

FRENCH THREATEN CITY OF STRUMITZA

Successes in Vicinity of Veles Said to Have Placed Bulgarians on the Defensive.

BATTLE EXPECTED NEAR ISTIP

LONDON, Oct. 29.—(Special.)—The Athens correspondent learns from Serbian sources that the French operating in the Strumitza region have occupied the heights of Valandovo, Radnava and Tartar Lisofre. These heights dominate Strumitza, which is not expected to hold out much longer against the French attack.

There is no recent news in Athens from the northern Serb front. It is reported that Turkey is about to rescind its decree for the confiscation of the property of belligerents owing to a threat of the entente powers to confiscate German property in belligerent countries.

Bulgarians on Defensive. PARIS, Oct. 29.—The correspondent of the Havas News agency at Athens telegraphs under Thursday's date that the aspect of operations on the Serbian front is changing since the French successes at Veles and Strumitza. The Bulgarians, he says, are on the defensive northward along the Nish railroad.

A big battle is expected in the neighborhood of Istip, toward which the Franco-Serbian army is marching. The Bulgarians are entrenching themselves on the heights around the town.

According to dispatches received by Athens newspapers, the Bulgarians operating in the valley of the lower Timok, between Grahvo and Strumitza, have been cut off and annihilated.

Advices from Sofia say that a meeting of military parties called to protest against the bombardment of Dodegatch and Porto Lagos ended in disturbances, during which subjects of the entente powers were severely handled.

At Burgas and Stars Zagora, there was a demonstration by Bulgarian women against the war, the women crying, "Give us back our men. We want bread." Police who interceded were received with showers of stones, and troops had to be summoned before order was restored.

A dispatch from Saloniki says that a Bulgarian column moving toward Kallitnik and Mitrovitza is seeking to join hands with the Austrians, who have crossed the Drina.

News from Constantinople, said to be authoritative, says that the anti-German movement is growing daily and that Ahmed Risa, leader of the young Turk party, who wished to interpellate the government regarding Turkey's reasons for entering the war, was not permitted to do so. The government has forbidden senators and deputies to discuss Turkish foreign policy.

Fresh Armenian massacres are reported in the region of Orfa.

Roumania Massing Troops. PARIS, Oct. 29.—The Saloniki correspondent to the Petit Journal learns from an official source that Roumania has mobilized 50,000 men, of whom 20,000 are concentrated on the Bulgarian frontier and the rest on the Austrian frontier, where impregnable defenses have been constructed.

Crowd Watches Death Duel in Air CLEVELAND, O., Oct. 29.—A horrified crowd today saw a death duel sixty feet in the air on an arch of the new high-level bridge over the Cuyahoga river, in which Frank Wright, storekeeper for bridge contractors, was killed by a fellow workman with an iron bar. The killing was witnessed by Wright's wife, who was making her way up to him with his lunch. Police have arrested Jack Brown, in connection with the crime.

The killing was preceded by a grim struggle, in which the two men wrestled back and forth on the arch, and both came near to falling into the river several times.

After Wright had been slain, the assailant jumped from platform to platform until he reached the ground and then fled.

Geneva Man Run Over by Auto. GENEVA, Neb., Oct. 29.—(Special.)—Jack Smith while riding into town in an automobile Thursday evening attempted to alight before the car stopped and fell cutting his head and face on the car and the car passing over him bruising him quite badly. He was picked up unconscious, but recovered later.

DRESS OF WOMEN BAD FOR CHILDREN

Minister Says He Must Guard His Eyes as He Walks Along the Streets.

LEARN ABOUT ST. ANDREW

"The present manner of dressing by women is one of the causes of child delinquency," declared Rev. F. C. Smith of Durango, Colo., in an address before the Episcopal synod of the Province of the Northwest yesterday afternoon. "I do not refer to the demi-mondaine, but to respectable women. I find that as I walk along the streets, I must guard my eyes because of the dress of women. And if it has this effect on grown men, can you not imagine the effect it must have on the growing boy, with the devil tugging at his heart and hell will not yet formed?"

Rev. Mr. Smith mentioned also heredity and the lack of means for the expression of child activity as two large causes contributing to child delinquency.

Bishop Beecher presided at the conference, which had as its subject "Social Service."

"Social service in the church today has become too much of a mechanical matter," he declared. "We give a beggar a dime or pass out a bowl of soup to the hungry or send a ton of coal to the poor family in the tenement. We pass the conductor on the street car and the clerk in the department store. We don't know who they are, nor care. They are only human dummies to us. We lack the personal touch."

"We need to get acquainted with them in our daily walks, to interest ourselves in their welfare, to help them in their problems."

He related incidents in connection with the establishment by him of a rest and lunch room for the use of working girls in the parish house.

G. O. Hoock spoke on "Industrial Justice and the Unemployed."

"Community Service and Parish House Problems" was discussed by Rev. J. A. Schrag of St. Paul, Minn., and Rev. J. P. Anshuts of Billings, Mont.

Training of Workers. Rev. J. S. Gley of Missoula, Mont., addressed the conference on "Training of Workers."

