

DUKE OF ORLEANS RETURNS JEWELS

Bulgaria Entering European War Causes a Break in Social Relations with Ferdinand.

EXPLAINED BY LETTERS SENT

PARIS, Oct. 15.—The duke of Orleans addressed a letter to King Ferdinand of Bulgaria several days ago requesting the monarch to take back the jewels of Bulgarian orders which had been bestowed upon him, but the letter was to be published only on the day Bulgaria entered the war. In his communication the duke said:

"The attitude your majesty has thought right to take in the present war, contrary to your previous policy, forces me to the sad duty of praying your majesty to take back the jewels of Bulgarian orders with which your majesty invested me, first upon the death of your venerable mother, and, second, when your majesty was in Paris to point out how much Bulgaria owed to France."

"I tell your majesty to take back the jewels, because, alas! I cannot send them, but your majesty has only to apply to his ally, who for more than a year has occupied my chateau in Belgium, and for whom my safe can have no secrets. I authorize giving up to your majesty orders I can no longer wear. Your majesty will understand I am obliged to warn your majesty that I am taking up arms against my country, France, his name will be struck from the chapter of Knights of the Holy Spirit. I do not ask your majesty to send back the jewels of the Order of the Holy Spirit, but wish, on the contrary, that these souvenirs of the France he has betrayed shall keep alive perpetual remembrance."

A letter the duke wrote to Emperor Francis Joseph at the outbreak of the war has been published. In it he asks the ruler of Austria-Hungary to take back the jewels of the Order of the Golden Fleece and refers to his marriage to the Archduchess Maria Dorothea as "the misfortune of my life."

Triest to Europe to Give Testimony in Behalf of Son

WASHINGTON, D. C., Oct. 15.—Gustav W. Triest, father of Kenneth G. Triest, the young Princeton student held in London as a German spy, will sail from New York, probably tomorrow, with a number of former associates of his son, who will give testimony designed to show that the young man is mentally unbalanced.

The court-martial trial of Triest has been postponed until November 1. It was announced at the State department today, and a further postponement is being sought. The arraignment was originally set for Monday.

Further details of the offense charged against Triest show he was arrested while attending a naval wireless school. He had never served in the British navy. Postal authorities, it was said by State department officials, had intercepted letters written by Triest, in which he is said to have exhibited marked sympathies for certain German movements.

Must Return Martha Washington's Will

RICHMOND, Va., Oct. 15.—Governor Stuart has ordered that the will of Martha Washington, recently returned to the state by J. Pierpont Morgan, be given into the custody of Fairfax county, from which it was stolen during the civil war. It will be formally delivered to the chairman of the Fairfax Board of Supervisors Monday and will take its former place in the court house.

Governor Stuart acted under a ruling of Attorney General Pollard, who held that the will must be returned to Fairfax county as a part of the county's records, in compliance with the legislative act which authorized the state to bring suit against Mr. Morgan for its recovery. When Mr. Morgan voluntarily returned the will, which had been found in his father's collection of historic manuscripts, he requested that it be placed in Mount Vernon and offered to build for it a fireproof receptacle.

DAVENPORT, Ia., Oct. 15.—The Midwest Preparedness conference, which convened here yesterday, closed at noon with a luncheon at which Congressman Lobbeck of Omaha, Clarence B. Italy Places Huge Lumber Order Here

SAVANNA, Ga., Oct. 15.—The Italian government has placed an order through a New York and a Georgia lumber company for 5,000,000 feet of lumber, chiefly yellow pine, according to an announcement made today in the Southern Lumber Journal of this city.

THREE MEN INJURED BY AN EXPLOSION AT CORDOVA

SAN FRANCISCO, Oct. 15.—Three members of a repair crew were burned, one severely and several buildings were badly damaged, by fire last night at the wireless station at Cordova, Alaska, when a twenty-five-gallon tank of alcohol exploded. The sending apparatus was put out of commission.

ARMY OF KAISER BEGINS ITS DRIVE AGAINST SERBS

Greece announces its definite decision not to intervene in the war on behalf of Serbia at present.

