DEMOCRATS WANT CREDIT FOR PEACE

Secretary Reynolds of Republican Committee Reveals Plan to Boost Wilson.

NO WAR ISSUE IN EXISTENCE

Stopping off in Omaha on his circle tour of the country, James B. Reynolds, secretary of the republican national committee, is spending a couple of days looking into political conditions and getting the viewpoints of republican leaders. Mr. Reynolds is on his way back to Washington from the Pacific coast, and when he completes his trip, will have touched nearly forty states. His son is with him and they are at the Fontenelle.

Asked for his observations, he said:

"The people of the country have undergone a great change of mind since 1912, and every indication is that the republican party will be returned to power next year to bring real prosperity to the country again. Nor can such an era come any too soon, yet President Wilson and his advisers have already lined up on a plan of campaign they hope will be successful in giving him another term in the White House, and this plan is to have him run as a 'peace president' and to make that the sole issue of the next campaign.

"Upon all other rallying cries, the soft pedal of the administration is to be put, and all of the cabinet and other oratorical lights of the present dynasty are to concentrate their vocal guns and their fountain pens on the one theme of how President Wilson has kept the United States out of the European war.

Any Executive a Peace President.

"This is an interesting movement and amusing as well. It is true that this country is not under arms, and that other nations are. It is also true, the president has done his utmost to keep this nation from getting embroiled in the conflict across the seas. What president would not do likewise? What man is there of sufficient fibre to be chosen for the presidency, who would not exert his energy to keep his own country from the horrors of organized murder under the name of war? What man would willingly permit any White House act to be the cause of becoming a part of a conflict, which is no part of the business of the United States?

"There is no such issue before the American people. There can be no issue on a question where all men agree. It requires two sides and opposing opinions to make an issue. There is only one side to the matter of our refraining from being drawn into a bloody European crisis.

"So far as the European war situation is concerned, and the part of the United States in it, the election of 1916 will make no difference. Whoever is elected president will strive with every power that is in him to keep this country out of war. It makes no difference which political party triumphs nor which nominee is elected. The result will be the same so far as the striving for peace is concerned.

"There can be, and there will be, no such issue before the voters next year. But there are issues upon which the campaign will be fought, issues upon which the parties differ and the nominees as well. These involve questions

MINIONS OF KING AK GAYLY REVEL

Large Crowds Have Glorious Time Seeing Wonders of the Land of Quivera.

WHITE LIGHTS GLOW BRIGHTLY

CARNIVAL ATTENDANCE, 1914, 1915. Wednesday 3,850 3,811. Thursday 5,847 5,279.

When the second night of big crowd on the carnival grounds had completed its hilarity and fun and had headed homeward through the half-million candle power of street lighting and had separated itself from several million pieces of confetti, it was quite generally agreed that everybody had enjoyed one glorious, good time.

For that is the spirit of King Ak's Highway. Everything is gaily and pleasure, from the welcoming arch at the main entrance, all through the grounds to the farthest exit. And last night's throng played the joy game to the limit.

One can hardly walk up the white way along Fifteenth street to the carnival at Howard, under thousands of brilliant lights, without acquiring the joy germ and joining the revels on every side. According to careful figuring by Contract Agent Zimman of the electric light company, there are almost 500,000 candle power of lights for Ak-Sar-Ben this year, which in themselves send the beams of frolic into every nook and corner of the downtown district.
