## OVER HALF BILLION DOLLARS FOR NAVY

Official Estimates of Money to Be Spent in Next Five Years Made Public.

### TEN DREADNAUGHTS PLANNED

WASHINGTON, Oct. 19 .- Official estimates of the navy's part in the administration's billion - dollar national defense program were made public tonight by Secretary Dan'els. They show that within five years it is proposed to spend \$502,482,214 on construction of new ships, development of air craft and creation of a huge reserve of ammunition and guns for the navy. 1/2

The five-year building program contemplates construction of ten dreadnaughts, six battle cruisers, ten scout cruisers, fifty destroyers, fifteen seagoing submarines, eightyfive coast defense submarines, four gunboats, one hospital ship, two ammunition ships, two fuel oil ships and one repair ship. The last of these vessels will be built and in commission late in 1924.

### Money for Aviation.

On naval aviation it is proposed to expend \$8,000,000 during the five years, and on reserve munitions \$25,000,000. These figures, with the addition of \$65,518,127 for completion of ships already authors ised or now under construction make up the total of more than \$500,000,000 to be expended upon the navy in addition to the regular budget, which approximates \$100,000,000 B, Year.

Secretary Daniels will recommend this winter the addition to the navy of 7,500 blusjackets, 2,500 apprentices and 1,00 ma-rines, a total of 11,500 men. With this addition to personnel it is estimated that all battleships not more than fifteen years destroyers and automarines built within (weive years, half of the cruisers and all of the gunboats and necessary fleet auxiliaries can be manned, and an adequate reserve be maintained for veson the reserve list.

To officer the additional force of marines the secretary will recommend appointment of two brigadier colonels, two tenant colonels, six majors, one colonel, an assistant quartermaster, fourteen captains, fourteen first lieutenants, thirteen second Beutenants and twenty-two

Will alive More Middles. Additional naval officers will be obtained by increasing the number of midshipment at the academy at Annapolla by not less than 160 men.

For the aviation corps Secretary Dan- have driven back the invaders, els will recommend a special service to which civillan aviators can be appointed,

The 1917 naval estimates to be presented 005,000 will be for new construction, \$5,000.- out by the war office this afternoon over for munitions reserve, \$2,000,000 for The text of the communication follows: ental expenses.

# ALLIES IN SERIOUS CASE ON PENINSULA

All Ground They Hold is that Commanded by Guns of Their Warships.

SUFFERING AMONG SOLDIERS

The following letter from an Associated Press correspondent at the Dardanelles front is of interest in view of the assertion of Lord Milner in the House of Lords last week that the British campaign on the Gallipoli peninsula had been a failure. There have been no changes of great importance since the letter was written.

CONSTANTINOPLE Sept. 1 .- The Gallipoli peninsula can hardly be described as a promising one. Such ent during an eight days' stay in the war arena in question.

The factors upon which this conclusion is based are a thorough inspection of the Turkish and allied trenches and artillery positions and the statements of Turkish officers and allied prisoners of

Result of Four Actions.

What is perhaps of more importance is the result of four major military actions which occurred while the correspondent was on this front. They consisted of an attack by the allies on a Turkish position north of Kodjatchemen Dagh on the afternoon of August 20, an assault on Turkish trenches in the same general locality on the same night and two attacks on Anafarta on August 26 and 27, In each instance the ailies were driven back with heavy losses. No permanent

advantages were gained by them. The losses of the Turks were by no means light in any of these operations, but the allies, acting on the offensive suffered heavily. Their losses for the four actions are estimated at 11,000 to 13,000 dead and double that number of

The ground held by the allies was that part of the coast region which could be commanded by their naval artillery.

