CHICAGO GRAIN AND PROVISIONS

Pentures of the Trading and Closing Prices on Board of Trade.

Prices on Beard of Trade.

CHICAGO, Sept. 28.—Wet weather that put a stop to threshing in the northwest had a good deal in bringing about an advance today in the wheat market here. Prices closed strong, 144% to 20 net higher, with December at 35% 195% to and May at 384 195% to. The outcome in corn varied from % to decline to 45% to gain and in oats from % to off to Mc up.

Provisions finished the same as last night to 25c higher.

Assertions that threshing had come to a virtual standstill in the Dakotas and Minnesota gave the wheat bulls an advantage almost from the start. The outlook was that because of delays by rain, the receipts, especially at Minneapolis, for the next few days would be much less plentiful than had been expected.

much less plentiful than had been expected.

As the movement of the winter crop continued to be disappointing and as cable advices proved adverse to the bears, quotations soon began to climb, and at no time thereafter encountered any decided check. Shorts were the chief buyers, but commission house purchasing was noticeably on a broader scale.

Liverpool dispatches telling of an urgent milling demand helped to bring to light the fact that as much as \$50,000 bu, of domestic wheat had been sold in the United States yesterday without the transaction receiving any publicity. In this connection it was pointed out that expert clearances today were larger than on the corresponding day last year and that the increase in the world's available supply was only about a quarter as large as a year ago.

Some froat damage and the fears of more tonight had a buillish influence on corn. The September option, however, was comparatively weak as a result of month-end liquidation. Oats were governed mainly by the action of corn. The weather was ill-adapted for threshing. Provisions advanced with hogs. The volume of business expanded, particularly as to commission house buying of January deliveries.

HOGS—The increase in shipping demand that was expected by the Missouri river markets as a result of the barring of Chicago live stock from New Yors state landed in South Omaha with a vengeance this morning. Shippers bought fully a third of the supply, taking anything that had a shipping end at prices that were all of 1552.cc higher, and looked even more than that in some instances. Buik of the shipper purchases was made at \$7.5432.0; with an extreme top of \$8.15, the highest price that has been paid here since last November.

Packer buyers might have tried to hold things down on a heavier run, but the boun in the shipper market on such moderate recepts forced their hand, and they started out early filling their orders at figures that were easily 10915c, and in 190ts as much as 20c, higher, A few bunches of extremely heavy hogs didn't move any too readily, but packers had urgent need of every laing that was here. 13 steers....1002 7 30

reaching 3.1a.
Supplies, while very moderate, were the largest for any one day for almost two weeks. About sixty-seven loads, or 4,300 head, were reported in This brings the total for the two days up to 7,015 head, a gain of 1,700 head over last week, but more than 2,000 smaller than two weeks ago and a shortage of 1,556 head as compared with the same days last year.

Specialties, Mainly Those Deriving Profits from War Contracts, Go Up.

TRADING ON A LARGER SCALE

NEW YORK, Sept. 8.—In its speculative aspects, most other considerations being inch.his. today's market covered with last come to be regarded as familiar ground. Specialties, mainly those deriving profits from war contracts, ascended to higher leves, a few scoring extraordinary gains, only to lose them in large part with starting rapority.

Trading was on a larger and broader scale than yesterday's membrable gension, and with the difference that certain old or dormant stocks vied at times with those of recent prominence for aupremacy. Advices from Chicago pointing to an early announcement of the terms of the Anglo-French credit gave auded strength to the list. In the Inial dealings, however, the weight of increased ofterings overcame the market's directive powers and many large gains were reduced, while others were changed to moderate losses.

Railroads were again under lotermittent restraint, unpublished by leading issues.

Railroads were again under intermittent restraint, numbidiately leading issues being lower by one to two points.

Improvement in this part of the list was mine general later, but Lere, also, profit taking proved effective to the extent of wiping out most gains. Price movements became confusing to the point of feverishness toward the end, the closing being distinctly irregular.

Total sales amounted to 1,62,000 shares, the largest volume of business, according to available data, since the days immediately proceeding the war, when the greater values.

Values.

Lond trading was again very large, with general strength. Final disposal by the syndicate of \$45,000,000 New York City bonds, purchased early in the year, offers proof of the better investment demand. Total sales of bonds, par value, aggresated \$5,972,000.

United States bonds were unchanged. Number of sales and leading quotations on stocks were as follows:

\$1000 6% \$1,500,000 First Mortgage 6% Real Estate Gold Bonds

The Albert Dickinson Company Dated October 1st, 1915. Interest payable April 1 and Oct. 1. Maturing 2 to 8 years.

Denominations, \$500-\$1,000.

SECURITY 1-Location-Corner 35th Street and California Avenue on Drainage Canal, in the new South-west manufacturing district, Chicago, which is steadily increasing in value.

2-Ownership of Land-Over 70 acres, of which over 60 acres are owned by the company.

3 Ownership of Buildings—New reinforced concrete with brick, outside sprinkled. The buildings are in seven units, making a square of 420 feet, with connecting subways beneath and passageways overhead. There are four miles of railroad tracks on the surface and elevated. The buildings are provided with covered unloading platforms and upward of 100 cars can be spotted without a second movement. The Dickinson railroad yard has a capacity exceeding 350 cars.

4-Ownership of Land and Buildings, being their old property at corner Clark and 16th Streets on the L. S. & M. S. Railroad, a smaller complete working unit.

5-Valuation-Value of land and buildings and equipment conservatively estimated at \$3,288,000. 6 Earnings Earnings of the company for the past five years average considerably over three times the annual interest charge. The bonds are the direct obligation of an old established, successful company, financially strong.

7-Insurance against Fire and Mortgage Guarantee Policy by Chicago Title and Trust Company, held by this bank, as trustee, for protection o' bondholders.

These Bonds are approved and recommended for investment by Greenebaum Sons Bank and Trust Company, capital and surplus \$1,850,000, founded 1855. Securities sold by this old established State Bank have successfully stood every test for three generations. Legal investment for Banks and Insurance Companies. Purchased by the most conservative in-
