

### CARRANZA SAYS OUTLOOK BRIGHT

Decision of Pan-American Conference to Recognize Him Ends Intervention Talk.

### AMNESTY FOR THE PLOTTERS

VERA CRUZ, Oct. 11.—General Carranza received with great pleasure the news that the Pan-American conference at Washington had decided to recommend recognition of the party led by him as the de facto government in Mexico, although he pointed out that he had received no official notice to this effect.

He will not alter his plans for a trip through the northern states, for which he is to depart tomorrow.

In response to questions General Carranza said:

"This news puts an end to all efforts of our enemies to bring about foreign intervention. They continue their intrigues and their attacks in the newspapers, but recognition of the constitutional government naturally will rob them of the fruit of their efforts.

Promise of Amnesty.  
"When peace is absolutely restored and tranquility really established throughout the republic amnesty will be granted to all these persons, but not now. To permit them to return at this time would be to endure their machinations within the republic.

"The immediate effect of this news will be a great moral strengthening of the cause of constitutionalism, and a corresponding disheartening of opposing factions. There will be no more formal battles. Fighting of that sort already has ended, but naturally, the struggle to put down minor outbreaks and lawlessness must be continued for a greater or less time in a country such as this, where there are extensive open areas.

Opposition Divides.  
"Already these enemies are disintegrating rapidly and their chiefs are surrendering. This development will bring the surrender of the leaders of the opposition, since the news of recognition will remove from them further hope of success. This applies not only to those who are actually fighting in the field, but to those enemies of our cause who are intriguing, both within the country and abroad.

"News of the coming recognition is pleasing since it will renew and strengthen the friendly relations between Mexico and other nations."

Other Governments Agree.

WASHINGTON, Oct. 11.—Official advices have been received here that the governments of Argentina, Brazil and Chile are in accord with the decision of the United States to grant recognition to the party led by General Carranza as the de facto government in Mexico.

This form in which recognition is to be accorded has not been decided, but it may be done by formal notification to Eliseo Arredondo, authorized representative here of the Carranza government. Extension of recognition is expected within a week.

This will result in the immediate order of an embargo on arms against factions opposed to the Carranza government. A step which will materially weaken the resources of the Villa element, which intends to continue the warfare.

What Carranza Pledges.

Although the documents presented to Secretary Lansing and the Pan-American congress by Eliseo Arredondo, on behalf of General Carranza, on which the decision to recognize the Carranza party was based, have not been made public, it became known that the first chief had given explicit assurances with reference to the protection of foreigners, claims, amnesty for political offenses and the treatment of the clergy.

An extract from a memorandum presented to the Pan-American conference on behalf of General Carranza contains the following articles outlining the program of his government:

1. The constitutional government shall afford to foreigners residing in Mexico all the guarantees to which they are entitled, according to our laws, and shall simply protect their lives, their freedom and the enjoyment of their rights of property, allowing them redress for the damages which the revolution may have caused to them, insofar as such indemnities may be just, and which are to be determined by a procedure to be established later. The government shall assume also the responsibility of legitimate financial obligations.

2. The first concern of the constitutional government shall be to re-establish peace within the provinces of law and order to the end that all the inhabitants of Mexico, both native and foreign, shall equally enjoy the benefits of true justice and be interested in co-operating in the support of the government emanating from the revolution. The commission of crimes of the common order shall be punished. In due time an amnesty shall be within keeping with the necessities of the country, the plan of which shall in no way exempt those under it with the responsibility they may have incurred.

3. The constitutional laws of Mexico known under the name of laws and reforms, which establish the separation of the church and the state and which guarantee the individual right of worship in accordance with his own conscience and without regard to the public shall be strictly observed, therefore, no one shall suffer in his life, freedom and property because of his religious beliefs. Worship shall continue to be the property of the nation according to laws in force, and the constitutional government shall again accede for the purpose of worship, those who may be necessary.

4. There shall be no confessions in connection with the settlement of the agrarian question. This problem shall be solved by an equitable distribution of the lands still owned by the government; by the recovery of those lots which may have been illegally taken from individuals or communities; by the purchase and expropriation of large tracts of land, if necessary; by all other means of acquisition permitted by the laws of the country. The constitution of Mexico forbids privileges, and therefore all kinds of properties, regardless of who the owners may be whether operated or not, shall in the future be subject to the proportional payment of a tax in accordance with a just and equitable valuation.