Thus far the allies have landed in the Anafarta region about 115,000 men, a large part of which force already has been used It is safe to say that they are today opposed by about 135,000 Turks who TO THE APE MAN are actually entrenched, with about 80,000 in reserve

Advantages with Turks. Every advantage of terrain is held by

the Turks, whose trenches are located on in the month near the latter's home and higher ground than those of the ailies. robbed of \$35. Here again insulting and With important positions lost the allies today hold themselves in the Anafarta region solely by virtue of an immense The victims of these robberies will be closely questioned as to incidents of the artillery fire superiority. Without the holdups and asked to report their de- support of some forty line ships, cruisers and torpedo boats they would be thrown scription of the man who robbed them. into the sea.

There have been moments, however, when the Turkish troops in the Anafarta district have been hard pressed. 'An attack made by the allies on August 26 and 27 in the direction of Kiretch Tope ended in terrible slaughters of British troops, some 2,800 dead being counted on

British prisoners assert that their posi-Miss Slater spent many minutes scru- tion is a most trying one. Water is extremely scarce in the Anafarta region, Edward J. Malone was also called to and it is said only one well is in the hands the station to look over the suspects, of the British. The result is that water with a view to his being able to iden-tify one as the bandit that held up the Imbros and even from Saloniki. One half card party at the home of William T. pint of water at noon is the only allowance of this necessity, prisoners state, when Malone was among those at the that is given.

must be added the great heat and ever

It cannot be said that the troops re cently brought to the peninsula are first-class material. Many of the men are too young to endure the hardships of such a

The correspondent witnessed the total annihilation of a British company which had penetrated a Turkish trench, but was destroyed because its flank was left uncovered. Whether this was due to the impulsiveness of the men or the negligence of others could not be learned.

Inactive Three Weeks,

When the Associated Frees correspon dent left the Gallipoli peninsula after an eight-day stay on the front, the ailled have been the Kilia and Akbach bays, troops at Seddul Bahr, on the tip of the peninsula, had been inactive for more than three weeks. Their position was no more favorable than that of their comrades in the Anafarta region.

Field Marshal Liman von Sanders, the German officer in command of the Turkish forces, gave his idea of the general situation as follows:

"I am too old to be an optimist, but I believe-I am absolutely confident-that position of the allied troops on the unless something extraordinary occurs, Anafarta-Ari-Burnu front of the we shall hold the allies where they are." The field marshal is 65 years old.

So far as concerns the ailled forces at Seddul Bahr, it apparently has been demat least was the impression gained onstrated that it is next to impossible by The Associated Press correspond- for them to advance, with operations conducted within the range of reasonable and permissible sacrifices of men. In other words, it is still possible to dislodge the Turks, but to do so would cause too great a loss to the allies. On have used every means to better their and wholesome and their water supply is bruised supple. are small, the Turks have dug hundreds of kilometers of fire line and communicating trenches.

> Turks Take No Chances. El Jid Tepe, in the Seddul Bahr region, has been the objective of the allies.

Heavy guns stationed on its summit, they argued, could easily hit the forts at Tchanak Kale and Kilid Bahr. A sur-

vey of the ground, however, raises a se rious question whether this theory is correct. The Turks, however, took no chances and defended the elevation suc-

The landing at Art Burnu, in the northern sone, had a twofold purpose. It was the time to threaten the rear of the Turkish forces at Seddul Bahr and also to place the Kodiatchemen Dagh at the disposal of the heavy allied batteries. From the Kodjatchemen Dagh the works at Killd Bahr and Tchanak Kale could have been bombarded effectively, as could now serving as supply bases for the Turkish troops

Kodjatchemen Dagh was occupied by the British, but lost again. Kiretch Tpe was to serve as a flank position against too, was retaken by the Turks. From a strictly military point of view, political dition today than they were on April 26, into Mexico. when the first landing took place.

They Wear Slippers.

The Turks in the Anafarta region for the greater part are Anatolian peasants, sturdy, tough, inured to every hardship of war and plagued by the nerves of their higher the state of their higher strung antagonists. Many of them are clad in rags, not a few are armed with single-shot rifles and most of them wear slippers instead of shoes.
