Brandeis Employes to Be Theater Guests That Uniform and Progressive Tax Trick

VOTERS:-Which do you favor-a law that taxes all kinds and classes of property on a valuation basis so that each shall bear its just proportion of the burden of taxation, or a law that simply taxes one kind of property and exempts all other

You never heard of such a law as the latter?

A JOINT RESOLUTION to amend Section 1 of Article IX of the Constitution of the State of Nebraska, relating to revenue. Be it enacted by the people of the State of Nebraska:

Section I (Constitutional Amendment). That Section 1 of Article IX of the Constitution of the State of Nebraska be amended to read as follows:

Section 1 (Revenue). The rules of taxation shall be uniform as to any given class and taxes shall be levied upon such property as the legislature shall prescribe.

"SUCH PROPERTY AS THE LEGISLATURE SHALL PRESCRIBE." Do you get the force of that? Are you a merchant? Suppose the legislature decided to exercise the full power here accorded it and selected your class of property to be taxed, exempting all other classes would you vote for this proposition? Are you a manuacturer? Suppose your class of business were the one solely selected for the state's entire burden of taxation, would you favor the law? Suppose the legislature, for one reason or another, picked out your property as the taxation scapegoat, how would the law suit you?

You, Mr. Farmer, suppose your land, improvements thereon, your machinery, implements, windmills, silos, stock and crops were determined upon as the sole objects of taxation from which the state's revenue must be raised, while the property, the genius, the industry of every other class of business in the state was exempt (as it might be under this law), would you vote for this proposed constitutional amendment, knowing this beforehand?

Or, Mr. Farmer, suppose only your land were taxed and everything else that you owned, together with every kind of property in the city, including plethoric bank accounts, valuable franchises and special privileges, were exempted, how would you feel about it?

Mr. Farmer, listen: That is the crux of the whole scheme. If the single-taxers succeed in slipping this one under your seventh rib, or that of your friend or neighbor, the city business man—it makes no difference—his next step will be a little nearer to your land as the paschal lamb of this passover. Don't lose sight of that.

Oh, of course, each one feels sure the legislature would not select his business or property and exempt all others, which, of course, is a worse vagary than the single-taxers' scheme itself. Some one's property will inevitably be selected to bear the brunt of the wanton

The present system of taxation in Nebraska is the product of the best minds and best experience we have had. Against it there is no protest, except such as may come from a handful of impractical theorists.