5. All property legitimately acquired from individuals or legal governments, and which may not constitute a privilege or a monopoly, shall be necessary.

"Sixth. The peace and safety of a nation depends from the clear understanding of citizenship; therefore the government shall take pains in developing public education, and to this end it shall utilize all co-operation rendered in good faith, permitting the establishment of private schools subject to our laws.

### BOOM AND COLLAPSE COMING

LONDON, Oct. 11.—The levying of still heavier duties on imports from the United States and other foreign countries is urged by the Post's financial editor in discussing the problems of war finance. He regards this step as necessary in order to restrict further the use of luxuries and enforce economy upon the common people.

"On the assumption that the war will last for a long period and that our power over foreign exchange may tend to weaken rather than to become stronger," the Post says, "our whole policy should be in the direction of mobilizing all available resources for offsetting adverse trade balances and checking all unnecessary imports from abroad. What has been done thus far in the taxation of such imports is quite insignificant. There must be an immediate further cutting of personal expenses which plays an important part in affecting the balance of payments to be made abroad."

The Post quotes approvingly the financial expert who declares further war loans must not be subscribed by the banks, but by the people themselves. Unless this is done, he predicts the war will be followed by the "greatest boom and the greatest collapse the world ever has seen, affecting alike Great Britain, the continent and the United States."

It is estimated by this expert that Great Britain must find at least \$3,000,000,000 more before March 31.

### Chinese and Japanese Sailors Make Merry on Minnesota; Doctors Busy

SEATTLE, Wash., Oct. 11.—Scores of Chinese and Japanese sailors were nursing cuts and bruises, some severe wounds, today as a result of a free-for-all fight yesterday aboard the Great Northern liner Minnesota, in port here. Two hundred of the Orientals, a majority of the crew of the steamer, participated in the fight which police reserves had difficulty in stopping.

The exact cause of the trouble has not been determined, but officers of the ship

said the Japanese and Chinese had been on unfriendly terms every since the Minnesota sailed from the Orient.

The trouble began when sixty Chinese formed a phalanx and made a rush to break up a Japanese birthday party. Instantly reinforcements appeared for both sides and within a few minutes every Oriental aboard ship was fighting with fists, feet, bottles, chairs hot water, belaying pins or any other weapon that was handy.

at his disposal to hold his line of defense. Though he subjected those of our troops who crossed the river to a murderous fire, the latter nevertheless succeeded in attaining Serbian territory.

"A severe battle raged about Belgrade, where the Serbians offered particularly bitter opposition. Nevertheless we succeeded in reaching the newly installed connections over the Save and invaded the northern portions of the city, where our troops remained until reinforcements arrived.

"A bloody battle followed in the alleys. In the northern part of Belgrade a terrible encounter with bayonets raged two days and nights. The Serbians were pushed back, step by step in these alleys and finally had to surrender the whole city."

### The Day's War News

ALL AUSTRO-GERMAN forces gathered on the Danube front for the invasion of Serbia have crossed that river and the Austrians are attacking to the south of Belgrade, which they captured late last week, the Berlin war office announced today.

TENTONIC OCCUPATION of Belgrade was made good after two days of desperate fighting in the streets of the city, according to descriptions telegraphed to Budapest. It is declared that the Serbians are offering bitter opposition to the advance, fighting stubbornly and retreating only step by step.

GERMANS LEFT DEAD estimated at between 7,000 and 8,000 in number in front of the allies' lines after their ineffective assaults of the last few days in the vicinity of Loos, in northern France, according to today's statement of the French war office, which alludes to the outcome of the fighting as "a grave and costly check to the Germans."

MUCH IMPORTANCE attaches to the meeting today of the Greek Parliament, at which the new cabinet's declaration of future policy in connection with the war is expected.

KING CONSTANTINE of Greece again is ill and is confined to his room, according to advices through Berlin.

PARIS GETS REPORTS that three-quarters of Belgrade, which now is in Teutonic hands, was destroyed by shell fire of the Austrians and Germans, whose drive into Serbia is now in full swing.

IT IS HINTED in an Athens dispatch that a much larger allied force than had been reported constitutes the expedition being landed at Saloniki for service in Serbia.

REPORTS FROM BUCHAREST are that Bulgarian troops are digging trenches near the Roumanian frontier and that artillery also has been brought up.
