

### GERMANS MAKING GAINS IN RUSSIA

Official Report from Berlin Tells of Defeat of Attacks by Czar's Troops in Three Sectors.

#### VON LINSINGEN TAKES RUDKA

BERLIN, Oct. 28.—(By Wireless to Sayville.)—Repulse of Russian attacks in the Dvinsk region and near the central part of the line in the east, as well as a success for General Von Linsingen's troops in the southern sector, are recorded in today's official statement by German army headquarters.

Field Marshal von Hindenburg's army has repulsed Russian attacks made against the positions recently taken by the Germans northeast of Gorbunovka, in the Dvinsk sector, and German troops again have occupied the cemetery of Ssanally, in this region, evacuation of which was reported yesterday. Two officers and 150 men were taken prisoners. The failure of a strong attack by the Russians against troops of the army of Prince Leopold of Bavaria near Tcherzy is announced.

General von Linsingen's army in the southern sector has captured Rudka, to the west of Casortysk.

#### Outpost Fights in France.

PARIS, Oct. 28.—The official communication given out by the French war office this afternoon is as follows:

"There have been reported last night nothing more than some outpost engagements and reconnaissances of small importance, which everywhere resulted in our favor."

### Recruiting in Great Britain is Given Impetus

LONDON, Oct. 28.—There has been a great increase in recruiting throughout the country during the past week, according to a number of newspapers. The Manchester Guardian says recruiting is now going on at a higher rate than any reached since the early months of the war. King George's proclamation and the execution of Miss Edith Cavell in Belgium both having been the cause of bringing many into the ranks. The increase, it is noted, is despite the fact that Lord Derby's scheme for calling men by sections, drawing first the unmarried and those not engaged in work connected with the military production, has not yet been put into operation. Manchester and Birmingham are included among the centers showing the best result.

One of the chief obstacles confronting the authorities is the attitude of many employers, who, instead of urging their men to join the colors, are only refusing to grant them allowances, as was done in the earlier stages of the war, but will not guarantee that employees who enlist shall be reinstated in their positions on their return. This matter is being investigated by labor leaders, who probably will make a report to Lord Derby. Arthur Henderson, president of the board of education, has addressed a circular appeal to teachers throughout the country urging all those who can to enlist.

### Hibbs in an Auto Collision Enroute Home from Lincoln

While returning from Lincoln yesterday afternoon in his automobile, F. L. Hibbs, manager of the National Printing company, about seven miles out, collided head-on with the car driven by F. H. Hartsock. Hibbs' car was badly damaged, but he was not injured. Mr. Hartsock, however, was through as fortunate. He was thrown off through space, sustaining several cuts and a number of serious bruises about the head and body.

At the time the cars met, they were passing through a dense smoke coming from a fire along the Burlington track, where section men were burning the grass. The Hibbs' car was being driven at a speed of about eight, and the Hartsock car, fifteen miles per hour.

### HEADLESS BODY OF GIRL FOUND ON RAILROAD

PITTSBURGH, Oct. 28.—The headless body of Miss Sophia McCallin, daughter of the late William C. McCallin, former mayor of Pittsburgh, was found late last night on the Pennsylvania railroad tracks at Roup, a passenger station within the city limits. The body was so badly crushed that identification was impossible until this morning, when her absence from the office of E. S. Morrow, city comptroller, whose secretary she was, started an inquiry. Identification was established by a diamond pin bearing her name. The circumstances leading to her death are unknown.

### How To Make the Quickest, Simplest Cough Remedy

Much Better than the Ready-Made Kind and You Save 25c Fully Guaranteed

This home-made cough syrup is now used in more homes than any other cough remedy. Its promptness, ease and certainty in conquering distressing coughs, chest and throat colds, is really remarkable. You can actually feel the relief. A day's use will usually overcome the ordinary cough—relieves even whooping cough quickly. Splendid, too, for bronchitis, spasmodic croup, bronchial asthma and winter cough.

