ALL-STARS ARE PUT OUT BY B. JOHNSON

Head of American League Makes Himself Unpopular with Players Making Tour to Coast.

SAYS AMERICAN TEAM IS JOKE

If one Byron Bancroft Johnson, the genial head of the American league, who finds great pleasure in line by breaking up the Federal league at regular intervals, only knew what certain ball players on the All-Star teams which played in Omaha Sunday, another hot row would start in the junior loop.

For he it remembered just before the tour started Byron Bancroft announced that no more tours would be held, that this one would be stopped by the National Commission if everything didn't go to suit him and that the American league team was a joke. This cut into the business at Oshkosh, St. Paul and Minneapolis and as a result the athletes are quite peevish at the American circuit executive.

"If Johnson says this team is a joke," said one player, "what does he think Connie Mack's team was in the championship race? A couple of jokes?"

"And he should have seen how these American league punks are hitting the ball," put in Johnny Evers. "They're knocking the cover off it. A joke team is good."

Omaha Columbians Fail to Defeat the Dunlap, Ia., Team

DUNLAP, Ia., Oct. 25.—(Special.)—The Omaha Columbians, champions of Omaha, came here Sunday expecting to wipe the village foot ball manipulators off the map, but were sadly disappointed, as the heat they could do was to play a tie game, score 6 to 6. The Omaha lads claimed the game by an 8 to 4 score on account of scoring a safety. These two points the Dunlap umpire wouldn't allow, but the referee, Marty Flanagan, the star Creighton halfback, said the safety was legal. Here is the play: In the third quarter, immediately after the Dunlap lads had scored a touchdown, Quigley kicked off and the oval dropped a few yards in front of the goal posts, touching the fullback. He made an attempt to get the ball and touched it, but the ball evaded his grasp and bounded over the goal line. He recovered the pigskin and was tackled over the goal line. The contest was a thrilling exhibition of foot ball from the start to the finish. The teams were evenly matched in weight and speed. In the first quarter the Dunlap boys outplayed the Omaha aggregation, but during the balance of the game the Columbians looked the best. Before the Columbians woke up the Dunlap boys had six points to their credit. In the third quarter Dunlap intercepted forward pass and dashed fifteen yards, evading several Dunlap gents and scored a touchdown. Quigley and McCormick were the best ground gainers for the Omaha boys, while Reichelt, the husky fullback, and Moore, the quarterback, both university men, starred for the home boys.

The match was held in the Thayer County Agricultural building and was largely attended. In the afternoon the Oshkosh Auto Polo company defeated the Belleville company, 11 to 6.

RELIEF FOR SERBIA OBJECT OF ALLIES

Defensive Positions in Mountains May Save Them Until Assistance Arrives.

GERMANS GAINING CHIEF AIM

LONDON, Oct. 25.—While the Austro-German and Bulgarian campaigns in northern and eastern Serbia are being carried out as planned, despite fierce Serbian resistance and the Bulgarians who crossed the Timok and hold the towns of Prahovo are separated from the Germans who crossed the Danube near Orsova by only a few miles in the south, things are not going so well for the invaders in the latter region. The trench troops have joined hands with the Serbs and, according to French accounts, have inflicted a severe defeat on the Bulgarians at Krivoiak, forty miles north of the point where the Saloniki-Nish railway crosses the Serb-Greek frontier.

This success places the Bulgarians who reached Jidip, Veles and Uskup, in rather an awkward position, for a further advance of the allied army would seriously threaten their flank. In fact, unofficial reports state that the advance of the French, who are being closely followed by the British, has already caused the retirement of the Bulgarians to Strumitsa.

The first desire of the German emperor, however, is to open a route through northeastern Serbia and Bulgaria to Turkey, and this is on the eve of being accomplished.

Serbia to Be Assisted.

On the other hand, military writers here do not believe that the position of Serbia is so desperate as has been painted. It is serious, of course, but they point out that the Serbians have many natural defensive positions in the mountains in which they can hold out for weeks; that with the British, French and other members of the quadruple powers carrying out their determination to help Serbia by rushing reinforcements to Saloniki and other points, the Bulgars will meet an extremely warm reception and that the German and Turkish being fully occupied elsewhere, will not be able to send them much help.

British correspondents in France have just disclosed the fact made known to them by the British staff that even after the Anglo-French offensive in September the Germans had the greatest difficulty in securing new reinforcements to meet the advance and had to rely upon men just returned from Russia to rest to fill the gaps in the western army.

Italians on Offensive. The Italians by their offensive are compelling the Austrians to strengthen their lines and the French by the capture today of a strongly fortified salient north of Le Mesnil, in Champagne, have shown that they have not yet finished their effort to break through. The French success is considered important, because the capture of this fortified area clears the ground for another general offensive in Champagne.