In the communication, which is of great length, Premier Zaimis of Greece presents his interpretation of the Greco-Serbian treaty. He concludes with the statement that the present Greek government is of the opinion that the treaty with Serbia does not call for intervention by Greece in the present circumstances.

As London Views the War. LONDON, Oct. 15.—Although admitting that the forces of General Ivanoff have again been hurled back across the Stripa river in eastern Galicia, Petrograd asserts the advantage still rests with the Russians, who hold eight miles of the east bank of the river, after actions which have virtually separated the Austro-German armies.

Violent actions continue on the Dvinsk front with little relative change in the positions of the contending armies. Irritation is displayed by the press at the failure of the reorganized aircraft force for the defense of London to bring down a single Zeppelin of the squadron which attacked the capital Wednesday night. Demands for reprisals are increasing.

Lets of casualties in the British army published in newspapers here during the first fifteen days of October show a total of 21,000 killed, wounded or missing. Of these 1,441 were officers.

Announcement of the great losses of the British forces at the Dardanelles follow the sensational speech in the House of Lords last night of Lord Milner, who is said to have characterized the expedition as hopeless. He suggested withdrawal of the troops from Gallipoli peninsula and their transfer to some other front. Lord Lansdowne responded for the government that it was impossible to give any promise that the troops would continue in the Dardanelles operations or would be withdrawn.

The figures given out today do not tell the full story of what it has cost the allies to attempt to force the Dardanelles. In addition to the British casualties are the losses of the French, concerning which no reliable information is available. The British total, however, bears out dispatches from correspondents on this front, who have described the loss of life as fearful. Turkish losses also are described as very heavy.

Turkey Issues Statement.

CONSTANTINOPLE, Oct. 14.—(Via London, Oct. 15.)—An official statement issued tonight at the Turkish war office was as follows: "Near Anafarta we inflicted heavy losses on the enemy by the use of bombs. Our fire damaged an enemy aeroplane, which fell east of Toulagrol and finally was destroyed by our artillery."

"Our artillery destroyed an enemy machine gun position near Ari Burnu. "Our observation detachment, near Sedul Bahr, inflicted heavy losses on the enemy's right wing after a surprise attack with hand grenades Tuesday night. A mine explosion before his left wing destroyed a considerable part of the enemy's trenches."

"Enemy torpedo boats and coast batteries vainly bombarded our artillery. Near Sedul Bahr our artillery forced torpedo boats which were bombarding our left wing to leave the narrow."

Estimates Are Discussed. Secretary Lansing later discussed the estimates for the State department with the president. He said he would ask for about \$1,000,000 more than the State department estimates of last year. Added expenditures growing out of the European war and the revolution in Mexico cause the increase.

President Wilson approved Secretary Daniels' recommendation for a five-year construction program for the navy, to cost \$200,000,000.

The exact amount to be appropriated for each of the five years has not been decided, but the first year's program calls for two dreadnaughts and two battle cruisers.

Friends Say Losses Cause. NORFOLK, Neb., Oct. 15.—(Special Telegram.)—John Schwichtenberg, who killed himself and his wife in Omaha today was connected with a prominent and wealthy family of this city. His father, Carl Schwichtenberg, has gone to Omaha to take charge of his son's body. Schwichtenberg left here two years ago to speculate in grain at Omaha.

It is known that he bought corn heavily a few months ago. He had heard a great deal of grain speculation and after making a few successful deals from Norfolk he went to Omaha to be in closer touch with the market. He married a trained nurse about a year ago. His wife had been a widow and is supposed to have wealthy parents in Iowa. Friends here do not believe that domestic troubles caused the tragedy, but attribute it to probable losses on the board.

Headquarters of Washington in New York Burns

NEW YORK, Oct. 15.—A number of revolutionary relics, including the signatures of George Washington, Alexander Hamilton, General Lafayette and others, were burned today in a fire which destroyed an historical mansion at One Hundred and Sixty-fourth street and Sheridan avenue, in the Bronx. The house has been vacant since Saturday and it is thought tramps caused the fire.

Washington once made his headquarters at the house and the stable nearby for a number of years housed the favorite coach of Washington while he was president. Fifteen years ago the coach was presented to the trustees of Washington Home at Mount Vernon by Gustav Frey, who owned the mansion which burned today.