Get from any druggist 2 1/2 ounces of Pinex (50 cents worth), pour it in a pint bottle and fill the balance with granulated sugar syrup. This gives you a cost of only 34 cents—a full pint of better cough syrup than you could buy for \$2.50. Takes but a few minutes to prepare. Full directions with Pinex. Tastes good and never spoils.

You will be pleasantly surprised how quickly it loosens dry, tickle or tight coughs, and breaks up inflamed membranes in a painful cough. It also stops the formation of phlegm in the throat and bronchial tubes, thus ending the persistent loose cough.

### SUSPECTS IN GERMAN BOMB CONSPIRACY—The picture also shows some of the bomb-making materials found in the room of Robert Fay, who, with Walter L. Scholz and Paul Daeché, is under arrest for conspiracy to blow up munition ships leaving New York and factories making munitions for the allies.

BOMB MATERIAL FOUND IN FAY'S ROOM. ASSET—ROBERT FAY, WALTER L. SCHOLZ & PAUL DAECHE.

### STATE BANKERS NAME MURRAY AS NEW PRESIDENT

(Continued from Page One.)

Last four years not a bank robbery of note has taken place in the state. The committee has had reported to it seventy-eight cases of swindling and forgery. It has caught and prosecuted thirteen forgers and swindlers, and has paid five rewards of \$10 each in the year. It has printed fifty-two warnings and given them general distribution and has furnished pictures of culprits to various police and detective agencies. One-half of the income of the committee has been expended on this work in the year. A ten-minute session of the American Bankers' association was held during the morning, when the Nebraska officers of this national organization were elected. O. T. Eastman was elected vice president; Jesse C. McNish of Winnebago was elected member of the executive council; J. T. May of Fremont was elected member of the nominating committee, and R. H. Burnham of Lincoln alternate member of the same committee; Dr. P. L. Hall of Lincoln was elected as a member of the new section of the national body created last year. T. L. Matthews of Fremont presided over this brief meeting and C. E. Smith of Tilden acted as secretary.

#### Committees Are Named.

The auditing committee, resolutions committee and nominating committee of the state association were announced at the morning meeting as follows: Auditing—C. A. Minick, Crawford; J. L. Willis, Dalton; H. D. Wilson, Nebraska City. Resolutions—Dr. P. L. Hall, Lincoln; C. E. V. Smith, Beaver City; H. G. Meyer, J. N. Trammerhauser, Ewing; W. A. George, Broken Bow; H. M. Childs, York.

Nominations—F. R. Draper, Fred Yoip, Berthier; W. A. Taylor, Hastings; T. H. Boyles, J. P. O'Donnell, W. H. McDonald, North Platte.

The big banquet of the association is to take place at the Fontenelle this evening at 7:30. Henry D. Estabrook of New York and Rev. Willard Scott of Brookline, Mass., are the speakers.

### Bookkeeper Held in Connection With Employer's Death

CHICAGO, Oct. 28.—Leonard C. Buck, a bookkeeper employed by the brokerage firm of which Franklin R. Voorhees was the head, was held by the police today to be questioned regarding the slaying of the broker, who was shot to death as he was entering his home last Saturday night. A woman whom Buck said was his wife also was detained. The arrests were the first made in the puzzling case since Voorhees was found shot in front of his home in a fashionable residence section. Aside from the report that he was a victim of a war plot because of his activities in purchasing munitions of war for the allies, the single clue on which the police had to work was a missing diamond, which had been snatched from the victim's grasp.

Detective Burns reported that while Buck stoutly disclaimed any connection with the murder he admitted having defrauded Voorhees out of about \$1,200 by raising checks.

### Bishop J. H. Thien Speaks at Denver

DENVER, Oct. 28.—The consecration of Father A. J. Schuler as bishop of the Roman Catholic diocese of El Paso, Tex., was celebrated here today. Archbishop J. R. Pitaval of Santa Fe officiated, assisted by Bishop Henry Granlan and Bishop Patrick A. McDevitt.

