#### COURTESY TO AMERICANS

Those Caught in Austria Treated with Utmost Consideration.

#### NO COMMENT ON WAR AFFAIRS

Persons Who Disparage Austrian Courage and Predict Serbia Victory Sentenced to Two Years' Imprisonment.

(Correspondence of The Associated Press.)  
VENICE, Oct. 23.—A news letter from Vienna tells some remarkable instances of the censorship in the Austrian capital and pays a compliment to the consideration shown to foreigners who are still in Austria-Hungary.

"That the warning from the police against comment on the military operations is to be taken seriously," says the letter, "is evident from the fact that a man who had remarked casually in a Vienna cafe that Austrian soldiers were cowards, was promptly arrested and sentenced to two years imprisonment with hard labor, with a fast once a week, and a day's confinement in a dark cell once a month. Another man who had been overheard saying that the Serbians would be victorious received the same sentence."

#### Hold American Papers.

Newspapers from America have been held back at the postoffice for more than three weeks, according to the letter, and telegraphic communication has proven so difficult that the people have practically given up trying to dispatch messages. For correspondence with the soldiers at the front special postcards and envelopes are provided, and each man may be addressed by a code number, but his whereabouts are not divulged, and the news exchanges is subject to such a rigorous censorship that only a few commonplace matters are written.

"It must be admitted," writes the Vienna informant, "that the Viennese, and indeed the Austrians generally, have treated the foreigners here, including even those of hostile countries, with a great deal of consideration. There have been no demonstrations against embassies or individuals. In a few instances Englishmen have been the victims of some unpleasant incidents in the streets, but these cases were rare and of slight importance. It is the rule to speak either English or French, and in that event one may feel safe from annoyance."

#### Courtesy to Americans.

"The local official news agency has taken it upon itself to remind the people that there are over 90,000,000 Americans whose mother tongue is English, and that in their midst are living many thousands of Austrians enjoying the hospitality of the freest country in the world. It therefore became the Vienna to extend the greatest courtesy to Americans here."

"There are, of course, a number of young Englishmen and Frenchmen under arrest to make it certain they will not fight against Austria-Hungary, but they are being well treated, with the exception of the fact that they have to sleep on the straw-strewn floor of the detention camps. They are allowed to correspond in German with their friends within the monarchy."

"The French women—governesses mainly—have given the police more trouble than the men. They frequent the cafes and often talk loudly in abuse of the Austrian authorities."

### U. S. SHIPS CAN CARRY OIL

One Tanker Taken by England Released and Others Likely Will Be.

### DENMARK IS MUCH INTERESTED

Doctors There Forced to Make Calls on Foot Owing to Scarcity of Gasoline, It is Reported.

WASHINGTON, Oct. 23.—The seizure of British cruisers of three American oil ships soon will be satisfactorily adjusted, in the opinion of the State department officials.

The release after a short detention of the tanker John D. Rockefeller by the explanation by the British ambassador, Sir Cecil Spring-Rice, that the vessel was detained only because of doubt as to the destination of its cargo, was construed as an admission by the British government of the right of American vessels to carry oil without molestation between neutral ports.

### No Chance Germans to Get It.

That Great Britain released the ship only after it had assured itself that, through the Danish embargo, there was no opportunity for the oil to pass into German hands was looked upon as concerning only Great Britain and Denmark. Moreover, it was learned that the State department has been informed that all of the neutral countries in northern Europe now have placed embargoes upon the exportation of any commodities that might be used by the armies or navies. This, it is believed, will reduce the chances of interference with American trade.

### Denmark Faces Famine.

Word came today that Denmark, facing a petroleum famine, was greatly concerned over the detention of the tankers. "Denmark depends upon Russia and Roumania and the valleys of the river Drina for its grain and petroleum," said the Danish minister, Mr. Brun, "and since the declaration of war this source has been cut off. Now we are forced to look to America for these supplies."

## Diet Grants Credit of Over Third of a Billion for the War

BERLIN, Oct. 23 (Via Amsterdam to London).—The Prussian Diet met today and passed war bills, including one granting a credit of 1,600,000,000 marks (\$375,000,000).  
The house and the galleries were filled. Many of the deputies, some of them wounded, attended the session in their military uniforms.  
After congratulatory messages to the empire had been voted, Clemens Delbrueck, vice chancellor, submitted the war bills. Herr Delbrueck said Germany had been forced into the war by the hatred and envy of its neighbors. He regretted, he said, that the imperial chancellor, Dr. Von Bethmann Hollweg, who had accompanied Emperor William in the field, was unable to be present. "I am the bearer of the sincerest greetings of the emperor to you, continued Herr Delbrueck. "He is following with lively interest your work which will heal the wounds created by the war. He wishes your swift progress in your deliberations."  
See readers are too intelligent to overlook the opportunities in the "want ad" columns. They're worth while reading.

## Keep Your Lungs Strong

This advice is doubly important with the knowledge that every three minutes some one in the United States succumbs to consumption and many refuse to realize they are afflicted until it is too late.  
It is after colds or sickness, from overwork, continuing duties or when general weakness exists that tubercular germs thrive because the resistive powers of the body are weakened.  
Only with fresh air, sunshine and abundant rich blood can one hope to arrest their progress, and the concentrated fat in Scott's Emulsion furnish fuel for rich blood, and its pure nourishment helps strengthen the lungs while it builds up the forces.  
If you work indoors, the easy, feel languid or run-down Scott's Emulsion is the most strengthening food-medicine known and is free from alcohol or stupefying drugs. Avoid substitutes.

## Didn't Know There Were So Many Jails

(Copyright, 1914, by Press Publishing Co.)

LONDON, Oct. 23.—(Special Cablegram to New York World and Omaha Bee.)—Eight Americans appeared at the American committee headquarters today having come from Germany, two of them were negroes, one of the latter a minister named William Garland, who had been in Berlin.  
The other negro was George Dixon, who says he never knew there were so many jails in the world as he found in Germany and he involuntarily spent some time in nearly all. Dixon's passport almost was worn out, a fact which he attributed to the incessant handling of it by German officials. On several occasions he thought they forgot about him after incarcerating him, but eventually he convinced them of his citizenship.  
Garland and Dixon will return Saturday on the Lusitania. Those who came from Berlin reported the German capital in normal condition.
