She has spent much time in study abroad, and belongs to one of the older families here. The gentleman in question is an eligible bachelor, and, as an agreeable coincidence, occupies an apartment in the same building.

Then one of the younger bachelors, whose sister is to be one of the debutantes of the winter, is devoting his time and thoughts to a Chicago girl. He is a son of one of the wholesale merchants. The many friends of the two couples expect engagement announcements soon.

Women Will Address Good Roads Meeting at Commercial Club.

Mrs. Lee C. Boardman, organizer of the Lincoln Highway Woman's auxiliary, and Mrs. Sarah W. Danold, executive secretary, both of New York, will address a meeting Tuesday evening in the interests of good roads. The meeting is planned to be held at the Commercial club. Harry Lawrie, Randall Brown, Clark Powell and T. F. Stroud are in charge of preparations.

The highway auxiliary aims to beautify the Lincoln highway. Not only the planting of trees, but the erection of memorials to noted men and the placing of fountains and other aids to beauty are recommended. Mrs. McDonald is especially furthering a plan to have each state traversed by the highway erect a memorial to some prominent person in that state.

The two women left New York July 10 and are en route to the coast, which they expect to reach the latter part of September. They address women's clubs particularly in their efforts to organize more auxiliaries. On this trip, auxiliaries were formed at Gettysburg, where a memorial to Lincoln will be placed in the square where he made the Gettysburg speech; at Everett, Pa., and Canton, O., where a marker in honor of the late President McKinley will be placed. Other auxiliaries are in process of organization.

Mrs. Boardman was the first woman to make a transcontinental trip via the highway. Both women are members of the New York Woman's Press club.

TO HAVE BIBLE STUDY CLASSES

Miss Grace Saxe, head of the Bible study department of the Billy Sunday campaign, spent the day in Omaha conferring with Rev. John W. Welsh and local workers. Miss Saxe was in Egypt when Theodore Roosevelt emerged from the African interior, and she was sent up the Nile by the United Presbyterian organization to report his speeches at the mission stations. She was a court reporter before taking up religious work exclusively.

Other women leaders in the Sunday party besides Mrs. Billy Sunday and Mrs. George Sunday are Miss Frances Miller, who holds a meeting for business girls every noon during the campaign; Mrs. William Asher, who works with the factory girls and domestics, and Miss Alice Gambin, who is in charge of the boys' and girls' work.

Still More Economical to Enjoy Electricity in Your Home

The reduced rates for electricity make it even more inexpensive than before to use the many electrical appliances which help make home more liveable. If your house is not equipped for electricity, there is no better time than this month to have it modernized. If you are contemplating a vacation competent electrical wiremen can do the work while you are away, although it is a simple task to have your house wired at any time.

The new rates and methods of charging will encourage the use of many electrical appliances which are so helpful in the home. See that your house has plenty of convenient sockets in closets, in the cellar and in dark halls and stairways. Make sure that there are sockets or receptacles conveniently located for the electric iron and the washing machine. Base-board and floor connections will be convenient for lamps, cooking appliances and the electric cleaner.

The new rates are not effected by the connected load, number of sockets or the number or size of lamps. You will now pay a specified rate per kilowatt hour for the current consumed regardless of the size of your connected load.

These new rates represent our sincere efforts to make a real reduction in the cost of electricity and to make our charges equitable to all consumers alike—both large and small.