For the same reason, the British are trying to force the Germans out of the redoubts and from the slag heaps to the south of La Bassée. These, however, are only preparatory operations.

The Italians are in the midst of a great offensive which has already gained for them many valuable vantage points, and according to Rome dispatches, may any day place them in possession of the fortress of Gorizia.

Russians Fighting Battles. The Russians are fighting pitched battles in the Riga and Dvinsk regions in an effort to retake the ground won from them by Field Marshal von Hindenburg last week. The Russian attacks south-east of Riga have been repulsed, according to the Germans, as were those undertaken northwest of Dvinsk. The German forces, however, which crossed the Dniester, north of the town of that name, withdrew in the face of a superior Russian army.

It is also claimed by the Germans that Russian attacks in the lake district south of Dvinsk were repulsed and that the Austrians have broken through the Russian lines over a front of more than four kilometers (two and one-half miles) west of Komarovo.

Townsend and City Elevens Keep Lead In Soccer League

Both the Townsends, who are leading the loop, and the Omaha City eleven which is trailing close behind, won their matches in the Omaha Soccer league Sunday. The Townsends defeated the Bohemians at Miller park, 3 to 0, and the Omaha City defeated the Congregationalists, 2 to 1, at Carter lake.

The latter event was a fast, snappy game that nearly ended in a draw. In the last minute of play Lowden missed a penalty shot for the Congregationalists when the ball struck the underside of the crossbar, Tyrell clearing as it descended. McGuire counted both goals for the City team. Anderson made the score for the Scots with a splendid long shot.

Brix was the bright light for the Townsends. He shot all three goals for his eleven and many times during the game was only thwarted by the remarkable goal keeping of Fehal, who is proving a veritable demon between the posts for the Czechs eleven.

Morehead Still Is Supposed to Be Out After U. S. Senator

(From a Staff Correspondent.)

LINCOLN, Oct. 25.—(Special.)—Again the story comes that Governor Morehead is looking sidewise toward the democratic nomination for congress in the First Nebraska district.

To some the rumor meets with considerable favor. Friends of Senator Hitchcock have been very anxious to switch the governor from the senatorial race and while there is nothing very reliable to indicate the movement along those lines has been successful, still in the present deplorable condition of the old democratic battalions, most any kind of a deal which might satisfy everybody might be pulled off.

At first special representatives of the senior senator tried to switch sentiment in favor of the governor for the democratic nomination for the vice presidency. This did not pan out very well for managers of the governor's political future desired the national senate as the next step for the governor and would listen to nothing else. Then came along the proposal of a third-term for Governor Morehead. This was somewhat scurred by the fight the executive got into with State Treasurer Hall and now it appears that a seat in congress is the prize which is being dangled before the eyes of the governor by the political seers who are praying for harmonious and have no idea how it may be brought about.

With so many good men in the race for the republican nomination for governor might few democrats care to take a chance. With the strong sentiment in favor of Congressman Reavis for a second term, even though so far he has had no chance to show what he can do because there has been no session of congress since he was elected, many democrats are shying at the chance to run against the Falls City man and it is not thought that the governor will care to sacrifice himself by bucking up against Reavis, so it is reasonable to suppose that the governor is still being groomed for the race at the primary for the shoes worn now by the Omaha senator.

In fact, friends of the executive will listen to nothing short of the democratic nomination for the senate for the governor and deny that anything else will be listened to.

Congregationalists May Oppose Wilson Military Program

NEW HAVEN, Conn., Oct. 25.—A resolution to place the National Council of Congregational Churches on record against increased armaments in the United States was presented at today's session by the business committee on behalf of Rev. Dr. Charles E. Jefferson of Broadway Tabernacle, New York City.

Moderator K. M. Beardsley of Kansas City offered an amendment which in effect would ask all churches in the country without regard to creed to join in a movement against militarism and increased armaments and toward a path which would bring an early peace in Europe.

The resolution and amendment will be acted upon late today. The Jefferson resolution in part follows:

"Resolved, That we view with painful solicitude the organized and desperate efforts to stampede the nation at this time with will and extravagant expenditures for ships and guns, and place upon record now our earnest objection to the committing of our nation just now to a policy of so-called preparedness, for which Europe is now paying an appalling price."

"We appeal to the president and to the members of congress now to assemble to bend the energy of our government not to the elaboration of the machinery of destruction, but to the working out in cooperation with other governments of a plan of international organization which shall render the recurrence of the present world tragedy impossible."

Citizens and business men here appealed to the city council today to place the vagrancy law in effect and arrest every person having no visible means of support.

BRITAIN DROPS PART OF DECLARATION OF LONDON

In lieu of this article British prize courts henceforth will apply the rules and principles formerly observed by them.

The reason given in the order for this change is that "it is no longer expedient to adopt said article."
