By MELLIFICIA. Tuesday, August 24, 1915.

A prominent girl in a nearby state conceived the following unique manner of announcing her engagement. Little birds are reputed to be forever telling interesting secrets. It took a whole flock of them recently—and they were blue birds, too, which signifies happiness—to betray the engagement of this popular girl.

She invited a number of guests to an informal tea at her home and when the time for farewells came the unsuspecting guests grouped themselves around their hostess on the veranda. They were suddenly startled by a fluttering cloud of blue birds released from a cage above their heads. The birds showered the guests with tiny envelopes bearing the names of their hostess and her fiancé.

### Railroad to Avoid Fractional Postage

Traveling Agent Mallette of the Harriman system of railroads, who has headquarters in Chicago, is in the city, installing the new mailing system for the Union Pacific that will become effective September 15 and which is expected to save the company many thousands of dollars annually in postage. It is also expected that the new system will increase efficiency. From the Chicago Pacific headquarters hundreds of letters go daily to New York, Chicago, Denver and other important points on the Harriman system. Each letter going to any one of these points, under the present plan, pays full rate postage, though not one in fifty of the letters is of maximum weight to require the postage paid. Under the system to be inaugurated, instead of the letters from each office going into the mails to be sent under separate covers with the full amount of postage paid on each, unstamped, they will go to a mailing room, where they will be sorted. Letters for New York will go into one pile and letters for Chicago and other points into others. Before mail time the letters for each point will be placed in envelopes, addressed to the headquarters at the point to which they are consigned, and sealed and the postage paid on each. In this way the company will escape paying fractional postage on each letter, saving a goodly sum each day.

### Low Temperatures in the Black Hills

According to reports to the railroads, while the weather is reasonably clear and mild over Nebraska, in the Black Hills it is of a character that is suggestive that summer is on the wane. Nebraska morning temperatures ranged from 50 to 60. The railroads reported clear weather all the way west to the Rocky mountains. Reports from North Dakota weather bureaus tell of temperatures at and below freezing at several points. Bismarck had a temperature of 36, but Peasenden, Minot, Devil's Lake and other points reported less than 32. No points outside of North Dakota report freezing temperatures, although Valentine, Neb., reports 42, and Broken Bow, 44. A year ago today the temperature in Omaha was 85; two years ago it was 90.

### Sunday Will Use Two Pianos Here

"Billy" Sunday and Mrs. Sunday have left their ranch at Hood River, Ore., where they spent the summer, and are enroute to Winona Lake, Ind., where a Bible school is located in which Mr. Sunday is deeply interested. He will speak there a few days before coming to Omaha. The Omaha tabernacle is all enclosed now, both sides and roof, with the exception of a small space at the north-west corner and the work of finishing the interior and placing the seats and lights is starting. It has been decided to use two pianos in the meetings here, though only one piano has been used in all previous Sunday meetings. "Bob" Matthews and Prof. F. H. Brewer will be the accompanists. Rev. John W. Welsh, organizer for Mr. Sunday, addressed a large meeting of Sunday school superintendents, officers and teachers at the Young Men's Christian association on Monday evening. Dr. Welsh will be one of the speakers at a business and professional men's dinner at the Commercial club next Monday evening at 6:30 o'clock. Webb Byers of Des Moines will be the principal speaker.

### PROPOSAL MADE TO CITY HALL GIRL

Genuine Offer of Marriage to Young Woman Employe Overheard by Accident.

### THE ANSWER REMAINS SECRET

A young man from Sioux City proposed to a young woman of the city hall clerical staff. Thinking that his words were safe from the world, the young Lochinvar from Iowa put the question. The world, however, appeared in the person of a third person, who unwittingly invaded this other little world of two loving souls. He overheard enough to apprise him of the purpose of the young man. It was a genuine proposal. "You can make me the happiest man in the world," were some of the words overheard in one of the offices of the city hall. The young woman in the case admits the honor was conferred upon her, but will not say what her answer was. This young man, who came "clean from Sioux City," to propose is said to be interested in a laundry and is well able to provide for his prospective wife. Another city hall woman who has returned from her vacation in New York is said to have become imbued with an unwonted interest in the Empire state. Her mail has been increased by letters addressed in a bold hand and bearing the New York postmark.

Wheat continued its downward course and in Chicago the September option went below 81, the first time since last spring when it became a trading commodity. On the Omaha market there was a drop of 1 to 2 cents per bushel on cash wheat, prices ranging from 89 1/2 cents to \$1.12 per bushel, the wide range being due to the quality of the offerings. Receipts were thirty-four carloads. Corn was weak and lost 1/4 to 1 cent. With sixty-one carloads on the market, the price was 71 1/2 cents per bushel. Oats were even weaker than corn, selling down 1 to 1 1/2 cents, the price being 35 to 36 cents per bushel. There were thirty-two carloads on the market.

## AN INVESTMENT THAT PAYS BIG DIVIDENDS A BEE WANT AD

### Robert Morris—"Financier of the Revolution"

IT HAS BEEN SAID the three very great men of our War for Independence were Washington, Franklin and Morris. In the history of mankind no man ever had a more arduous commission than did Morris in financing the armies of Washington. The credit of the nation was practically valueless, and time after time it was the personal credit of Morris which brought forth the money. The financial means raised from his own private resources made the victory at Trenton possible. When Washington proposed the capture of Lord Cornwallis and his entire army, it was from Morris, the patriot and private citizen, and not from the treasury of the Confederate States from which the money came. Thus Washington's last great victory was made possible, and the long and bloody struggle for National Independence brought to an end. Morris was the first to suggest our present system of National banks—the best banking system that any nation has ever known. He was the first American to send a ship forth flying the Stars and Stripes. Like Franklin he signed both the Declaration of Independence and the Constitution of the United States. He was very hospitable, and whenever Washington visited Philadelphia he was the guest of Morris. He was ever a moderate user of light wines and barley brews, and opposed Prohibition Laws, which make the many suffer for the faults of the few. For 58 years Anheuser-Busch have been brewing the kind of honest barley-malt and Saazer hop brews which the wisdom of Morris knew make for real temperance. To-day at the home of BUDWEISER 7500 people are daily required to meet the natural public demand. BUDWEISER'S ever-increasing popularity comes from quality, purity, mildness and exquisite flavor.