NO MORE OF NEAR-DRINKS

District Judge at Des Moines Announces Doz of So-Called Dry Drinks.

TEN DRUGGISTS ARE FINED

DES MOINES, Ia., Oct. 29.—(Special.)—District Judge Hubert Uterback today announced the doom of the so-called temperance drinks in Des Moines.

The court today fined ten druggists, all of whom were charged with contempt of court in that they have sold malt drinks or cider since being enjoined from selling intoxicating liquors. Some of the contempt defendants were enjoined as long as six years ago from selling liquors.

The court held that beverage is an intoxicating beverage. The drink, according to Prof. C. N. Kinney, chemist, contains about one-half of 1 per cent of alcohol. By weight, the chemist said, the beverage contains on final analysis .58 per cent alcohol. By volume the percent is .95, the professor, who was a witness in each case, testified.

Liquor Fines Cut.

The board of Supervisors of Story county as plaintiffs and Fred E. Hansen, county attorney, as defendant, were the principals in a test case tried by Judge Wright at Boone recently. In that case the county attorney's attorneys are not entitled to 10 per cent commission of the fines collected in liquor cases and ordered Hansen to refund to the county treasurer the sum of \$81, which the court holds was not due him as his commission. The court held that in contempt and equity cases the attorneys are not entitled to 10 per cent but convictions in criminal action entitle him to 10 per cent of the first \$500, 5 per cent of the next \$500, and 1 per cent of all over \$1,000. An appeal may probably be taken to the supreme court in order that a definite ruling may be obtained.

Gets Watch Stolen Years Ago.

Eighteen years ago sixty-three watches were stolen from the jewelry store of P. C. Peyton in West Liberty. A few days ago a farmer brought in a watch to be repaired which Mr. Peyton recognized as one of the number stolen from him years before. This particular watch

WATCH SORE THROATS

because swollen glands or inflamed membranes often affect other tissues and lung trouble easily follows.

As Nature's corrector of throat troubles the pure cod liver oil in Scott's Emulsion is speedily converted into germ-resisting tissue; its tested glycerine is curative and healing, while this wholesome emulsion relieves the trouble and rebuilds the forces to resist tubercular germs and avert the weakening influence which usually follows.

If any member of your family has a tender throat, get a bottle of Scott's Emulsion-to-day. Physicians prescribe it to avert throat troubles, overcome bronchial disorders and strengthen the lungs. No alcohol or harmful drugs. Always insist on Scott's. Scott & Bowne, Bloomfield, N. J. 15-35

Railroads Reject Switchmen's Demand

CHICAGO, Oct. 29.—The eighteen railroads involved in a demand made a month ago by 4,000 Chicago switchmen for an increase of 2 cents an hour have rejected the demands. It was learned today and committees representing the two sides will attempt to compromise the problem in conference.

Chauffeurs and truck drivers will meet Sunday to consider a strike, as their demands for more wages have been declined and their position has been upheld by the teamsters' union.

had a gold balance wheel and was the property of Charles T. Henderson, Peyton's cousin. The watch had been given to Henderson by his mother and fitted with this balance wheel by her special request. When this particular watch came in a few days ago for repair the jeweler on opening the case, recognized it from its balance wheel. The timepiece had passed through a number of hands before it was purchased by the farmer who turned it in for repairs. Mr. Peyton promptly bought the watch of his customer.

Buy Many War Horses.

The Des Moines Horse company, buyers of war horses, is paying out \$1,200,000 a month to Iowa farmers for horses. This company is bringing about 1,500 horses to the city every week, and they are sold to agents of the allied governments. The English, Italian, French and Belgian governments all have government inspectors here. The horses purchased here are shipped direct to those countries. The first stop is made in Chicago, where the horses are given a brief rest and fed. They are then taken direct to the coast and shipped to the war zones. Belgium and England are buying gunners and saddle horses. Italy is buying some four-year-olds and draft horses. Horses which were worth only \$50 to \$75 before the war have gone up in price and buyers are now paying around \$150 for them.

Saved by Foot Ball Suit.

Harold Snooks of Ottumwa, 15 years old, was probably saved from death last night by his foot ball suit. He was returning from practicing with the Ottumwa High school team, of which he is

a member, when an automobile driven by Drew Collingwood struck him. The car knocked him down and the front wheel struck his neck. It encountered his shoulder pads and shoved the boy along in front of the vehicle. When the auto was finally stopped the wheel was on the lad's shoulder. Had it gone six inches farther it is believed it would have broken his neck. He lost most of his teeth, his right ear was badly mangled and he had severe cuts about the face and body.

The cause of Mr. Moulton's death was hardening of the arteries and general wearing out caused by old age. He came to Nebraska in 1864.

Many Babies Suffer.

Too many babies do not get started right because patience and the proper care was not given the hopeful mother. Experienced mothers now urge the use of Mother's Friend, to be had at any drug store, because they know from experience that this old, dependable remedy, applied externally, is absolutely harmless and is very beneficial. It soothes the muscles, cords and ligaments and relieves the undue tension, giving great physical relief from stubborn pains. Its influence in the skin and network of nerves cause the muscles to expand naturally. Thousands of women have successfully used it for 70 generations.
