DRY CAMPAIGN

PROPOSE NEMAHA LEVEE SYSTEM

Plan Similar to One in Operation on Lower Mississippi Has Been Suggested.

FARMERS ON WRONG THEORY

(From a Staff Correspondent.) LINCOLN, Sept. 30,-(Special.)-A levee system, similar to that in operation along the lower Mississippi, is proposed by State Engineer Johnson to drain th flood waters of the Nemaha river near where it empties into the Missouri. During the floods of last spring and

summer Richardson county farmers lost many thousand dollars in property by overflow over the flat Missouri bottoms of the Nemaha river, made over several years ago into a big drainage canal.

Parallel ditches running into the Mismuri are included in the scheme of the miles long will be built through the botwer the adjacent country. What Engineer Payers.

The "Right Kind" of Bankers BOYD Friday and Saturday Dect. 1-2, Sat. Mat. Help Drink or Drug Users

The modern banker is at once the business and legal adviser (frequently the medical and spiritual "Referse") of his customers and many others in his community. He knows their wants and needs and has the knowledge and ability to give good advice and the heart and inclination to provide needed help to those who are worthy. Ask your banker's advice and help.

The Bankers of this country have not only financed the three-score Neal in stitutes established in principal cities during the past five years, but they have "financed" the "Neal Way" for thousands of mental, moral, physical and financial wrecks and influenced other thousands to secure its benefits before they become confirmed drunkards and "human derelicts."

As an illustration of the good work you can do in your city or community, we call attention to the following: Last winter a Chicago millionaire banker "financed" the "Neal Way" for a formerly successful business man who had become almost a "human derelict." He is today "back on the job," has gained 30 pounds in weight and the change in his mental and moral being is even more remarkable.

Last March ab fillinois country Banker "financed" the "Neal Way" for a cities of his town. When admitted to the Neal Institute he weighed only 87 pounds—a wreck from having used Morphine, originally prescribed by a physician, for seventeen years. A recent letter from the banker says: "Joe is a regenerated man, a credit to himself, family and community." The name and address of Darties referred to will be furnished as private references upon application.