Many distinguished bishops and laymen of the Catholic church in the west witnessed the ceremonies, which took place at the immaculate Conception cathedral. Among addresses delivered were those by Right Rev. Henry J. Thien on "Our Holy Father, the Pope," Right Rev. J. F. Glass, "Our Country," and a sermon on "The Episcopacy," by Father William O'Ryan.

Following the consecration Bishop Schuler spoke. A banquet which will close the ceremonies is to be held tonight. After a few days' visit in Denver with friends among the clergy, Bishop Schuler will leave with his palatial commission for El Paso.

### IRON AND STEEL IN MIDST BIG REVIVAL

Every Blast Furnace in United States Working Day and Night to Its Capacity.

#### PRICES ADVANCE ONE-THIRD

NEW YORK, Oct. 28.—So great has been the general revival in the iron and steel trade of the United States, it was said by authorities today, that with virtually every blast furnace and steel-mill in the country working night and day to capacity, the demand for iron, steel and steel products cannot be satisfied, and it is today almost impossible to buy, for immediate delivery, pig iron, scrap and ingots in sizable quantities at industrial plants in the country.

Within three months, the price of pig iron, long regarded as the barometer of trade, has increased approximately 35 per cent, and that of steel and steel products (except steel rails), has gone up about 15 per cent.

"At the present time the demand for pig iron and for the various lines of steel is in excess of the producing capacity of the furnaces and mills of the United States," reads a statement issued today by Judge Elbert H. Gary, chairman of the United States Steel corporation. "The manufacturers are unable to make deliveries entirely satisfactory to the purchasers with respect to a large majority of the different kinds of finished steel."

"There is nothing to indicate that there will be decrease in the demand for any of these products for some time. While prices received are still low, they have been and are increasing, and, apparently will go higher, so that fair and reasonable profits may be expected."

"Of course, these very satisfactory conditions are more or less affected by the war business, recalled, yet it is undoubtedly true that there is a better feeling throughout the general iron and steel trade than has been experienced for some years past."

Experts who have followed the rising fortunes of iron and steel within the last twelve months, asserted today that the volume of business, both domestic and foreign, at present is more than double what it was a year ago, and that there are today 35,000 men employed at iron and steel plants throughout the United States who were not on the pay-rolls a year ago. This is about a 50 per cent increase.

The fires have been lighted in virtually every blast furnace in the United States. In the case of the steel corporation the last remaining idle furnace, at Columbus, O., is now being put into operation.

Steel and steel products are rolling out of the mills today at the rate of 50,000,000 tons a year, it is conservatively estimated, and iron is being manufactured at the rate of 40,000,000 tons.

Railroad Places Big Order. PHILADELPHIA, Oct. 28.—Orders for 175,000 tons of steel rails were placed by the Pennsylvania Railroad company today. Those rails cover the 1916 requirements of the road.

In addition, an order was placed with the Baldwin Locomotive works for the construction of seventy-five freight locomotives for immediate delivery.

### Producers Meet With Consumers

CHICAGO, Oct. 28.—The first national conference of producers and consumers, organized for the purpose of eliminating the middleman and his profits, was held here today. Delegates are present representing the American Society of Equity, the Farmers' Educational Co-Operative union, the Farmers' Equity union, the Glensires, the American Federation of Labor and the Patrons of Husbandry.

Arthur L. Sauer, vice president of the People's college of Fort Scott, Kan., explained that the first step of the plan must be the affiliation of the farmers and workmen. After that, he said, would be municipal markets and producers stores where the middleman's profits would be eliminated.

Department Orders. WASHINGTON, Oct. 28.—(Special Telegram.)—Michael D. Kelly was appointed postmaster at Harpers Ferry, Allegany county, Pa., vice Miss Rita G. Collins, resigned.

