It says: "According to the report of aeroplane observers our troops are very easy to discover in spite of their gray uniforms, because of the density of their formation, while the French know how to protect themselves perfectly from aerial reconnaissance. "During a flight our troops must make use of the narrow files among trees, at the edges of villages and near the shelter of houses, avoiding mass formations. Above all absolute stillness must be maintained in exposed places. At the approach of an aeroplane all movements should cease and it is also necessary to avoid all movement of batteries when aeroplanes are surveying. A single man moving will betray a battery. There should also be no firing, for the flash of a gun betrays its position to the air squadrons. "The success of the French artillery, which has caused such marked losses, is due first to their quickness in determining the position of our batteries. To equal them it is necessary that our observations should be pushed far to the rear in advance of the lines by men of good courage who are not afraid of sharpshooters."

Cascarets For Costive Bowels, Headache, Colds

Get a 10-cent box now. Turn the cascade on—the headache, biliousness, indigestion, the sick, sour stomach and bad colds—turn them out tonight and keep them out with Cascarets. Millions of men and women take a Cascarets now and then and never know the misery, caused by a lax liver, clogged bowels, or an upset stomach. Don't put in another day of distress. Let Cascarets cleanse your stomach, remove the sour, fermenting food, take the excess bile from your liver and carry out all the constipated waste matter and poison in the bowels. Then you will feel great. A Cascarets tonight straightens you out by morning. They work while you sleep. A 10-cent box from any drug store means a clear head, sweet stomach and clean, healthy liver and bowel action for months. Children love Cascarets because they never get up or down. —Advertisement.

"Buy It in Omaha." Rotary Club Slogan

Clarke, will be chairman, and the speaking guests will be Harry Linder and "Hoosier" Bob Manley, commissioner of the Commercial club. The call for the meeting also states that under a special rule, three men in the newspaper profession have been elected to membership. They are Victor Rosewater, editor of The Bee, William R. Watson, managing editor of the World-Herald, and John W. Kurtz, business manager of the News. The Rotary club's regular rate admits to membership only one man from each business classification in the city.

Positively Master's Compound

Foley's Honey and Tar Compound cuts the thick choking mucus, and clears away the phlegm. The gasping, strangling fight for breath gives way to quiet breathing and peaceful sleep. Harold Berg, Mass., Mich., writes: "We give Foley's Honey and Tar to our children for croup and it always acts quickly." AFFAIRS AT SOUTH OMAHA

Early Morning Fire Disturbs Occupants of Hannon Building.

A fire broke out in the Hannon building just north of the postoffice early Tuesday morning, creating damage estimated at \$80, and agitated to a considerable degree the tenants of the building. The fire started in a pile of rubbish in the rear of the boiler room and crept up through the floor into the Brunswick billiard parlor conducted by Harry Leopold. The fire department arrived a few moments after the alarm had been turned on and soon had the fire under control. The tenants evidently had secured some wind of the disturbance and when the department arrived not a single occupant was left in the upper part of the building.

Heart Failure, Not Assault.

Chief of Detectives Sheehan and Detective Lapinski report after investigating the death of Henry Arkotter, that death was not the result of an assault. Arkotter is said to have stumbled down a staircase to the rear of 282 1/2 street, from which place he was carried to the ground floor by Joe and John Sherba and Jim Meritt. Dr. Koutsky was called and after dressing the man's wounds he was removed to his home. Sometime during the night he is supposed to have died from heart failure, as his friends state that he had complained on several occasions of pains in the heart.

Given Farewell Reception.

Diseased Blood Calls for Help

If it is eczema, pimples, boils or worse—your safeguard is S. S. S., the famous blood purifier. It is always lined up to attack diseased blood. And it always does the work. It does the work after disempowerment, after alleged specialists, mercury, iodides, strychnine, arsenic and other destructive drugs that have roaped a harvest of mistakes and left a host of invalids guessing as to what is to come. S. S. S. is not such a drug as the cupidity or ignorance of man would be able to produce. It is Nature's wonderful contribution to our necessities. It is wonderful because it can be tolerated; can not be made any other way than to assemble Nature's products and produce what a host of men know as S. S. S., the world's greatest medicine. There are people everywhere that had an old sore or ulcer that defied all the sales known. And yet S. S. S. taken into the blood just naturally put into that old sore the elements that made new tissue, new flesh, and covered it with a new coating of healthy skin. Get a bottle of S. S. S. today of any druggist and let it do the rest to perfect blood health. But beware of substitutes.
