## KELP TO BECOME AN ENGINE OF WAR

Ritherto Worthless Product on Pacific Coast to Be Used in Making Powder for Guns.

COMPANY FOR MANUFACTURE

BAN FRANCISCO, Oct. 15 .- The kelp crop of the Pacific ocean is to be harvested by a powder company to obtain an ingredient used in making amunition for the warring nations of Europe, it was announced.

The statement is made that one of binding in white with decorations of red, the largest manufacturers of powder being significant of its contents. in the United States has decided to THE HOUSEKEEPER'S HANDROOK spend \$5,000,000 in this enterprise OF CLEANING. By Sarah J. McLeod. 246 pp. 31. Harper & Bros. in order to obtain the chloride of potash it needs to fill its war orders from Germany.

The difficulty has been to obtain the kelp in sufficient quantities and dirt. to handle it afterward. Kelp grows in long streamers that reach from the ocean bottom to the surface, being floated by Voc. 241 pp. \$1.50. Vita Publishing combottom to the surface, being floated by truit bulbs. But when the top of the kelp is reached, the long trunks are liable to sink to the bottom. Also, when the kelp is reaped, it tends, upon being exposed to the air, to become gluey and worthless.

George H. Markell, secretary and general manager of the Hercules Powder and enlighten whomsoever should read company, now in San Francisco, has, it is said, designed a submarine reaper, and contracts for an experimental reaper have already been let, to be completed to Reason. 180 pp. 60 cents. way as to destroy it, as it is the protection of spawning grounds. A trial off Monterey bay, it is announced, will be the fact that the Apocalyptic writings made under government supervision as soon as the submarine reaper is com-

Mr. Markell stated that chloride of potash has risen from a former general market price of \$35 a ton to well over

## New Books

Miscellancous.

TO ALL THE WORLD EXCEPT GER-MANY, 19 15 15 Well, 2d pp. George Allen & Unwin, Ltd. The author of this book, A. E. Stillwell, is better known in these parts as a captain of railroad industry, having been a promoter of the old Port Arthur route and later the Mexico & Orient line out of Kansas City. The volume he has produced is a breezy discussion of war topics from the standpoint of peace, although devoid of sympathy with the Germans, and, hence, addressed to everybody except inhabitants of Germany. The argument is condensed in the introduction, or, rather, the book is an elaboration of the introductory outline, "War is madness" is Stillwell's variation of Sherman's defipition. In his opinion Germany is the outlaw nation, and the ultimate solution world has ever seen supported by a world-wide peace army, and with an appeal to the religious instincts, to humaniturian instincts and to the pecketbook. He wants an international flag to protest sea commerce for all nations during time of war, and a court to settle international disputes, backed by a world potice strong enough to make nations observe acraps of paper.

THE STORY OF A PIONEER. By Dr. Anna H. Shaw. 257 pp. 12. Harper &

Dr. Shaw tells the atory of her life in its varied activities. She begins with her errical in America at the age of 4, and tells of the hardships and struggles on what was then the western frontier. As school teacher, preacher, lecturer, ordained minister, physician, worker among the poor, she attained to her different ambitions. Her account of her life work for suffrage, which occupies only a portion of this human document, is filled with incidents, picturesque and humorous. For the suffragiet, this book is the official record of the work of the last quarter century; and for the general reader, the story of an unusual, active American Komun.

PAD AND HIS FATHER. By F. Lauris-ton Eubert. 102 pp. 50 cents. Little, Brown & Co.

During President Lincoln's occupancy of the White House, his son, "Tad," as he was universally called, was probably the mest active figure within its walls, The child kept the household busy and required the president's daily help to straighten out the tangles he created. The bond between father and son was unusurily strung, and in his devotion to the child one gets a revolution of the depth of the president's tenderness and sympathy for all humanity.

THE NATURAL ORDER OF SPIRIT. By Lucien C. Graves, 385 pp. \$1.00. Sherman, French & Co. This book sets forth the life to come as revealed by paychical research and alms to rescue it from scientific, dogrefe and phartan project or ther endeavors to infuse something more of naturalness and homelikeness into our

WALLINGFORD in Motion Pictures Beginning Monday

You unquestionably will read tomorrow in this paper the first of the New Adventures of Wallingford. You have never come across anything more rollicking, more joyful and full of the spice of modern life!

Well, all that you will read has come to life. All Well, all that you will read has come to life. All that you will see has sprung into being,—Wallingford, Blackie Daw, Violet and Onion exist for you. They are coming to your theatre,—they are on the block from you. They are going to enact all that you will read and they are going to make you actually see all that you have seen in your imagination. Pathe has made the pictures and this serial is the successor to the "Exploits of Elaine" which you have loved and followed as long. loved and followed so long.

Charles W. Goddard, the dramatic author of the "Exploits of Elaine" has made these new motion pictures right from Chester's stories.

The new adventures of 4

But, who is to play Wallingford and who is to play Blackie Daw? This you must be thinking with much concern. There was only one man in all America who could play Wallingford and that is Burr McIntosh. It was Mr. McIntosh who Mr. Chester has always believed was the one man to bring Wallingford to life. There was no other man in the world who could so well handle Blackie Daw as Max Figman-so both of them have been procured and appear in this cast.

Playing Violet is Lolita Robertson, probably one of the most sincere actresses of the day who has so far entered motion pictures. Under the direction of the Wharton Bros., who directed "Elaine," the Wallingford series is assured of an artistic success.

With the Pathe name on the film there will be no question of the perfect picturizing. With the Count (4) course distributing the pictures, you may be sure that you will see them near