The contract for carrying the mail from Canton to Mt. Spies has been awarded to W. H. Huston of Mud Spring. City service examination will be held on November 17 for rural letter carriers at Stapleton and Sutton, Neb.

### Sunken Submarine Wil Not Be Repaired

WASHINGTON, Oct. 28.—Submarine F-4, in which twenty-one officers and men of the navy lost their lives last March at Honolulu, will not be repaired. Navy officials said today the vessel's injuries were so extensive that it was not considered practical to repair and refit the boat.

The other three boats of the "F" class will be towed to San Francisco for refitting, and have already been taken out of commission until this is done. Congress will be asked this winter to provide for new engines and batteries for the boats, as the present equipment is unsatisfactory.

The report of the board of officers which examined the F-4 has been sent to all submarine commanders in the navy in order that they may be warned to watch for signs of conditions such as those which resulted in the loss of the F-4.

Use The Bee's "Swapper" column.

### Nebraska Wheat is Moving to the Gulf

With Omaha wheat receipts running around 100 carloads per day, the elevators are not filling up, due to the fact that almost as soon as the grain arrives it is blended, loaded out and sent on. The result of this is that the quantity of wheat in storage in Omaha continues to be at the lowest point since the city became a grain market.

For the last thirty days, and as a matter of fact, ever since the German submarines have discontinued attacking ocean-going steamers the export grain business out of Omaha has been the heaviest in the history of the market. At this time practically all the wheat coming into Omaha goes to the south and is sent abroad by way of the Gulf of Mexico.

The man who believes in signs knows that it is time to purchase that winter overcoat.

Ward off winter's chilly attack with a stylish coat that will also ward off criticism.

We have a line of wonderful coats at wonder-prices.

Don't wonder about it—come in and see them.

### AMERICA'S PROTEST ON WAY TO LONDON

Long-Considered Objection to British Interference with U. S. Commerce Sent Sunday.

#### BRYAN'S ADVICE NOT FOLLOWED

WASHINGTON, Oct. 28.—America's long-considered protest against British interference with commerce between the United States and Europe has been dispatched to London by special messenger and will be presented by Ambassador Page at the British foreign office next week.

It became known today that the note, which is about 10,000 words long and covers exhaustively the argument of the American government on all phases of interference with neutral trade, was approved by the

president last Saturday and started on its way to London, Sunday.

Alexander W. Kirk, third secretary of the American embassy at Berlin, who had returned to Washington, carrying documents from Ambassador Gerard, was entrusted with the mission on his return journey to Berlin.

### New Jersey Central is Ordered to Sell Its Coal Holdings

PHILADELPHIA, Oct. 28.—The United States district court today decreed that the ownership of the Lehigh and Wilkesbarre Coal company by the Central Railroad company of New Jersey is a combination in restraint of trade and that the Central company must dispose of its interest in that concern.

The decree filed today is on the decision of the court last June in the government's anti-trust suit against the Lehigh and Wilkesbarre Coal company. The court at that time suggested that the Lehigh & Wilkesbarre company be divorced from the Jersey Central.

### Cotton Prices Break Sharply

NEW YORK, Oct. 28.—There was a sharp break in the cotton market here today, with January contracts declining to 11.85c, or more than 11.50 a bale, under the closing figures of last night and fully 25.75 a bale below the high record of the season. Selling was general and more or less excited owing to the unsettled condition of politics abroad, which seemed to increase the nervousness of the trade over export prospects.

### GERMAN RACING YACHTS CONDEMNED AS PRIZES

LONDON, Oct. 28.—The racing yacht Germania, which on two occasions won Emperor Williams' cup at Cowes, was condemned in prize court today as a prize of war. The Germania, which was captured at Cowes at the outbreak of the war was the property of Lieutenant Dr. Gustav Von Bohlen Und Halbach, head of the Krupp works. Three other German yachts captured at Cowes, the Isaca II, Stella Maria and Paula III also were condemned.
