

Society

WAS anything found this year at the country clubs? If interested, ask clerks and hear their side of the question. Indeed, everything has been found.

Can you imagine a man going to the club and returning home without his hat? And, still more shocking, his own very good oxford? Just the same, these have been found at the Country clubs. But "they" were called for. There might have been a keen understanding between the finder and the loser, for the topic is a thing of the past.

One would hardly believe the society would miss such a vain little piece of humanity until the countless vanity cases numbered among the "found" articles this season at the club were brought to notice. The finders of the little gold and silver affairs are now wondering if every rosy-cheeked matron or maid is a gay deceiver—but never mind, there are lots of vanity cases which have never been claimed. Perchance their owner would rather sacrifice her lost article rather than to let out the secret?

With all the rainy days, there are two very good looking silk umbrellas of the feminine type still to be called for at the Field club.

Contract Let for New Eagles' Hall on Capitol Avenue

The contract for the erection of the Eagles' new hall was let Thursday night and the building at the southwest corner of Eighteenth street and Capitol avenue will be started at once, the intention being to have it ready for occupancy early next year. The new home of the Omaha Eagles will be a brick and stone, two stories high, with dimensions, 80x32 feet. W. E. Stockham is the architect; Charles S. Nelson, general contractor; Schallman Bros., plumbing and heating, and Thomas Dirkin, wiring. The total cost will be \$25,000.

The brick will be of dark matt and the structure will be fireproof. The club rooms and rest rooms will be on the first floor, with the second story occupied by the lodge rooms, the largest of which will be 62x50 feet. The furniture for the club and lodge rooms will be new and modern, it being the intention to move little, if anything, from the old hall. It is asserted that for club and lodge room purposes, the new hall will be one of the most up-to-date in the country.

RAILROAD MEN HURT WHEN HANDCAR JUMPS TRACK

According to information received at Burlington headquarters at Douglas, Wyo., Chief Engineer T. E. Calvert of the road sustained one broken rib and was considerably bruised when he was thrown from a gasoline inspection car on which he was riding. Roadmaster Conway of the Wyoming division, who was with him, was also thrown off and slightly injured. Mr. Calvert is in the hospital at Douglas, but is expected to be out in a couple of days. The two Burlington men on a gasoline car were riding over the system. At the east end of the Douglas yards orders left by a passing engine were upon the track. When the car struck these orders it jumped the track, carrying both men with it. The car turned turtle with the men beneath.

SWANSON MYSTERY IS NOT YET SOLVED

Captain Dempsey Not Able to Determine Whether Patient at St. Louis Hospital is Wanted.

CLEWS ARE NOT CONCLUSIVE

ST. LOUIS, Mo., Sept. 9.—Captain Dempsey of the Omaha, Neb., police force, who came here to see the city hospital patient who, it was reported to the police, had confessed that he murdered Ada Swanson in Omaha last May, was unable today to determine whether the patient was the man he wanted.

The man who was registered in the city hospital under the name of William Herrmann was arrested last night at the request of the Omaha authorities. It has not been decided whether he will be taken back to Omaha.

Herrmann Denies Charge. ST. LOUIS, Mo., Sept. 9.—(Special Telegram.)—William Herrmann, 28 years of age, a giant in stature, a mental and physical wreck, following several attempts to end his life recently, is held in the observation ward of the city hospital for the police of Omaha, who wish to interrogate him in connection with the murder of Ada Swanson at Omaha, May 21.

Herrmann, who is also known as George Williams, is said to have confessed to O. B. Stewart, a fellow workman here, that he killed the Swanson girl. Police Captain Dempsey of Omaha is now on his way to St. Louis.

"I never heard of Stewart," declared Herrmann at the hospital tonight. "I was never in Omaha. I know nothing of the affair there."

Two weeks ago, Stewart, who is from Knoxville, Tenn., told the local police that Herrmann, with whom he was working on a Missouri Pacific Railway company construction gang, twelve miles from here, confessed the Swanson murder to him.

tried to Kill Himself. The day Stewart gave this information to the police Herrmann tried to kill himself by slashing his wrists with a razor. He was taken to the Missouri Pacific hospital, and then transferred to the city hospital observation ward.

Herrmann is a preadopter by trade and, according to his step-mother, Mrs. Charles Herrmann, he left here last December and did not return until last April. She declares he has been here since, but has appeared mentally unbalanced. She said as soon as he reached his home, after his four months' absence, he insisted that the doors and windows be kept closed all the time.

Victim in Labor War. "They're after me," he would exclaim. She said he told her he had been in Chicago, at work for a nonunion plant and that the union men had been after him. She said he made several attempts to hang himself and that she kept a close watch on him. For the last few months he has been working with the construction gang, and at home, would remark frequently that "They" were after him, and that he was afraid of "Them."

New Mainstay Silence. Since his local detectives have tried to talk to Williams about the Omaha affair, but he either maintains a stubborn silence or declares he was never in Omaha, that he never heard of the Swanson murder and that he never knew Stewart.

Another effort will be made to get him to talk tomorrow, when Police Captain Dempsey is expected here.

the arrest in St. Louis of William Herrmann, who is said to have confessed the crime to another man.

Chief of Police Dunn obtained sufficient information from the St. Louis police last night to warrant sending Captain M. P. Dempsey to St. Louis to investigate. Dempsey will arrive there at 10 o'clock this morning.

"I don't take much stock in the confession," said Mrs. Joseph Sykes last night when newspaper men asked her whether she had ever heard of Ada Swanson being acquainted with a man named Herrmann. "Ada had only a few male friends, and those she did go about with had names that were obviously Swedish. I sincerely hope, however, that I am wrong and that the St. Louis police have captured the fiend that killed our poor little Ada."

House on Fire as They Discuss Need of Fire Insurance

Claude Caillier, Union Pacific engineer, and Mrs. Caillier were discussing the needs of fire insurance at their supper table Thursday evening when a stranger rushed into the house and announced that fire was consuming the home. Mr. and Mrs. Caillier and four children immediately rushed to the fire department. The blaze started in the attic, but the cause is not known. The loss was placed at \$600. No insurance.

Not Enough Street Cars at Tabernacle

Complaints that there are an insufficient number of street cars at the tabernacle when the Sunday meetings close at night, assert the street railway officials, is no fault of theirs. At the office of the secretary of the street railway company it is asserted that a road master is stationed at the tabernacle each night, occupying one of the telephone booths. Before the opening of the meetings it was understood

that from the speakers' platform the signal would be given by buzzer fifteen minutes before the close of each meeting. With this information the roadmaster would call the several barns and have plenty of cars on hand to take the crowds away as soon as they came out of the tabernacle.

The road master is on hand each night, say the street railway officials, but he does not get the buzzer signal, hence the lack of cars.
