SUPERFLUOUS HAIR MUST BE ATTACKED UNDER THE SKIN

It has been proven by the world's greatest authorities that hair is bound to grow out coarser and stiffer after each removal unless it is devitalized. It is impossible to vitalize hair with pastes and rubon preparations, because they only remove hair from the surface of the skin.

DeMiracle, the original liquid depilatory devitalizes hair by attacking it under the skin, as well as on the skin. Initiations of DeMiracle are as worthless as pastes and rubon preparations, because they lack certain ingredients that DeMiracle alone contains, which give it the power to root hair of its vitality—its life sustaining force.

Buy a bottle of the genuine DeMiracle today and you will get the original liquid hair remover. Others are worthless imitations—refuse them. Remember, you are not asked to buy DeMiracle on a mere promise of your money being refunded. DeMiracle is the only depilatory that has a binding guarantee in each package which entitles you to the refund of your money if it fails.

DeMiracle is sold in 50c and \$1.00 bottles. The larger size is the most economical for dermatologists and large users to buy. If your dealer will not supply you, order direct from us. The truth about the treatment of superfluous hair mailed in each package. DeMiracle Chemical Co., Dept. A, Park Ave. & 125th St., New York—Advertisement.

Doesn't know how loaded gun got into his pocket. Ed H. Stein, Palm hotel, was arrested at Ninon and Capitol avenue Friday evening by Special Officer Martin Shields.

Blackheads Vanish In a Few Moments

By Means of Her Own Secret Formula, Valaska Suratt Has Made Herself the Famous Self-Made Beauty-Actress of America.

BLACKHEADS can be removed in a surprisingly quick way, without pinching, face steaming, dieting, or any other tedious method. It is by this simple formula which I have perfected myself, and so simple that it astonishes. It is by this formula that I have removed the blackheads which were on my face in a few moments, or in as short a time as it requires to thoroughly wash the face.

Blackheads are a local affliction, and no amount of drugging, blood treatment or dieting will remove them. The worst thing you can do in trying to get rid of blackheads is to try to pinch them out. There are many blackheads which require severe suetoning to make them come out. This never always leaves a spot, slightly redder than the rest of the skin, and this spot remains for a long time by using my formula, no suetoning is necessary.

First wash the face with hot water and soap. Then sprinkle some powdered rosin on a sponge made wet with hot water. Then rub well for a few minutes on the parts of the skin which are affected with blackheads. You should be able to secure the peroxin of any drug store.

MRS. SAGGY—I knew you would get rid of your poor complexion with the formula I gave you, and now I want you to see my wrinkles, sagging cheeks, and my appearance. For crow's feet, small spots, wrinkles, sagging cheeks, the following formula is absolutely unequalled: Dissolve two table-spoonsful of glycerine and two ounces of ether in half a pint of hot water. Stir until it is dissolved and starts to cream. Epsom may be obtained at any good drug store.

MRS. O. B. V.—In a half pint of cold water dissolve two ounces pectone and half a cup of sugar, all well mixed together. Of this, take two table-spoonsful three or four times a day in a wine-glass of water, after your meals. The pectone can be secured at any good drug store. If you can do it, this should develop the bust luxuriantly, although no one can assure you that the bust can be developed in all cases.

JEFFIE R.—Persistent use of the tooth brush is not sufficient to keep away those obnoxious yellowish tints. After brushing, the teeth should be bathed in something potent enough to dissolve the tenacious enamel, yet which will not injure the enamel. There's nothing better for the purpose than plain fluid erasol. Just measure out one ounce of erasol at a time and your teeth will soon become white and beautiful. Better to pay the druggist for a few ounces of this erasol than to pay the dentist bills later on.

ANXIETY PLUS—My complexion formula will make your skin take on a purity rivaling that of the rose. It cures spots, pimples, sallowness, freckles, will surely leave the complexion as supple as white as the snow. This will never fail.—Advertisement.

MISS GENEVIEVE T.—In case it happens that you cannot get from the drug store the spot for making my splendid wrinkle remover, write to Secretary Valaska Suratt, Thompson Bldg., Chicago, Ill., and my secretary will see that you are immediately supplied. When writing enclose the price, which is fifty cents.

MISS WHEN?—For removing superfluous hair you can use nothing as good as simple auro solution. It dissolves away any hair as if by magic, and never leaves a red spot or irritation. Simple auro solution can be secured at the drug store. This is one of my most effective formulas.

SURPRISE—If you want a really exquisite face powder, write for the making of nearly all face powders. I suggest you try my own, made after my own formula, "Vanished Face Powder." It will give a tint and softness you never before experienced. It is sold in many drug and department stores. If you have any difficulty in getting it, simply write to my secretary, as suggested by Mrs. Genevieve T., enclosed fifty cents, and ask for white or flesh.

VERY SHORT—Use my hair-growing formula faithfully for a time, then measure your hair, and you will find that it has grown wonderfully in a short time. It will be no longer thin and brittle, but radiantly with the glorious sheen and luster that perfect, healthy hair possesses. Your hair receiver—well, there'll be no more use for it. Mix it yourself, as follows: Add half a pint of alcohol to half a pint of water for use a full pint of imported bay rum, if you prefer, and to this add one ounce of beta-nutrol, which any drug store can supply you. This will never fail.—Advertisement.
